THE FRONT BURNER

"Our Hearts Were Young and Gay" is the romantic, best-selling novel by Cornelia Otis Skinner which has been brought to the screen through the genius of Jean Kerr, the Parisian, which opens at the Fox, Wednesday, Oct. 29, for a two-week run.

As is generally known, the play was written by Jean Kerr, who is also noted for her many other successes such as "The Man with the Golden Arm," "The Men," "The Bellman," and "The World of Suzie Wong.

Sixty years ago, when she was six, Jean Kerr was born to a family of fourteen children in New York City. She began her career as a newspaper reporter and later became a successful writer of novels, short stories, and plays.

The story of "Our Hearts Were Young and Gay" is set in Paris, during the years of the French Revolution, and tells the story of a young girl named Elise who falls in love with a handsome French poet named Charles. Despite the social and political upheavals of the time, the couple's love remains strong as they struggle to overcome the obstacles that stand in their way.

The play features a cast of talented actors, including Jean Kerr as Elise, John Wayne as Charles, and Richard Widmark as a young revolutionary. The production is directed by the renowned director John Ford, who has worked on many successful films in the past.

"Our Hearts Were Young and Gay" is a heartwarming story of love and adventure that will captivate audiences of all ages. Don't miss your chance to see this classic tale on stage and experience the magic of Parisian romance.
This week’s “Your Campus” moves of campus in an attempt to impact some much-needed and very timely information. Since it is the policy of this column to cover all activities on campus, it is fitting that this “our” subject—which upon closer examination more than likely offers more than meets the eye—has been devoted per week to any other topic.

Hence, the following: A list, pretty probably incomplete, of pertinent phone numbers, from U.C.L.A., R.C.S., Pomona, and O.C.

Twenty-three of the visitors chose to remain and enjoy the persuasive performance of the Frosh; however, when it was learned that the dear house mothers at Oxy had held them check and the delegation was in danger of losing its group spirit, Tech boosted them handling back home. It is not likely that on one Techman, at least, was so overcome by hospitality that he paid a reciprocal visit to Oxy on the same evening from whom we has developed an equation to say: One Techman is equivalent to 20 Oxymen. Friday's game will gross experimental data on this.
