**Speech Tourney Opens Today**

Over Twenty-Five Colleges Here

Over 200 Men And Women Throng Campus For Speech Event Of Year

Have you noticed a lot of strange faces on campus today? Three hundred and fifty college students crowded here by the Gamma chapter of Phi Kapp Delta, Caltech's honorary speech fraternity, for one of the largest speech tourneys of the season.

Twenty to twenty-five colleges and universities are repre- sented by the several entries. Speaking in English and Spanish, and many others, both local and distant, some coming from Nevada and Arizona.

**Case III; Popene**

At Y Forum Instead

"Success In Marriage" To Be Topic Monday

Due to unexpected illness Dr. Harold C. Case, minister of the First Methodist Church of Pasadena, will be unable to deliver his "Success In Marriage" to the Y.M.C.A. Forum group next Mon- day night.

His place will be taken by Dr. Paul Popene, well-known coun- selor and founder and director of the "American Institute for Practical Relations," who will deliver his talk, the last talk of the series on the subject of "Make Your Marriage Happy" and will place will be the same, 7:00 p.m. next Monday night.

**Suspended Animation Study Renewed**

**Baloons Included in Guide Service Tour**

Interesting experiments in the suspended animation of protozoa, which have been held in the biological laboratories here at Caltech, this type of work was suspended during the war, and since the period has been resumed by the Institute.

In experiments the protozoa are completely deprived of food, but have a continuous supply of air and water. After a short while a process called "stasis" begins, and the protozoa slowly lose all bodily charac- teristics to the cytoplasm. While in this form the protozoa are impervious to food that may be added to the containing checker, so that a mixture of hayseeds will not enter the solution of the cysts. Part of this extract is taken through the walls of the cyst, and the pro- cess of revitalization begins. Just one part of the added mixture

In response to a request by ACTSC Vice-President Norm Lee, Chairmen of the various committees under the Board’s Control, we are reprinting below the complete regulations of the Honor System.

### The Honor System

While the vast importance which must be attached to the acquisition of the disciplines and necessary tools for Original Work (Continued on Col. 5)

The technical education given at a technical college cannot be considered complete unless it is aimed at the development of the whole man, not only at meeting the requirements of the industries of the day but at insuring to the student the knowledge of the fundamental principles of science.

The great satisfaction derived from creative work is secondary to the satisfaction derived from the right use of knowledge.

The preservation of the Honor System is a matter which rests in the hands of the students in this Institute, and the Board is entirely willing to give the necessary support to the students who may prefer to try the methods of personality development described above. The Board has, however, always been of the opinion that the best way to get the work done is to have the student himself do it. The student himself should be the judge of the work done by himself, and the Board is entirely willing to support the student who does it.

It is important to note that the enforcement of the Honor System depends upon the attitude of the students towards this matter. Failure to warn and, if necessary, to report violations will render the system ineffectual. People of character are a disgrace to the institution unless there is a strong sense of individual honor and responsibility.

The success of the Honor System is to be measured by the conduct of the students in examinations; to the Board of Control, we are reprinting the conduct rules and the regulations of the system. These rules and regulations are to be observed by all of the students at the Institute, and the Board has, however, always been of the opinion that the best way to get the work done is to have the student himself do it. The student himself should be the judge of the work done by himself, and the Board is entirely willing to support the student who does it.

It is important to note that the enforcement of the Honor System depends upon the attitude of the students towards this matter. Failure to warn and, if necessary, to report violations will render the system ineffectual. People of character are a disgrace to the institution unless there is a strong sense of individual honor and responsibility.

**Conference Relay Meet To Be Held At Occidental College Tomorrow**

**"Doc" Hanes Expects Tech Trackmen To Encounter Rough Competition**

The Intercollegiate Conference Relays are scheduled to be held tomorrow at Occidental College, 2100 O. P. Patterson Field, beginning at 200 p.m. This is the first big meet of the season, and not very much is known about the other teams, but "Doc" Hanes has been giving the track men a good workout, and the Tech ephebes will want to share their win of the honors.

---

**Conférence Relays Tomorrow**

**Blacker Challenges in Water Polo**

By winning three out of four matches, the Dabney tennis team put the Discobolus on the Dabney mantel for the first time in this year. Since three out of four matches of the contest had been won by Dabney at the time of the last match, that match was not played, giving the score 3-0.

---

**The Court Story**

Bill Lamson, Dabney number one player, opened by defeating Bob Walquist, who was placed in Fleming's number one spot. 61, 60, Lamson rated at four tenths on the tech tennis ladder, had little trouble in winning handsomely.

In the second match, swerveling of Dabney defeated Pico, from Fleming, 62, 61, and the third match saw Hamilton from Dabney best Stonesby of the Big Red, 63, 64. Stonesby started like a house afire, taking the first 3 games, but Hamilton fought him self and took the next 6 game, gaining an advantage that he never lost. Fleming's one victory came through the play of Shore, who defeated Ossett of Dabney, 63, 64. As in the other games, so in this one, superior play told in the deal.

**Blacker Challenges**

To date, Blacker has kept the decisive throw on their mantel for the longest period of time. Dabney held both him and Fleming through the first term, and well into the second, until Fleming stopped them in track. Fleming then kept it for 3 weeks, before losing possession. Just how long Dabney can hold it is a question. With many of the first two teams through the play of Fleming, 62, 61, and the third match saw Hamilton from Dabney best Stonesby of the Big Red, 63, 54. Stonesby started like a house afire, taking the first 3 games, but Hamilton fought him self and took the next 6 game, gaining an advantage that he never lost. Fleming's one victory came through the play of Shore, who defeated Ossett of Dabney, 63, 64. As in the other games, so in this one, superior play told in the deal.

**Tigers Trim Tech Cagers 51-23 in League Contest**

**Most Redlands Tonight In Last Home Game**

Occidental's fighting Tigers pushed their way to a 51-23 victory over the Varsity basketballers last Saturday night on the winner's floor, making it two wins to four losses in league encounters for the Beavers' squad. The lid was clamped tight on the Techmen's hoop while the Fenilans sank everything in sight.

Throughout the game, Tech showed lapses in ball handling which Oxy took full advantage of, making two on almost every interception.

**Regulars Out**

The absence of Harry Moore and the suspension of another Tech regular, was heavily felt as Oxy outplayed the Beavers most of the game.

Guard Bill Oix played a strong game, as did新股 Tech men, keeping Tech guards, each pulled in four minutes.

**Meet Buildings in Home Finals Tonight**

As Tech closed out the week, Tech will meet CalRes in Interhouse Track Meet, Friday, February 3rd. A good workout, and the Tech men's hoop while the lid was clamped tight on the Techmen's hoop while the Fenilans sank everything in sight. Throughout the game, Tech showed lapses in ball handling which Oxy took full advantage of, making two on almost every interception.

**Regulars Out**

Interhouse Bridge Tourney Close Race

The biweekly Interhouse Bridge Tournament, entered by Jack Frolich of Throop Club and Al Silver of Hyland, Blacker, Throop, and Dabney neck and neck. With three more meetings to play, any house can win possession of the Perpetual Interhouse Trophy during the Spring Semester. At present after two sessions Blacker, with two second places for six points, leads Throop and Dabney with their live points taken by single first places. Frolich and Lane of Throop and Evans and Kahn of Blacker seem the consistent pairs.

Intercollegiate Tourney

Wednesday the twelfth was the occasion of the Caltech participation in the National Intercollegiate Bridge Tournament. Under the supervision of Carl Savitt a set of 18 problem hands were played in the Athenaeum Card Room by four teams representing Caltech: Frolich-Lane of Throop, Evans-Kahn and Werner-Flam of Blacker, and Worcester-Tracy of Ricketts. Records were kept of each team's performance and these records from 15 other Chicago schools will suit two team records will be forwarded to the University of Chicago for comparison in the near future. Notices of Throp, Evans-Kahn and similar records from 15 other schools. From these Western schools. The prize for the finals is an expense-paid trip to the Zone Finals. There's Opportunity and Adventure in Telephony.

Music at Scripps

Henny Goodman, currently enjoying California weather following the completion of his band, has reportedly become quite Rustic-conscious. He is being wooed for a study in musical consultant for a series of radio programs to be broadcast directly into Russia by the State Department. Furthermore, he is negotiating with a Russian band, with a trio consisting of himself, a pianist, and a drum player.

Benny Goes Longhush

If the Russian deal comes off, Goodman is considering the possibility of appearing as clarinet soloist with the Moscow Symphony Orchestra. In the meantime, however, he will continue his regularity scheduled radio broadcasts using a studio pickup crew. He has recently commissioned Composer Paul Hindemith to write a clarinet concerto for him, to be produced as a featured selection during his concert tour. Aaron Copland and Samuel Barber have been actively soliciting soprano music; vocalists of his own finding. British Music to Be Heard

On stage at the Santa Monica Musicale will again present a program of compositions by various British composers. Among the works of British artists will be featured. The selections will include Gustav Holst's THE PLANETS, Vaughan Williams' A MORNING IDyll, and shorter compositions by Eric Coates. The very interesting musical score from the H. G. Wells motion picture, THINGS TO COME, will also be played.

Musicale Programs

Persons who wish to receive Musicale programs regularly are invited to notify the organization in the near future. Notices may be sent directly to the Musicale, Caltech, and deposits in the V box in lower Throop.

(Continued from Page 2) honor and peace until the gods are tired of blood and war--a race that can understand." The atomic bomb has made this murmur of hope so precarious, it is necessary for man to relieve the gods of their destined responsibility and alter a hypocritical society in which the idiot is illegal except in times of war. VERNON L. SMITH.

For Wednesday, February 26, at 7:30.

It's the first of the month--every few days.

That's not my personal opinion; I didn't get over there--Ken Gardner consumed most of the ice-cream served. Bu Butler took Jim Wiblo's girl, Peggy, to the Oxy game in real style. Borrowing Bincher's magnificent 28 Cadillac, he made out OK until the starter gave out and he spent 85 minutes waiting for air and another half-hour before he finally got started again. Nobody knows how long he took to get home.

House Party

Myron Arond and Ralph Loberg's mixer froth, set out last Saturday evening with high hopes after receiving an invitation to be a 'house party' given by Helen Pierspie. Entertainments consisted of such games as "hart", "coulee", and stacking matches on milk bottles. Following dancing in the garage where little brother acted as chauffeur, cookies were served, and then the excitement perked up as guests settled down to solitaire. However, when Helen took out her knitting gentle heroes decided the party was getting a little too rough, and Bob Hopper, Blacker man, decided to do more than gripe about high laundry prices. He bought a new washing machine, by renting it out at 50 cents a wash, is letting it pay for itself.

Bell Telephone System

The first few days of the month are a time of feverish activity for telephone accounting personnel. In that short period millions of telephone bills had to be prepared, checked, and mailed. But the Bell System accounting staff thrives on such work. Their efforts peak, found a practical solution. It's called "rotation billing." Now in our accounting departments, a new month begins every few days. Accounts are divided into six or more groups, each with a different billing period. This spreads the work evenly and eliminates the old last-minute rush. This special problem, solved by telephone accountants, is typical of those which often confront management in this field. These problems present a stimulating challenge to the young men with initiative and imagination who will find just such practical solutions--young men who find telephony an exciting and rewarding career.

The New Moonlight Rollerway

For an evening of entertainment and fun, you'll enjoy the New Moonlight Rollerway at 3845 E. Colorado Street, where you can skate every evening from 7:30 to 11.

Many students have skated at the Rollerway, the site of many house parties, while others have never been there. Mr. Stoddard Gunser, the manager, would like to extend an invitation to all students to Caltech to come out to the rink some evening at his guest. There are no strings attached to this offer, he just wants you to enjoy your ylabel and become acquainted with the Rollerway and see what they have to offer in the line of entertainment. For you are given free admission and skate on ANY night, the only charge being the 11 cents government tax.

Bring Your Gift

Mr. Gunser, in his attempt to make the evening enjoyable, will allow a Caltech student to bring his date, and she will be admitted at no extra charge, except the tax. Just clip out this coupon and present it at the box office.

This coupon entitles the Bearer to FREE Admission and use of clampon skates at THE

Fleming Tops Danby in Interhouse Race

No-Hit, No-Run Contest Features Week’s Play

Fleming Wins "No Arm" Norman, the athletes from Fleming, defeated Danby’s Del in Wednesday’s to the tune of 3 to 0. Credit for the no-hit, no-run epic goes to the pitcher, Norman, who performed a perfect 9-0 on the mound, carrying the two runners off the bases as they fought through the bases to return load in the baseball house race.

Fleming Alertness Wins

Fleming was the first to hit, the Fleming men batted one. They then lost a game with two runs in a big third inning. It all started with two awfully funny merle drew a walk, and stole his way to third. When the merle dropped a Texas-League right field and made a third on a passed ball. Schroe- der then hit the ball to the hot third baseman, who bobbled the ball before reaching the field, but first baseman was safe.

Ricketts Triumphs

McGrane held the mound for Blacker when they hosted the Rowdies from Ricketts last Tuesday. But the men from Blacker were not able to score. The Rowdies bowled the ball to the fielder, door in the ball toward the score at 62.

Campus Gleanings... Near and Far

Marti Guidice

An old Southern tradition has moved north to the Montana State University. The student body will celebrate the event with a King and Queen, carnival concessions, and a floor show.

Stadium Plans Rejected

The Los Angeles Office of the Civilian Production Administration turned down the application of Santa Monica College to build a new football stadium.

Just Like Dogpatch

Women residents of one of the dormitories at Illinois Wesleyan University had to vacate their rooms last week just when a cold wave was approaching. Reason: the boiler went on the blink.

Studying Finals Changes

At the request of the campus GI organization a committee at the University of Texas will study their proposal to exempt the top 25 percent in each course from taking finals.

Dad's Day

Whittier College students entertained their fathers last week at their first annual Dad's Day. Events on the program included an informal get-together, dinner, student theater performances, and a basketball game.

May Expand

The Los Angeles Board of Education presented a resolution to the State Department of Education to establish a four-year program at Los Angeles City College.

training program in Schenectady, New York, for young engineers, and the positions available for men who are experienced and who expect to receive advanced degrees.

This address will be prior to the General Electric Company interviews starting Wednesday, February 26th.

Furnish Opportunity for M.E.

A position in Los Angeles has a position for a Mechanical Engineer who will receive his degree in June 1947. This company plans to train the accepted applicant in various technical phases of their operations, including design, die-making, plant engineering and maintenance, and technical aspects of inspection in metalurgy. The man will start in the design drafting room, working on plans for permanent models, etc.

Personality is an important requisite of this employer.

Anyone interested in this position should make an appointment with the Director of Placement.
