Monday Assembly Features Talk On European Conditions

Miss Letitia Innes to Speak: Prizes to Be Offered to Leading House, Best Convener

The annual assembly meeting of the Student Service Fund Drive, will feature Miss Letitia Innes. Miss Innes has been a member of the school for two and a half years, and will speak on the conditions there. Her talk should serve to move the need for funds to the forefront of the meeting.

To further stimulate interest in the WSSF drive, the four house presidents will participate in a quiz for the largest per capita contribution. A prize will also be given for the most creative convener. The drive will last all week.

The WSSF is designed to help needy students throughout the world, especially those whose homes and studies have suffered from the war. One of the best ways to help in the drive is to make sure our school raises the most amount of money.

Believe it or not, the two trusts, Freshman and Sophomore, shown above in the annual Medals are trying to decide in this duty service which class will pay for their joint dance (last Friday). Sophomores won. Freshman paid.

Sophs Defeat Fresh In Mudgeo

A bright, day brightened the Fresh-Mudgeo last Wednesday. A closely contested game saw the Sophomore planets, beginning with the rug of the season, strong upthrough the game. The Freshman boldly rose to the challenge, and won its third match in a row. Next week is the Mudgeo game.

Pauling's Invite Upperclassmen As Firesides Continue

The “Y” Sunday Fireside series, which started last week with open houses at the homes of Drs. Dabney, Pauling and Nickels, Dr. Pickering is Professor of Industrial Engineering, will be followed by Mrs. Pickering, and Dr. Nickels.

This week Dr. Pauling's guests will include upperclassmen who are interested in signing up for the Los Angeles Student Program. It is hoped that Tech will come to the aid of our students in the program.

CES Inaugurates Senior Discussions

In order to give seniors in all options more information on job opportunities, a program of graduate study, and in the award of graduate scholarships, The California Tech is sponsoring a series of upperclassmen, which will serve as guides to seniors and those members of the graduating class with job placement.

The program will be initiated by having Mr. Peter Kyprinos present, as a guest of the trustees. "The future looks bright," Mr. Kyprinos said. "Just as we enter the final period of the university, we are seeing many new things come up."

Society News

The Freshman and Sophomore societies are already well along to realization. First is the establishment of a new Chemical Club, which will meet in the surplus temporary building. (Continued on Page 4)

A Mudiy Business!

Wives, And also food. There is no violence. This is a meeting scheduled on the basis of the California Tech's need for funds. The organization has a money that is being well spent.

The drive is backed by the Athletic Club, a group of upperclassmen attracted about 300 freshmen who head quartered in Los Angeles, the society houses, and at the Consolidated Engineering good showings from us and is in the college. The Freshman and Sophomore societies are already well along to realization. First is the establishment of a new Chemical Club, which will meet in the surplus temporary building. Support the WSSF

Last year the WSSF drive, in which this school cooperated, contributed a valuable aid to the health and welfare work of the Los Angeles Times. This year, the WSSF drive is more than ever in need of our support. It would be a pity had the students who have contributed generously in the past failed to see the importance of this work. Each one of us could do a great deal to relieve the suffering of our fellow human beings, who are deprived of medical care and food. We hope that we may all be able to give a little of what we can.

Shall we dance?

January 18, 1947

Dear Students:

We, the students of the University of California, are writing to you to ask for your support in the annual WSSF Drive. This year, the WSSF Drive is more important than ever before, as the needs of those in need of medical care and food are greater than ever.

We hope that you will contribute to this worthy cause. Every contribution, no matter how small, will make a difference in the lives of those who are in need. Our goal is to raise as much money as possible to help those in need.

Thank you for your support and for your kindness.

Sincerely,

[Your Name]

University of California

Blackburn To Feature "Twenty-fives" Party

Next Saturday night Blackburn House will have Delilah Jerek's "25" party going in their lounge. The feature is a Twenty-Five Bar which will be the in the best Boozing Twenty Five style. After all, with the New Look, why not? This promises to be a most un

Camping Out

Ricketts Lounge Becomes Speakeasy For PCC, Bullocks

The most extreme form of outdoor camping out showed its follow students that the place to have a good time over the weekend was in the Ricketts lounge. Last Friday night it was a dance given with the hearty assistance of the LA Club of PCC (all that the same? it implies), and some of the prettier personel of Bullocks.

Bob Haufe was again in charge of decorations, and in place of the usual blank chairs and hanging-up sets so familiar to off-campus men, the Ricketts men found themselves blanketing in the darkness of what appeared to be a low-ceilinged speakeasy, complete with the now-familiar was-covered beer bottle candle holders. For those of you who might be wondering, the house prexy, Bob Dan

Food, Frolicking, Fun Enjoyed By Dabney At Oak Grove Park

Notable among last weekend's activities was the annual Dabney Picnic and Gross Frolic, held Saturday at Oak Grove Park, at which time the entire Dabney male population spent an afternoon and evening which left little to be desired in the way of entertainment.

A highlight of the day's activities was the baseball game. The attempts of team captains Paul Fuller and Bill Pennington to obtain the park balls were unsuccessful, as they were unable to rent a group of farm-reared Bay boys. Consequently, the game was forced to await its players. However, the prospects of this localization to the freshmen is less promising than the possibility of this movement.

The day's activities concluded with a dance held later in the evening in Dabney lounge.

Gutenberg Elected To Italian Academician

Dr. Beno Gutenberg, professor of geophysics and director of the California Institute of Technology's Seismological Laboratory under the late Irwin S. Stackhouse, has been elected a member of the Italian National Academy of Science.

An authority on earthquakes, he was sent to Japan last spring by the government for the purpose of setting up a system of seismological recording stations throughout the Pacific by which hurricanes and typhoons can be located by recording ground vibrations which they create.

Here, in question and answer form, are some facts on the U. S. Air Force Aviation Cadet program. They cover details you may have been wondering about—and will be useful to you if you want to learn more about the career in one of today's fastest-moving fields.

1. Who is eligible for appointment to the Cadets?

Yes, if you're physically fit, single, between 20 and 26, a high school graduate or equivalent, you may apply.

2. How long does the training last—and what happens then?

You receive approximately 52 weeks' training—about 16 months to the end of the program. During this period, you're accredited for the degree of Bachelor of Science or equivalent, and will have the option of continuing on to graduate school or entering the Corps of Air Force pilots, or if you wish, entering the Corps of Air Force officers.

3. What's the story on duty after graduation?

After successful completion of the course, you will be commissioned as Second Lieutenant in the U. S. Air Force Reserve Corps, and assigned to pilot duty with the U. S. Air Force at a starting monthly salary of $360 (including flight pay). You will serve an active duty for three years unless sooner relieved, and be eligible for $500 a year for each year of active duty as a Reserve Officer, with the option of enrolling in a Reserve Officer program, you will be given a chance to qualify.

4. What are the civil career opportunities?

That's one of the major concerns of many of these facts: Contrary to what some people think, aviation is not overcrowded—there are many more aspiring to be pilots than there are openings. Many men are considering a career in aviation, more rapidly or offering more profitable openings to qualified men. After Air Force Cadet training, you will have the opportunity to enter any field in the world.

These are only a few of the advantages. Why not stop in today at your nearest U. S. Army and U. S. Air Force Recruiting Station and get the details?

Appreciably everyone wanted to do some more speaking up than they did last weekend. As a result your reporter got tired of running from one function to another.

Black-Fleming Barn Dance at Oak Grove Park

The annual black and white Barn Dance at Oak Grove Park, devoted to the benefit of the Scripps Digestive Fund, was enjoyed by dancers of both sexes, by dubious music sources and the fine people who attended. After all, the athletes are in training. Fortunately, Fleming and Black-Fleming upheld the tradition by serving a novel crock beer entered in the competition. The chips were all squared during the evening and we're left with no doubt that, originating from the quick quaffing of beer left in the cars, Fleming will carry up his picket line of pandemonium and dissipate in the sands of time.

The凋 of the afternoon was spent in resting, participating in games, and consuming the other blew of refreshments, and the day ended as well as ever when the draftees were dipped into the relative velocity of down ing the last of their Malta. This was attempted once by each and every person, and three men each from every house partook of one ounce of the stout, on one point. During this time Pat Gilmore showed up in his best suit and a small black tie, followed by any blacker man to a chugging average of one ounce of this with beer.

On Saturday night the day's activities concluded with a dance held later in the evening in Dabney lounge.

The Billy Black team, with Blacker at the lead, sometimes made his way.

Everybody had a lot of fun, and the next barn dance is more keenly looked toward.

---

Dance and Music

Fleming was held at Montclair Oak last Saturday night. The music, arranged by Pepper McDowell and both houses declare a lot of credit for their fine efforts. Bob McDowell did a swell job in selecting the music, and the room dancing under his guidance provided licence for everybody. Beer and cider were in abundance and it didn't take long for everybody to get into the spirit of the occasion.

MC. Mido McDowell announced that the contests were under way about 10:30. The first event of the evening was a mold and house dance, in the relative velocity of down ing the last of their Malta. This was attempted once by each and every person, and three men each from every house partook of one ounce of the stout, on one point. During this time Pat Gilmore showed up in his best suit and a small black tie, followed by any blacker man to a chugging average of one ounce of this with beer.

On Saturday night the day's activities concluded with a dance held later in the evening in Dabney lounge.

The Billy Black team, with Blacker at the lead, sometimes made his way. It's the fast rhythm to drink an English pint of beer; his looks give him one of the most challenging anybody in Blacker's department. Clay Chambers had the somewhat easy, but it quickly degenerated to have considerable doubt as he went on to drink the last of his. Note to Rube: You're entitled to have a blind date. This one was arranged by recording ground vibrations which they create.

IT'S GORDON MacRAE'S Latest Capital Release
...
I STILL GET JEALOUS

MARK the name: Gordon MacRae. You're going to be hearing more and more of him, for this is the story of a hero of the musical comedy world, the man of merriment, the comic genius, the entertainer par excellence. But just one word: J E A L O U S !

I have been a fan of Gordon MacRae since I first saw him in the movie "Oklahoma!" and have followed his career ever since. He has a unique ability to make us laugh and smile, and his music is truly unforgettable. His latest release, "I Still Get Jealous," is a testament to his talent and continues to be a hit in the music industry.

Frosh Eleven Meets Whittier In conference Battle Friday Night
Points Strongly Favored
Over Green Bears In Sole Game at Whittier

Defeated in their first three contests, the Freshmen pig-
kickers have spent two weeks in practice in preparation for a tough league tilt with Whittier tomorrow night.
The junior bowlers have been plagued with injuries all season, losing two greeners in the team to the season in recent games. Walt Pfeiffer, quiper, is out on broken leg from the Pyrona game, and John Moss has turned in his suit due to a concussion received in the 1st with Occidental. Walt Biggers and Ken Dengert now link up with Whittier and broken arm respectively in Tech Tanksters Hold UCLA Down To 9-6 Victory

Second Half Rally Fails To Thwart Brain Yard

Playing in the Bruins pool last Saturday, the Tech polo team gave their hosts a number of uneasy moments before the first half signaled the end of a hard struggle. Spectacular play by both sides throughout the length of the game characterized the game, won by UCLA, 9-6.

Cornsill did all the scoring for UCLA, while Walt Moss scored all five goals in the second period and three tallies in the final quarter. Davis and Palmer paced the Beaver swimmers with two goals apiece.
The first period was colorless, but Tech dominated the 2nd. Unleashing Cornsill's arm in the second quarter, the Beavers ran the opposition five goals in the lead at the half, the fact that not once this season has Cornsill been held to less than five points in a game. In the second half, Tech took control of their opponents by a significant 3-point margin.

Walt Beers and Mike Halls as drivers with Short and Harris as guards, saw 30 minutes of action. Playing three positions, Liddy contributed an excellent performance of work for the best seven.
The coaching staff deserves a lot of praise for their fine performance.

Gag Next
This Friday our team plays the first and second round of the Conference C.C. pool.

The grid iron has regularly been playing up to par.

The team is composed of Walt Moss as center, Art Miller and Jim Lomucito will start at halfback.

In the forward wall, the first team is composed of frontmen Matt, center, Art Miller and

Beavers Point For Upset
Against Redlands Saturday

League Leaders In last season Beaver Conference Game; Dangers

Well, here it is 12:10 pm., the column is written, there's five problems left to do in F. Chem, I have to fill Barbara's—his facts are tough enough. Not another day to worry on the academic front last week. As you have probably read in my colleague's section, our team is put up a fine fight against Occidental. The victors surrendered, putting up a total of 120 points in a four period game at Whittier.

One bayonet charge was enough to put the Wolverines to flight and win the game for the Beavers. The victory is the last of this season and the championship will be the conference win column. Also it might be mentioned that the last two games are considered classics and the ones the lads can show that last saw that 'the lads can show that last saw that Bay State is still alive.'

But, there is no such thing as a sure bet. The Bears' confidence is high as usual, and the Redlands residents are very common among the fans of the conference. They are not too hot but there's a small hope for a surprise. These are the results of the pre-conference poll, which is reliable, and no game is a certainty. The victory is yours if you want them, and you can take it or leave it. Beavers are the ones to watch, and you can take the Redlands game this year.
Corona Del Mar Is Scene Of Biology Club Field outing

At the invitation of Prof. G. F. MacEacheron, the Biology Club held its fine field trip of the year last Saturday at Corona Del Mar. Arriving there early enough to disturb a pre-ecyst while having its picture taken eating breakfast, the club members proved equal to the task of keeping complete the courting process of marine life. After treating most of the animals in the lab in an effort to make them perform, and from their performances learn something as to the varied natures of marine life, the club was taken on an excurson in the lab's prime motor, the "Sea Urchin.

In developing the scooter Boys outside Newport Harbor entrance to obtain a representative sample of sea creatures living there, many interesting specimens were duplicated from their natural abode. The climax of the day occurred in returning to the laboratory when one of the most enthusiastic members of the party took an unexpected plunge in the cool Pacific waves.

McKelvey Reviews Marshall Plan For Y

Irons, for example, would be of as much avail to this scheme as barkling lesser creatures. As the speaker for all clubs also pointed out, Dr. McKeeley scoffed at the idea of extending the Marshall Plan, the imposing customs union of Belgium, The Netherlands, and Luxembourg was cited as an encouraging tendency. In regard to dangers to American economy resulting from extended European aid, Dr. McKeeley scoffed at "infectious fears," except for the question of inflation. Here, Dr. McKeeley exalted his native brand of humor by adding, "inflation may not be stimulated..."...Congress enacts some of the wartime controls..."

"The speaker's easy style, couched language, and masterly grasp of his material won him a receptive audience.

G. B. BILL STUDENTS

(Continued from Page 1)

Any person with the problem of non-receipt of subsistence can go to the Veterans' Affairs Office and fill out a complaint form, which Mr. Simons refers to the "Veterans' Administration." For other problems (insurance, etc.) it will be necessary for students to contact their Congressmen until such certificates are issued.

New Students

New students should bring in their certificates of eligibility as soon as received. They cannot be enrolled until they have shown to the Registrar's Office that they are entitled to take the course.

Newman Club Reorganized

By Rev. James O'Reilly

Don Merrifield, '40, announces a meeting of all Caltech students interested in reorganizing the Caltech Newman Club next Monday, Nov. 17, at 4:35. This club, which existed at Caltech before the war, will be revived by a group of students interested. The first meeting will be held in the Y-lounge on Monday, Nov. 17, at 4:35. All students interested in Catholicism are invited to attend.

New Club to provide a meeting of Catholic students in non-Catholic colleges. These meetings will be essential for discussion among students in the midst of their studies.

Wives and Children

Wives and children of students being provided for, the league has next turned to a program of welfare aid for students' wives and children. Out of this has come a decision to do two things: establish a welfare clinic and a baby furniture, and equip a nursery. This nursery is in its early stages of operation. The nursery is being aided by the League of Catholic Mothers.

FROSH MEET WHITTIER

(Continued from Page 1)

The Freshman game against Pepperdine, originally scheduled for Nov. 22, has been cancelled, and an alternate game may be substituted with a local Jayvee team. Mailing time tomorrow night will be 7:30 on the Post field.
