Stimulating success of the social scene, the annual Inter-House Dance, drew one of the biggest throngs ever to fill the Inter-House Dance.

As an added attraction, at last Saturday's dance photographs in Europe aroused a great deal of interest. Ralph Crane and Bob Roberson, who took the pictures of the farthest, was almost more work than they were able to handle. But the most the photographers the entire dance, and it was the evening. There were no pictures of Lucifer, with a Jacob's ladder held high in the air. Father Time carried a new year's calendar, and the Techmen, and all those interested in the dance, all of it all effort.

Dictates Boothe Pictorial.

Although practically everyone agreed that, as usual, the dance was much more work than it was worth, all those who attended were quite pleased with the results of better than two weeks planning and effort. The total bill was presented to the door, the last two digits being the only view available to all.

Thrupp Ingress

Thrupp was judged to have the most ingenious decorations of the evening. The Teleprom television set was a most interesting exception of a good idea. Support The WSSF

During the course of the year you are asked to give in many causes. The Red Cross, the Community Chest, the March of Dimes, all these and many others ask for your help. But among these there is one that is the specific daily duty of students to the World Student Service Fund. The World Student Service Fund is the responsibility of College and University students of this country. This fund is set up to aid the students of other lands, to help them when they cannot help themselves. Your many annual books, foods, and supplies are sent to the students of other nations. Without these things these schools would be unable to continue at all.

This drive is supported by the faculty and students alike. Elsewhere on this page you may read what Dr. Dubridge has to say about the W.S.S.F. Read it carefully.

Dubridge on WSSF

The events of the past year have emphasized again the great importance of rehabilitation, educational, and scientific activities in the war-devastated countries of Europe. Though much progress has been made it is still true that the universities of all European countries are struggling against poverty, wars, and difficult conditions. The helping hand restored to the universities directly by students and faculty of American universities can mean more than all the dollars the governments must provide under the Marshall Plan. Educational and cultural contacts between countries are not provided for by governments but through the people. The W.S.S.F. offers an opportunity for the men and women in American universities to extend a helping hand directly to their colleagues abroad and this effort deserves the support of every student and friend in this country.

The Town Burned

Hamlet has withstood the events of four centuries, and the motorists of Hollywood have been charmed by his film version of Hamlet. But to the actor who has played the role, it is a very different thing. Mr. Olivier is perhaps the most famous of the film Hamlets, yet his film version of Hamlet is not considered by many critics to be as good as his stage version. Nevertheless, his film version of Hamlet is still considered by many to be one of the best versions of the play ever made.

Concert Set By Musical Groups

Under the leadership of their new director, Mr. Laura Jones, 150 students in the music group and glee club are off to a profu-

sious start. Each section of the group is working hard to achieve musical success. The next concert will be held at the end of the

coming week.

Time

There is but one key deal to

this, and this is

since

vowell a little sight reading,

Concerts standar

feature the first movement of who is executive secretary of

goal in mind.

number sessions for rehearsals, the
glee club are this

year reorganizing with a definite goal in mind. The selected pieces are rehearsed from time

to time until they attain a fine

standard as music. This

brings a lively sight reading

conditioned on work bad spots, and general working over of pieces each week. This

procedure has been remarkably suc-

sful in producing good results.

Many Members

The membership in both or-

ganizations has also improved

since last year. The combined

groups have an approximate membership list of seventy, which

includes quite a good number of men who do not have to be forcibly torn away from

books.

More News

One reason why we should encourage this year's membership to

participate in these groups is that this is good training for many students who our potential leaders in

the entertainment world. Each group and club has a very active budget, and a fine group of officers to

keep things running.

Colleges Represented

In addition to Mrs. Cushing, Stanford, Artesia, E.S.C., Wash-

ington, Oregon, U.C.L.A., Red

lands, Pasadena, Whittier, and

Caltech will also be repre-

sented, according to Professor

Robert G. Tomlinson, who is executive secretary of the

club.

Further News

Also, Mr. Jones is looking for a man with some

music sense to work with her orchestra. Anyone in

students could find some time during the Wednes-

day night rehearsal.

The future plans for the

groups are rather unclear;

they depend almost com-

pletely on the quality of per-

formance. With a good orchestra and glee club there is

no limit to the possibilities. But a good organization is going to

take the place of a lack of ambition on the part of either

leader, beginner, or both. It is not practiced for a long time.

Blacker Socialites

Plan Light Sports

The river Styx has melted

into the ground and the Dethers are out. Blacker is again

elegant after Bismarck's "Forsaking in Hell," but memorials of the

same calamity linger on.

Blacker now reverts itself

for a social calendar printed with

words. Friday evening Blacker will vie with its dates for

singers to major groups and

plunging at a local descent. Sat-

day night, of course, the

Redlands glee, and Blacker House will be the return to a past-time

record.

Marry Not An Engineer

I say it in the interest of

yours, not an engineer, for the engi-

neered of many devices, yes, he

has gone over his packages which he collects,

with a big stack which he calls a nulce and he but one little

head.

He talketh of all stress-

ure and strife, and without end of

They said, "You can't do it!"

But Du Pont scientists developed a synthetic rubber with superior properties

"Synthetic rubber is an impossibility at the present time," said a probable phosphorous scientist a number of years ago. And perhaps people were right. Age, with its sagacious because for more than a century chemists have been unable to duplicate natural rubber. Du Pont scientists knew that all rubber is not the same. They knew that a new chemical compound can be made, even if it means the destruction of all the laws of 'natural but they took as their starting point a discovery by Dr. J. A. Nieuwland of Notre Dame in connection with the polymerization of acetylene. By modifying this process, they made a new rubber compound called chloroprene-a thin, clear liquid at low temperature that hardens at high temperatures to form a rubber-like substance. But this all is not rubber. It requires no vulcanizing, no heat, no solvent. It can be used under many service conditions.

The three types of Du Pont research teams were:

1. Modern rubber compounds
2. Natural rubber compounds
3. Duplex rubber compounds

In a year, even though it is Igor higher than natural rubber. Handily it is, because it is not so soft, so good, so much like its natural relatives, but the same. The compound is made from synthetic rubber and some other products. It is more durable than natural rubber, and with a little work can be made into a rubber-like substance. But this all is not rubber. It requires no vulcanizing, no heat, no solvent. It can be used under many service conditions.

Leather Lungs Eke Out Second Place Against SC

In a gallant show of speed, mentionable performance in the last Caltech lacrosse game, the Cheyenne Cougars took a hard fought 12-9 win in the Mountaineer's nest. The Caltech team was the only constants, this time.

Post Squad

SC showed up with a very fast and quick squad and proceeded to take advantage of a seemingly inexperienced team in the first and second periods. The only disappointment was a close finish at the end, bringing the final score to 12-9 for SC. The final game was quite a thriller, with the final 12-9 for SC.

Good Old Brown

Caltech is quite a team, but the young Caltechers are a different story. With the boys playing their most exciting game of the season, the final point was a 12-9 for SC.

Bear Polo Team Drops Close Match To Occidental 3-2

Last Friday, Caltech's water polo team played an exciting and suspenseful game at the Occidental College. The game was played in the Occidental College pool, the first time in recent memory, the Bears have played in such a fine facility. The final score was 3-2 for the Bears. The game was a thriller, with the final 3-2 for the Bears.

Tech Keglers Host Trojans

Caltech's bowling team is off to a good start at the first match at the Pasadena Ice Bowl, November 14, 1948. The Trojans came out on the losing end of a 5-2 score, blasting the Bears for a sweep in the second game series. The score was 5-2 for the Bears.

Frost Sports Roundup

Putting on an exciting show for their side of the ice box, the Bears and Trojans were neck-and-neck in the first half of the game, with the final score remaining tied at 3-2. The Bears broke the tie with a powerful third inning, winning by a score of 5-2. The Bears went on to win the games.

Beavers, Bulldogs Tangle At Bowl

Both Teams Point For First Win

In League Tilt; Enter On Even Basis

Axious to enter the win column in league competition, Maon Anderson's spirited engineeering, the University of California Bulldogs Saturday afternoon were on the lookout for a victory. The Bears, however, have taken the lead in the league, with a score of 5-2, and are now the leaders in the league. Each squad has an equal chance to win both games, with the Bears leading, 5-2.

Reidlands has taken the conference crown for three consecutive years, and the Bulldogs have been in the championship for the fourth time. But the Bulldogs have definitely fallen to lie up to their reputation, having lost 5-2 to the Bears this year. The bearing Tigers handed them the first defeat of the season.

Couch. Coach Coxman of X, Y and Z formation fame, had fought hard, having many reasons for the contest with Reidlands. But Reidlands did not appear to be quite up to par. The Bulldogs were taken by surprise in the second quarter, winning by a score of 5-2.

Frost Sports Roundup

Putting on an exciting show for their side of the ice box, the Bears and Trojans were neck-and-neck in the first half of the game, with the final score remaining tied at 3-2. The Bears broke the tie with a powerful third inning, winning by a score of 5-2. The Bears went on to win the games.

Blackber Romph Over Throop 72-27

For Discobulus

Last Sunday afternoon, the raging Hitcher copped a No. Throop over Throop 72-27 to regain the Disobulus trophy. The Bears, with Sanford Sweet and Thorne Enger leading, have scored 20 points in each of the last three games. The Bears went on to win the game.
