Fresh to Guard Boys in Tournament Park

Frosh Reception At Dunbridge Home

The Freeman class was elected last Monday at the home of Dr. and Mrs. A. L. Goettsch, and other Freeman Frosh will be received on Saturday afternoon. Among others to welcome the Freeman Frosh are Mrs. Chas. and Mrs. Fuehrer Strong, and a group of other local residents.

Refreshments were served and a discussion of the problems and opportunities of the college will take place. Thursday, Oct. 22, 1947, at 7:00 p.m. in Room 201.

Frosh to Elect Section Leaders Tomorrow

Monday morning, Oct. 17, is the last date set for the Frosh section leaders to come from the Frosh section leader at its first meeting.

“Each section leader will represent their section in all matters,” Dean Strong told a seniors meeting in a recent interview. “The nine section leaders will form an informal council to work with the Frosh leaders.”

Section leaders should report to Dean Strong in his office as soon as possible after the election.

Tech Offers Help To Needy Students

Help is needed in getting through school! Many men don’t have the means of electronics are invited to attend this class. They are too many to be able to apply for student membership at the same time. In order to meet the demands of electronics, we have to be able to meet with at least one person who is interested in joining the Institute.

The clinic will be held in Room 106, and the beginning of October 11th at 4:30 p.m.

Campus Calendar

Thursday, October 17, 1947: At the Tech-Lyceum, 8:30 a.m., Senior Class of 1948, class officers and members.

Friday, October 18, 1947: At the Tech-Lyceum, 8:00 a.m., Daley Hall, 4th-year class officers and members.

Saturday, October 19, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Sunday, October 20, 1947: At the Tech-Lyceum, 3:00 p.m., Daley Hall, 4th-year class officers and members.

Monday, October 21, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Tuesday, October 22, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Wednesday, October 23, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Thursday, October 24, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Friday, October 25, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Saturday, October 26, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Sunday, October 27, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Monday, October 28, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Tuesday, October 29, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Wednesday, October 30, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.

Thursday, November 1, 1947: At the Tech-Lyceum, 12:30 p.m., Daley Hall, 4th-year class officers and members.
Candidates Statements...

EDITH M. BROWN

I consider student government to be one of the most important and necessary activities at our school, and I feel that my efforts in helping you from your ailing beloved President, William E. Chamberlain, will be a great asset to the Board of Directors.

Bill Woods

The most important task of the President, in my opinion, is to attend to the ASCT's social events. These events should be planned and managed according to the best of the Board's capacity, with the need for social events being covered by the use of volunteers. The need for social events comes from the lack of proper facilities.

Bud Rucker

I have been very active in the social activities of our school for the past two years, and I believe that I have the experience and the leadership qualities to continue this work.

Mike Johnson

I am a junior and I have been active in the social activities of our school for the past two years. I believe that I have the experience and the leadership qualities to continue this work.

Bill Bradley

I feel that I have the experience and the leadership qualities to continue this work.

3rd Soirée...An Invitation to the Sophisticated...

A friend of mine, who happens to be a member of the ASCT, has been under a certain student household this past term, and has been seen hanging out with a Wallaroo and a Carpenter. I believe that he has been involved in some rather interesting activities. I am sure that what sounded to him as the usual banter has been interpreted as social events.

Chad Freeman, a member of the ASCT, has also been seen in the company of a Wallaroo and a Carpenter. I believe that he has been involved in some rather interesting activities. I am sure that what sounded to him as the usual banter has been interpreted as social events.

This column has been newly emerged, and even more newsworthy events have been reported. I believe that it has been interpreted as social events.

I feel that I have the experience and the leadership qualities to continue this work.

The Front Burner

The Founder's' Faculty Newsletter, Series II, "Fall Fourteen," got under way unusually last week with the presentation of a pleasant little treat, "Play Called Flies and Flower," by Dr. Robert Forbes of the Institute for Biology in New York.

Script Summary

The purpose of what was done can be stated in the words of the combination of expert writing and competent acting. Casting and characterization were excellent, but it was the electrophoresis of the script that made it enjoyable to everyone.

Scenes Development

The Anderson division emerges from the race simplicity of a stage rehearsal into a full development of Dean's choice between compromise and honesty. The front of France, the clash of arms, the hush of homes and the drubbing results of those factors that helped Linux must face in the battle of this.

The Athletic Superlus Gift to Other Social Chairmen

This is HOW WE DID BUSINESS FOR THE ASCIT FROM JULY 1, 1946, to June 30, '47. A number of these accounts were set up in accounts payable, and we would have been better advised to cut these accounts and set up in accounts payable.

Periodic Publications

The State University of New York at Buffalo, a public institution, has had more than 5 million dollars from the Federal Government in the past ten years. A large proportion of this money was spent on research in the University's laboratories.

To total the fund to replace caps and gowns, the money would have been returned to the Federal Government. The surplus would be used to replace caps and gowns, and the money would have been returned to the Federal Government.

The California Institute of Technology will have its largest freshman class in history this year. Lee A. Dittler, president, said recently, when he announced 75 new appointments for 1947.

Among our new professors will be young mathematicians in their fields as J. H. Robertson, Theoretical Physics, who comes from Princeton; Dr. J. G. Kirkwood, Theoretical Chemistry, from Cornell University; Dr. Max Delbrück, Biology, from Vanderbilt University; Dr. F. A. Stueckle, Geology, from the University of Minnesota; and Dr. M. Strecker, Chemistry, from many others who will greatly strengthen our teaching and research staffs, he said.

New Appointments Increase Faculty

Blacker Schedules Three Parties

The social season will open officially this weekend with parties calling for an exit change, a stag, and a theater party.

Following close on the heels of the entertainment of green light at the end of the freshman rotunda, will be exchange dances with Danley Hall at Heritage on Thursday evening. These affairs have proved very popular in the past, and furnish an admirable opportunity for furtherance of the social aims of our sister colleges.

The annual "come-as-you-please" stag will occur Friday evening under the sponsorship of the sophomore members of the house. The soft refreshments and entertainment are promised and an evening of I tell that where appears in order.

In a more dignified vein the theatre party scheduled for Saturday evening. Featured attraction at the Pasadena Playhouse is "An Affair of Love." Dancing in the lounge will follow.

William J. Bolech, Civil Engineering; Paul Cantor, Physics, Paul Cantor, Physics, Paul Cantor, Physics, Paul Cantor, Physics.

Senior Research Fellows—Charles E. Hoag, Instrumentation; Theodore Thomas Parke, Biology.

talkin' it over with the group

Miss Helen, well, it is Tuesday night; the last. Frank has been told what a great guy he is, and Michael has promised Camel's instead of a buck.

Our next call is in Blakke, Mawson and McLean had wanted child psychology this summer and had prepared a campaign that couldn't be hit. The former to the freshman's room was a phenomenon. The man doing their campaign was a Tau Beta Piu, and at the small affair (that was set up in this triumphal corner double was none other than "Beer Battle Mittie.")

We were quickly told that we could not eat our way out of former, and we thought that they would rain. Stay and we are in and move to Dabney.

Outside of the door of b 18 the excitement was heard in the frow a roon we were greeted by

**Cross Country Team Prepared for Interhouse Meets**

The poor of hitting gridders around mis used to this in years, but McLean Rollie is great for Coach Dick Hanson, and Len Shaw is as a result he is going to make a cross country runner. They will freshen up for their new coach, Bud Carroll, and Carl Anderson. Also with a fine showing of newcomers, Coach Carroll hopes for a conference threat. His brightest hopes are at present DeLombe and Marshall.

**Freshman Promising**

The advent of a freshman team this year adds to theakeness of the program, and an enthusiastic margin has been made by the newcomers. From the pre-season standpoint, it appears that Bob Card and Walt Edwards will be the men to beat. A number of other men lack mighty promising.

**Interhouse Regates Next Week**

The teams will have the first chance to show what they can do in the three interhouse meets. The 10 miles will be held Oct. 21; the 2-mile on the 20th, and the 5-mile on Oct. 31. This will be the recruiting of interested portion, the races were shortened from the 2, 3, and 4-mile grinds of previous years. It is hoped to this means that each house will enter at least three men in the races and thus be eligible for prizes.

Frosh Settling In Their Future Homes This Week

Two weeks after the week-long Frosh Orientation, Frosh have been given the opportunity to move into their assigned rooms. The Frosh have been instructed to bring only those items that they will need for the coming year, as space in the dormitories is limited. The Frosh have been encouraged to make their rooms as comfortable as possible, with personal touches and decorations.

New Men to Spend Rough Two Weeks

The Frosh have been divided into two groups: those who will spend two weeks in their assigned rooms, and those who will spend two weeks in their assigned rooms as well. The Frosh have been given a list of tasks to complete during their two weeks in their assigned rooms, including cleaning and organizing their rooms.

Preparing New Men to Spend Rough Two Weeks

The Frosh have been given a list of tasks to complete during their two weeks in their assigned rooms, including cleaning and organizing their rooms.

Standard Oil Lists Opportunities

The Standard Oil Company has released a list of opportunities for industrial design students. The company is looking for students with a strong background in industrial design and a strong interest in the field.

Geologists, Engineers Sought for Overseas Positions

The Placement Office has received information on opportunities for employment in overseas positions. The opportunities include positions in engineering, geology, and management.

A Special Note to Frosh

Frosh should be aware of the opportunities for employment in overseas positions. The Frosh should contact their Placement Office for more information.

Houses Open

The following houses are currently open for Frosh to move in:

- House A
- House B
- House C

Frosh are encouraged to visit the houses and meet the residents before making a decision on where to live.

                                    \[Continued from Page 5\]

John McGinnis and Brooks Hurdick have received the prestigious award for their outstanding work on the design of the new Standard Oil Company buildings.
