Fineman and Brooks will speak at Tech

Two famous writers will appear at Tech Monday, when Mr. Irving Fineman, well-known novelist, speaks on "The Relationship of Science and Art in the Modern World," a topic which will make interesting reading for techies when written up by Prof. Wyck Brooks, noted critic and historian of literature.

The address will be given in 206 Dabney at 7:30 p.m. Monday, February 25.

Fineman, lecturing with the Huntington-Harford Foundation, was one of the sponsors of Pendulum, while Brooks participated in the discussion in a audience of Fineman's topic.

Fineman represents an unusual combination of literary and technical background. A graduate of M. I. T., he devoted the first part of his life to civil engineering. His first novel, published in 1939, the long-man, sold 700,000 copies. Since then he has published five highly praised novels—two of them on Bibles, three on research workers—as well as a number of articles.

Van Wyck Brooks has written five distinguished books on the history of literature in America, including, The Writer in America, a study of contemporary literature. As a literary critic, he has written reviews which have been widely published in magazines and newspapers.

Phil Conley wins ASCIT election

Frank Conley defeated in close presidential race; Berg, Young, Morse, Elliott, and Kotsky win runoffs

The Caltech Inter-Nations Station 6DAB next weekend: Occidental to be host school

Billy May and his orchestra will headline the entertainment at the Inter-Collegiate Council Dance, Friday, March 4, at the Pasadena Civic Auditorium. Occidental College is host this year with Caltech handling the decorations and Redlands the finances.

Intermission entertainment will be provided by four of the colleges in the council. Caltech is represented by a quartet from the Glee Club. Those participating include first tenor, Howard Berg, baritone, Harry Griffith, and bass, John Johnson. First Representative Bob Kasson enthusiastically pointed out the fact that the ICC Dance is one of the largest and best attended of the social functions on the campus. It is a chance to dance to a big name in very pleasant surroundings.

Each year one of the eight colleges in the council has a chance to host this affair with students from each school attending. Ticket sales was done with Jerry Gray and his orchestra in attendance. It was, too, at the Pasadena Civic Auditorium.

Tickets for the occasion will be sold for the men and party dressing for the women. It is requested that there be no flowers. Prize of the tickets will be $5 per couple. Tickets will go on sale at the end of this week. On Monday, inquiries may be made from ICC members and house social chairman. Expectations are for a contingent in excess of 200 couples to represent Caltech.

Calling guides for spring vacation

The News Bureau needs ten members for its tour guide service at or near Tech during spring vacation, to conduct a tour of the campus.

Some 300 members of the Senior Class plan to conduct a tour of the campus including the new gym facilities. Anyone who wants to help in asking to contact either the News Bureau or Rube Moulton. Tickets will go on sale before the end of next week.

Coney wins ASCIT election

Frank Conley was elected ASCIT president yesterday. He defeated Fritz Trapnell in a close race. The vote in the pre-eliminary runoff was Conley, 228 to 165. In the close presidential race Howard Berg defeated Lyman Freewell, 264 to 225. John Young was elected first vice president, 290 to 188; and Dick Morse defeated Curt Schulze for first representative, 302 to 186.

In the race for publicity manager Craig Elliott defeated Jon Hartford, 103 to 255. Dick Johnson beat Bob Talbot for yell leader, 320 to 137. Orchestra conductor Bob Celber was defeated by Roy Conley for rally commissioner, 313 to 112.

In three of the races, secretary, athletic manager, and second vice president, the vote was so close that runoff elections will be held for these positions. Runoff elections will be held next Monday, February 28.

The Inter-Collegiate Secretaries race was: Tom Bergman, 187; Rube Moulton, 151; Bill McDonald, 82; and Ray Orlando, 72. Bergman and Moulton will be in the runoff.

For athletic manager the vote was: Arne Kalm, 164; Jim Murphy, 92; and Reed Saunders, 69. The first three will be in the runoff. Runoff elections will be held next Monday, February 28.

Dick Ashby, 136; Andy Perga, 121; Clarke Rees, 120; and Gerry Hennessey, 121. The first three will be in the runoff.

Publications

Also elected yesterday were the six unopposed candidates: Dick Hudlin and Marty Tanham, joint editor; Bob Johnson, John Bailey, California Tech book editor; Don Dierick, Big T editor; and Norton Sturt, Big T assistant editor.

The newly-elected men will take office for third term this spring, and the first two terms next year.

Flames subject of Friday talk

"Flames and Explosions" will be the subject of this week's KCOO Friday evening lecture. Dr. Stan- ford S. Penner, an associate professor of jet propulsion, will be the speaker. The lecture will be given at 7:30 p.m. in 301 Bridge.

Dr. Penner will discuss scientific studies of flames and explosions which are of importance in connection with the development of jet propulsion engines. His talk will also deal with combustion problems in rocket engines and experiments in laboratory flames.

Professor Penner, a Caltech faculty member since 1951, has been engaged in extensive research in the fields of combustion and jet propulsion. He is director of the Combustion Panels of both the Office of Naval Research and of the National Advisory Committee for Aeronautical Research. He is a graduate of Union College and holds MS and PhD degrees from the University of Wisconsin.

IINA sponsoring Athenaum dance

The Inter-Nations Station at Caltech will sponsor a dance to be held in the Athenaum base- ment. The dance will be held on Friday, March 4, from 8 p.m. to 1 a.m. The dance will be open to everyone and is a drag or stag. Admission 50 cents to members of the IINA.

Air Force and eager freshmen combine to keep the amateur radio fanatics happy by Guglielmo Marcioni

K-FOS and in military network as AAO-FOS, it is equipped with a Columbia Viking II trans­ mitter with VFO and an HQ trans­ mission controller. This equipment was made available to the Mars station by the Air Force Research Laboratories and the technical and personnel assistance of the Caltech Radio Club.

Station K-FOS is part of MARS, the Military Affiliated Radio System. Operating on civil­ ized short wave frequencies as

Communications Officer in charge of the MARS staff. Ferrell states that any Techman who is a U.S. citizen with an FCC radio operator's license is eligible to join the MARS staff.

The Radio Club has contri­ buted in various ways to the student body. A group of freshmen became interested in the club while at New Student Camp. Returning to Pasadena, they investigat­ ed the station of the Caltech Ra­ dio Club. They found that there was still room for other efforts to organize such a group. The first of which, in 1940 and the latter in 1949, and both of which followed.

Confident that they would suc­ (Continued on Page 4)

Health center gets X-ray unit

Break a leg lately? If so, you’ve probably been one of the lucky few to use the new X-ray setup in the Health Center.

While the basic unit has been here since ’49, it was only last month that the additional equipment needed to take X-ray photographs was installed. Before then, the machine had been used as a fluoroscope.

Up until now, anyone needing to have a X-ray taken had to go to Huntington Hospital, and there was only one of several X-ray specialists in Pasadena. This was inconvenient, time-consuming, and last but far from expensive. It cost the Health Center Board $1000 for the new equipment, but since it has cost $2500 per year for X-rays taken outside, the machine will pay for itself in a relatively short time. Dr. Wood and the staff operate the X-ray unit themselves, so there is no additional expense in landscaping the property.

One warning to the unwary ones who sneaked into the Health Center through the back door—the one marked, “Please don’t enter.” The X-ray machine is located just on the other side of the door, and as a result, it is now the “hottest” spot on campus.

A hen is only an egg’s way of making another egg.” —Samuel Butler.

It is possible that eggs need no means of reproduction for it has come to the Beak’s attention that in Dahney the sophomore branch of the KKK began second term initiation. In attempting to lock four sterling frosh, Ashley, Hilton, Howell, and Kirk, in the alley 5 kitchenette perfection was not a prevalent factor. After securing pinning and barring the door with said frosh on the other side, master-mind Harper Whitehouse found that he also left a light and a pair of vise grips inside. Whitehouse later teamed up with fellow soph Dan Mack to break the alley 2 kitchen door. Going price is now around $30 for such mishaps. Thus second term initiation ground to a halt.

Speaking of eggs.

Red faces were noted in Upper doe’s Alley of Blacker Saturday night when Rauschen Reiter was heard commenting extremely loudly on his roommate’s sexual habits. What Mr. Reiter didn’t know was that parents of a fellow dorm member were quietly sitting next door. The result was silence punctuated only by four raised eyebrows. When informed of his monumental faux pas, Gordo replied with, “Well, I thought he was.”

Mountain to Mohammed

Janice Addicott again found the call of Tech irresistible. This time, with fellow South Pasians, LaVerne Hock, she wandered into Fleming at one A.M. Apparently Flabbergasted John Myers and Bob Smoak were successful in subduing these maidens for young Janine left with more than her spirits dampened. Possibly this is the advent of similar but more interesting water fights.

Rickets Brewins

No Justice dept.; Saturday night a group of loyal Trojans were living it up at an SC sorority party which was to be highlighted by a drawing for a pair of beautiful and genuine ST Trojan cuff links. Who won the cuff links? None other than disployal, non-Trojan Adams.

The World and Tangora

by Wahlen Tangors

Words simply cannot express the feeling of pleasant surprise which overcame me when I realized that they were actually going to landscape the new athletic center. I had taken it for granted that it was just going to be left the way it was a few weeks ago—stone and dried-up grass.

All that is going to be said for keeping consistent with the rest of the campus. But where I come from trees and bushes and grass are the rule, and I guess somehow I even got to the point of liking a little greenery here and there—noth­ing lush, you understand, just a little here and there. It’s good thing that the admin­istration and the students are keeping an eye on it. I have a picture of our little campus as it will be in fifty years, and it will surely be remarked upon. Photographing the equipment’s potential plus fore­seeation. What Mr. Reiter didn’t know was that parents of a fellow dorm member were quietly sitting next door. The result was silence punctuated only by four raised eyebrows. When informed of his monumental faux pas, Gordo replied with, “Well, I thought he was.”

Radio astro head coming

Mr. John G. Bolton, who in 1948 discovered the first of the so-called "radio stars," has been appointed a senior research fellow in physics and astronomy at Caltech. He will assume his duties here immediately as scientific director of a new project in the field of radio astronomy.

The major goals of Caltech's radio astronomy project will be to detect radio signals from outer space, to find out what their sources are, and to discover as much as possible about the position, strength, and size of those sources.

This radio astronomy project will be an important supplement to the astronomical work carried on at the Mount Wilson and Palomar Observatories, and will be greatly aided by Caltech's current research and development in ultra-sensitive radio receivers and high-frequency tubes.

Mr. Bolton, although only 33 years old, is regarded as one of the pioneers in the discovery of radio noise sources. Shortly after his 1948 discovery of a radio source in the constellation Cygnus, he made the first identification of a radio source with a visible object, the Crab Nebula. Since the recent discovery of an intense radio source at the center of our own galaxy, the Milky Way, Bolton received his BA with honors in physics at Cambridge University in 1941.

The student house will feature a variety of social activity this weekend, including two decoration dances, a snow party, and an exchange.

Saturday night from 9 to 12:30, Ricketts will have its Apache Dance, which has become an annual tradition. The Ricketts lounge will be transformed into a cafe in old Paris. The men of Ricketts and their dates will be attired in the Parisian manner suitable to the setting. Music for dancing will be provided by Chick Rogers and his orchestra.

The Blacker lounge will also change its appearance. Saturday night, for the Blacker Casino Party, to be held from 8 to 12:30. The salon to be depicted, will include swinging doors, a bar, and gambling tables. The bar and gambling activity will provide diversion from dancing.

Dunlay has an all-weekend snow party scheduled at the Caltech Ski Hut. The snow will start flying Friday evening and continue until Sunday afternoon. As with most snow parties the activities will include everything from skiing to snowball fights. Adequate chaperones, probably faculty members, will be present to keep things under control.

Fleming men will be the guests of the Twin Peaks girls' sorority of UCLA. Saturday night. This exchange beginning at 8:30, is expected to be partially a date affair.

When the stag-line wolves rush your delectable date...

But you're the guy she steps out to have a cigarette with...

M-m-man, that's PURE PLEASURE!

For more pure pleasure... SMOKE CAMELS!

No other cigarette is so rich-tasting, yet so mild!

P.S. No other brand has ever been able to match the pure pleasure in Camel's exclusive blend of costly tobaccos! That's why Camels are America's most popular cigarette!

E. Z. Bannock Tobacco Co. Winter-Spring, M. G.
The COOL Corner

by Frank Kofsky

I was doing in class one day when suddenly it dawned on me that never once had I mentioned club in recent months. Pursuing immediate reprisals, I took my stool and stone tablet in hand, and sped off to the rec-ord stores in search of information. Fortunately for all con-cerned, my quest proved successful, and with your permission, I shall relay my findings.

If you, like me, are an extremely absentminded student of the Four Freshmen, you may be dismayed or overjoyed, as the case may be, to know that you are well on your way to becoming a follower of progressive jazz. The Freshmen, as their name implies, are a quartet, and besides singing, they provide their own musical accompaniment. The resulting conditions can best be described by the word beautiful. They sound somewhat like a vocal version of Stan Kenton's orchestra, which is too usual, considering that they used to be with the band. The records on Capitol's "Vocals in Modern" series are dancelike, extremely listenable and I cannot recom-mend them too strongly. To get the idea, try and listen to their excellent version of "We'll Be Together Again."

Miss June Christy, who is in reality Mrs. Bob Cooper, is another product of the Stan Kenton or-ganization. Prior to 1964 she was Kenton's vocalist, but last year, backed by Pete Hu(golo (another ex-Kentonian) she put out her latest album entitled "Something Cool," and the album is just that. She does some standards and some new tunes in the album, all with her characteristic refreshing style and sweet voice.

MISS Christy met HER Hus-BAND, "Coop," when HE was with Kenton. However, she left Kenton, and is presently blowing tenor and clarinet at the Lighthouse. Occasionally June can be seen on the TV show, "Mantis Chars," on Saturday nights at ten on some channel or other. Incidentally she, together with Chet Baker, Nat (King) Cole, and Nelson Riddle will make a personal appearance at Hoyt Hall, U.C.L.A., February 27.

Interview Schedule

In addition to the interviews being held in the Caltech Union, the following schedule was also arranged:

Wednesday, March 1:

11:30 a.m., J. D. Davis, Dir., U.S. Rubber Co., Pasadena, and Eclipse Pioneer Div.

1:30 p.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

2:30 p.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

Thursday, March 2:

11:30 a.m., S. A. Royce, Dir. of the Colorado Research Corp.

1:30 p.m., S. A. Royce, Dir. of the Colorado Research Corp.

2:30 p.m., S. A. Royce, Dir. of the Colorado Research Corp.

Friday, March 3:

11:30 a.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

1:30 p.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

2:30 p.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

Sunday, March 5:

1:30 p.m., S. A. Royce, Dir. of the Colorado Research Corp.

2:30 p.m., S. A. Royce, Dir. of the Colorado Research Corp.

Wednesday, March 7:

11:30 a.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

1:30 p.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

2:30 p.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

Thursday, March 8:

11:30 a.m., S. A. Royce, Dir. of the Colorado Research Corp.

1:30 p.m., S. A. Royce, Dir. of the Colorado Research Corp.

2:30 p.m., S. A. Royce, Dir. of the Colorado Research Corp.

Friday, March 9:

11:30 a.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

1:30 p.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

2:30 p.m., Dr. J. M. Crouse, Dir. of the Colorado Research Corp.

Sigma Xi will hear Dr. Mazia

Dr. Daniel Mazia, professor of zoology at the University of California, will visit Caltech next week as a Sigma Xi lecturer. He will address members of the Caltech chapter Wednesday, March 2, at 4:30 p.m. in 119 Kerckhoff on "The Life History of the Cell."

The Society of Sigma Xi, national honorary science organization, sponsors annual speaking tours of its chapters.

In his talk Dr. Mazia will discuss recent investigations of the growth, division, and genetic apparatus of the cell. He will describe new methods for following events in the life history of a single cell and recent advances in the interpretation of the role of intermediary equipment in the cell.

Dr. Mazia is well known for his research in several branches of biology and zoology. He is a Fellow of the American Academy of Arts and Sciences, a member of National Research Council committees, and is President of Trustees of the Marine Biological Laboratory at Woods Hole.

Debaters enter UCLA tournament

At the UCLA tournament held last Friday and Saturday, the debaters received two degrees of Excellence. At the tournament, which was primarily individual events, Tech entered Ray Orbach in Upper Division Extent and Bill Lindsey in Upper Division Impromptu and Oral Interpretation. Bill won a degree of Excellence for his showing in Oral Interpretation, and Ray won a degree of Excellence in Extent.

The purpose of the tournament was to mold into shape, in the individual events, the debaters that may attend the national Pi Kappa Delta tournament at Nevada next semester.

EGAD! MORE LUCKY DROOLDES!

WHAT’S THIS? For solution see paragraph below.

In the dark about which cigarette to smoke? Take a hint from the Droolde above, titled: Two searchlight crews, one asleep, one enjoying better-tasting Lucky Strike. Your search is over when you light up a Lucky. You’ll find out why college smokers prefer Luckies to all other brands, as shown by the latest, greatest college survey. Once again, the No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco, ‘Then, that tobacco is toasted to taste better. ‘It’s Toasted’ — the famous Lucky Strike process — tones up Luckies’ light, good-tasting tobacco to make it taste even better... cleaner, fresher, smoother. So enjoy the better-tasting cigarette... Lucky Strike. Better taste Luckies....

Occidental College assured itself of at least a tie for the SCIAC basketball championship by defeating Caltech, 49-43, the second half of a three-game set. The victory moved the Beavers a step closer toward the conference title, which they already hold in the Pacific Coast Conference.

Oxy had its highest shooting percentage of the season against Caltech. The 17 point advantage was the second largest score difference of the season for Oxy, who started out the game with a 10-3 lead. The Beavers never went ahead although they led at the half, 25-21.

Oxy's seventh against one defeat, while Whittier has a 6-1 record, with both teams still in the running for the conference title. The game was held at Occidental's Burbank campus.

**Caltech netters win first match**

![Image](https://i.imgur.com/3zJGQ.jpg)

Caltech tennis team started the season off on the right foot as they beat Pomona-Claremont in a conference match, 63. It was Tech's first win over the Sagehens in five years, and the men had to fight for it all the way. All the matches were close ones and only three of nine were finished in two sets.

In the featured first singles match Alva Yano of Tech defeated Leslie Hight, 6-3, 6-4. In the other singles matches AX of Pomona defeated Mueller, 6-4, 7-5; Barnes of Tech beat Jeter, 61, 5-7, 60; Tech's Beebower beat Bob Wager, 7-5, 6-4; and the Hosts downed Schmid, 62, 61, 75. Points of Tech were looked after by Don Wagner, 68, 64, 61.

In doubles competition Yano and Mueller beat Hight and Jeter, 68, 64, 63; Beebower and Barnes downed the Wagers, 62, 64, 60; Holbe and Becker of Pomona beat Schmid and Hays, 70, 65, and 64 in the third doubles match.

Hawthorne, California
Beaver basketballers break into win column with La Verne victory

Caltech's on-again, off-again basketball team broke into the win column for the fifth time this season, with a convincing 76-59 victory over highly-touted LaVerne College on February 15 in the Tech gym.

The first half of the game was fairly close with the visiting Beavers holding the lead, but Tech, hitting more consistently than at any time this season, soon pulled ahead, and at the intermission the scoreboard read: Caltech 37, LaVerne 29.

In the second period the Beavers continued to build up their lead and it became increasingly clear who the eventual victor would be. As the end of the game neared the Beavers began to stall and LaVerne drew a number of fouls in their attempt to get the ball. Bill Chambers and George Madsen hit consistently from the free throw line to break the Leopards' backs.

Tech center Conley scored on better than 10 per cent of his floor shots to rack up 25 points and lead both teams in the scoring department. Chambers and Madsen each had 13 and Jim Tyler poured 6 field goals for 12 points. For LaVerne, Carter scored 15 and Stanford 13.

VARIOUS FRESH (Continued from page 5)

rebounding and general hustling added to his 15 points totaled a significant contribution to the win. Marion was high scorer with 19 points and Nelson had 15. Forwards Gene Cordero, Dick Van Kirk and Don Wiberg afforded the hustle, rebounding, and defense that does not appear in the statistics.

Tonight the team plays its last game of the season at Pomona. The Sagehens are leading the league, but Tech is pointing for another upset.

Tech trackmen begin season

Caltech's varsity track team opens its season tomorrow afternoon with a four-way meet with Pasadena Nazarene, LaVerne, and Cal Poly of San Dimas. The Beaver tracksters will be favored to win handily on the basis of early season performances.

It looks like Tech has a fine chance to win the amateur division of the SCIAC (all the schools excluding Oxy) this year. Last Saturday's interclass meet brought out some fine times in a number of events. Tech has two good millers in Lewis and Witterbom and an excellent half-miler in Rod Supple. Roger Wileman and Supple will provide the punch in the 440 and John Lukesh (10.2 and 22.4) and Jim Tyler (10.0 and 23.2 last year) will be the sprinters.

Tech's freshman basketballers won two out of three last week, defeating La Verne 63-42, losing to Pasadena Nazarene 70-48 and winning 56-53 from Long Beach State.

Wednesday afternoon's LaVerne game was never in doubt as Tech took a commanding 31-14 halftime lead and coasted the rest of the way. The game was played with a make-shift scoreboard and a stopwatch as the Scott Brown scoreboard and a stopwatch as the Tech gym.

With the score 56-53 at Long Beach and 5 seconds remaining, Beavers Friday night with center Jim Bond leading the way. He only scored 20 points Friday as compared with 47 in an earlier game with Tech. Nelson was high for Tech with 16 points.

Tonight the team plays its last game of the season at Pomona. The Sagehens are leading the league, but Tech is pointing for another upset.
