**DuBridge’s Letter Triggers CIt. Part in National Sign-Up Campaign**

With a letter to each Caltech student, faculty, and employee, President and Mrs. Dr. DuBridge are seeking the active participation of the nationwide Crusade for Freedom campaign early this week.

This campaign is a voluntary group effort to enlist the co-operation of all organizations representing different departments and organizations and to encourage the Crusade to endorse the Crusade program by signing a roll and, where possible, by making a monetary contribution.

**New Tech Graduating Will Provide Finer Separation**

A new crop of graduates has arrived at the Caltech campus, making up of plus and minus grades, giving the students right their average on the borderline between two grades a fairer evaluation.

The idea of changing grading methods is not new; in fact, it has been discussed for the last 20 years.

**1068 Students Are Registered**

Registration figures for the 1951 school year show 42 states and 36 foreign countries represented in Tech’s student body. As registration is drawing to a close, the total is 1068, although a few are still expected to be able to bring in the final count.

Of the 1068 entered, 646 are undergraduates and the remaining 422 are graduates. As usual the freshman class is leading, holding a slight edge over the sophomores. As in Tech’s freshmen, the majors have been divided into the following groups on the basis of their future professional work:

- 174 to 167 members in their third year; 145 to 137 members in their second year.
- 124 to 117 members in their first year; 102 to 95 members in their preliminary year.
- 81 to 75 members in their preliminary year; 60 to 55 members in their preliminary year.
- 44 to 39 members in their preliminary year; 28 to 23 members in their preliminary year.
- 12 to 7 members in their preliminary year; 5 to 3 members in their preliminary year.

The Truth Shall Make You Free

The Truth shall make you free. Appropriately enough, this is the motto of Caltech, appropriately, this might well be the motive for this group of students on the campus.

The Freshmen have by this time found out that we don't keep any sexual creeds to the haremments and that such creatures as do live there come out at night to eat. There are some on display at all hours during the day getting fed. Some of them eat twice or even three times a day. There is no difference about anybody here that is fed.

Ask Questions, Freshman

After Camp Ralp and what a success, one can ask questions on anything, anything in the way of a welcome to the Freshmen would be redundant. Having been there once myself, I'm so well sympathetic with the initial group of victims. The only thing wrong with the place is too much of a good thing. I was so stuffed with information about Tech that I didn't know where to start. The most obvious suggestion that this point to is questions. Make some questions and ask them at Ralp if any. It would be rude to ask them at Ralp if any.

If you feel the need of anything else but don't know where to locate, poke around and ask questions.

Spiritual Life Emphasized

A very important activity throughout the campus is the discussion of the spiritual life. On campus there are several groups which try to discuss the spiritual life. Some of the denominations rep- resenting groups on campus. One group, the Caltech Christian Fellowship, meets on campus regularly. Several churches use this unique purpose is represented. They are called the campus Christian Fellowship. If youValue its aspect and says how it applies to people, bring your ideas along to 210 Dealey on Tuesdays and Thursday at 1:30.

Love that Free-Plan!

At this point I should like to point out another activity which is definitely one that can be conducted in an impartial and educational manner. Since there have been so many more of the young men who may participate in this activity. 1. My point is that we all love our freedom, but our freedom is not granted by society alone. There are more freedom to be enjoyed by a properly mediated presentation of the facts.

"I would never frequent a community in all of California were there not a group of students who never talk about free speech and thought," adds E. J. Holker. Here is the essence of the situation. Intellectual freedom implies that the facts on both sides are presented as impartially as possible, for examination—above all, for development of free thought. To Communists give us the facts, and we will give you the facts."

A group of students of Social Psychology who, while discussing the Theory of Crime, cunningly suggested laws because of the influence of their parents. They are so lax with persons presenting an unequaled and unchristian.

Communists are trained to lie about their status, and for this very reason they are always the most active admirers of the lower. But assuming a Communist, recruit signs a petition the Oath of Loyalty which is reding the word "loyalty" as a form of repress for posterity. Under our present laws this is often the same as the Communist's own. Within the University, the society has suffered dearly for the the Roman Catholic society. This is a must by Dr. Edward Tolman has taken the admirable course of certifying those who, by really condemning the Oath on the dubious grounds of its "unconstitutionality" and "shadows about the validity of our government which subjugate our government?"

Which Is Best?

Rather than making the fight against the evils of Stalinism unnecessary, the fresh men are doing their bit by helping the country by retaining their offices under the acceptance of the Oath of Loyalty. The proper way to conduct this is to hold the group at their present.

At this time of national emergency all of us should be willing and waiting to make what sacrifices we can put paid to publicly and unselfishly. This should be done within the country will contribute to our fight for a free world.

Forboden Weekend

It is Cillinger and Parker who we must give credit for the splendid prize given.

So soon, but then you know what

In the first bridge column of the year it is mighty well to state what the general policy will be, when writing them for the next three terms.

Each week some authority on the game (a person defined as one who possesses a book on bridge), will discuss one or two interesting hands. Recommend-

ted methods of bidding and play will be combined with a brief discussion of the general bridge principles illustrated by the hand.

We hope you enjoy reading this column, and if you are all interested in bridge, we hope that you realize everyone is invited to the bridge tournaments which are frequently held on the campus. More will be said about these later.

BELL TELEPHONE
San Francisco Too Tough For Beavers

Gator’s Show Surprising Strength
In Defeating the Engineers

Last Friday’s exciting football game saw the second game of the season against a new San Francisco State team by 367. Although there was a strong presence of the Gator’s defense, the Engineers played a much better game than in the previous game against California State.

Flushy

The state offensive featured plenty of open play quarterback action. Dick Dorman flipped the ball twice for scores. In the first quarter he tossed 24-yard pass for a touchdown and a second end zone for the first score. Later during the 32-yard gain, he completed another for 46 points.

Yardages

Sun Francisco’s halfback Butch Smith started the game with a 90-yard run. After the long distance open field running, 20 yards and 90 yards were both good for scores. The only other touchdown resulted from a sustained ground drive.

Steve

Calaveras’ lone tally came halfway through the third quarter. The Beavers drew from their own 18 to the “Gator’s” 8 where they lost the ball on downs. San Francisco returned to their own 35, and the Beavers recovered a fumble. Halfback Jack Walker then gained 15 yards over the goal for the score.

The last score of the game, occurred when the wearied and thinly reinforced Beavers were driven back 45 yards by a 4-yard fumble. Coach Laffitteitale felt that the “Gaters” had a better percentage of plays than his own, but still managed plenty of work, below the Whittier gone on Saturday.

Thursday, October 5, 1950

The California Tech

Beaver Sports

Water Polo X-Country Season Open

The first game of the last time this season, the Beavers water-polo squad broke the ice in the PCC pool preparatory to starting their first workout of the last year Monday.

Although there was no coach for the opening session, Athletic Director Hal Musselman promised to hire one soon. Until then, Manager Dave Hackney and Dick Libby will direct the practice.

An unofficial league continuing Calaveras Olympic Swim, USC, Fullerton, Los Angeles CC and East Los Angeles JC has been formed with a single match-scheduled schedule.

Other games with, Muir, Loyola and PCC will be played.

Caltech, Whittier Usurh In SCIC Season

The Beavers and Poite got the jump on the conference rivals Saturday, Oct. 1, at Whittier’s Halley Field. Whittel is a strong football team after handling the Pacific Team this year in a 31-7 beating while Tech lost to Poly.

Go Fish Sports Roundup

Freshman intercollegiate sport got a big start Monday, Sept. 20th, with the first formal opening of the season. Several of these new men showed capable talent and experience from previous training.

Volley prospects, not as good, as they seemed at the end of last year, are still good. Coach John Barnes, still appears to be in big gun in the conference, with Pomona having several and good prospects from last year. With any luck at all Coach Jack Marshell should be able to steer his team to a conference championship.

Practice so far has been in the fundamental with the line working out on the blocking fundamentals and practive throwing. The team has learned most by opening the line this week in starting scrimmaging in preparation for the game with Whittier Freshman October 14th. Early this week a Big Eight turned up for that game to cheer the team to victory.

Crown-Country

The Bulldog scrimmages this week, looks promising with six or eight expected to open the fall. Out meets will he held Saturday to attempt to climax the season there will be at least two.

There is some chance that the Calaveras conference will name the champions of the conference if the teams develop as they should.
