Candidates' Statements

The following are the statements of the candidates for ASCIT offices.

ASCIT PRESIDENT

Tom Boeckner

The responsibilities of your ASCIT President are intricately related to a wide field of student activities from athletics, assemblies, and social functions to relations with other schools. The man you elect to this office should have shown his interest, his ability and his enthusiasm in all of these respects.

Your ASCIT President should be experienced in both the Board of Control and the Board of Directors in order to best meet the problems of his office.

I ask your investigation of these qualifications in my candidacy, and repeat my enthusiasm as your Student Body President.

Ralph Loeberger

My candidacy for ASCIT president is based on the idea that our student government has evolved to the point where expansion of its functions is necessary and desirable.

There are certain essential fields where student government can logically begin its work and where the voice of the man is reprented.

We, for instance, establish claims that ASCIT will represent those of its members who have legitimate complaints on courses or instructors.

We can launch a well-planned campaign to improve the records of both the faculty and the school. It is only as a result of the faculty's desire to make student life at Tech look attractive to outstanding high school students who would come here if they knew of the opportunities for outside activity that we would actively solicit their aid.

We can and must bring the men of campus closer into our co-operative sphere of student government, and encourage their participation in all its phases. I would like very much to tackle this job— I know I can do it.

Ralph Loeberger

VICE PRESIDENT

Mere Kasen

The important qualifications of the vice-president are those in relation to ASCIT's departments of Control and the Court of Traditions. As chairman of the Court of Control, he stands for the honor of the school. This office is an important one. It is being filled by an active member of the Court of Control, and some of the more direct groups on campus at the end of the war. We feel well qualified to be running for this office, and if elected, I shall do my utmost to further the ideals of this office.

Mere Kasen

Dave MacKerrite

The Vice-President's chief concern is, in my opinion, the Honor System. Serve for a term and become very interested in the methods of the Honor System. This past year, I've been very active in all phases of the Honor System, its principles and practices. I hold the hope that a thorough understanding of the application of the Honor System will further the ideals of Tech life and further the ideals of Tech life. We wish to promote the honor system to its former position. With your support, I can realize this objective.

SECRETARY

Ollie Gaither

I believe that a candidate for ASCIT office can point with more pride to his record than can Ollie Gaither, my nominee for this position. Ollie has served his classmate as well as Secretary-Treasurer of the Freshman Club, Second Rep. of Freshman Thursday, Freshman and junior class, and as a member of the debating club.

Those who know Ollie well can tell you that he enters each responsibility with assurance and ability, and does his job thoroughly and well. The Board could not ask for a more capable man as its Secretary.

Chuck Forster

Fred Wood

The duty of the secretary of the ASCIT as defined in the Constitution seems very limited. He is to take minutes at all board meetings and handle correspondence for the organization. However, a person with imagination and fire can do more than these simple tasks. He can bring the students in closer touch with the Board with an interesting column, he can project himself into the numerous activities that require time and effort. Such a man is Fred Wood. His past record of achievement in Tech is a proof of his willingness to work, his ability and thoroughness. The Board could not ask for a more capable man as its Secretary.

Fred Wood

TREASURER

Ollie Gaither

As the man who handles roughly $10,000 per year in his capacity as treasurer of the ASCIT, the student body needs a person who is trained in the art of bookkeeping. We are very fortunate to have running for this office a man who has already proven himself in this art. He is an accounting student at the University of Virginia, but who also served in the capacity of an accountant and auditor for a large steel firm in the mines. He has shown his interest in the student body and his capability by giving to serve by being elected president of his Sophisticated Club, National Representative of the T, and as a member of the debating club.

Mike Sellen

CHIEF STAFF

Roland Schimke

The ASCIT President's chief concern is in my opinion, the Honor System. Serve for a term and become very interested in the methods of the Honor System. This past year, I've been very active in all phases of the Honor System, its principles and practices. I hold the hope that a thorough understanding of the application of the Honor System will further the ideals of Tech life and further the ideals of Tech life. We wish to promote the honor system to its former position. With your support, I can realize this objective.

Ollie Gaither

John Fox

As the man who handles roughly $9,000,000 new dollars per year in his capacity as treasurer of the Student Body, I have the qualifications to run Tech life and Tech time. I have the qualifications to run Tech life and Tech time. I know how to handle the money, and I can keep up to date with the New dollars and have discusse problems and procedures with post managers and members of the Athletic Department staff. I won't make specific promises which later I might find impossible to fulfill, but I do promise to do the duties of the office to the best of my abilities.

Mere Kasen

Bill Freeman

The job of ASCIT Social Chairman requires a man with the social ability to organize and conduct campus and house activities to the best advantage of the whole body of students. ASCIT is expected to be the first words of the name of the Student Body. The job of ASCIT Social Chairman is a job for one who can understand the social life of Tech, and posted in Lower Tech and in the student houses.

Mike Sellen

ATHLETIC MANAGER

Nool Eldred

The office of Athletic Manager requires experience in intercollegiate competition, knowledge of Athletic Council policy, and the ability to organize and manage athletic events such as the Bay Bowl and the Spring Awards Assembly. I feel that I have the necessary qualifications as I have been a member of the football and swimming teams, Athletic Manager of my Freshman Class, and have had some experience with post managers and members of the Athletic Department staff. I won't make specific promises which later I might find impossible to fulfill, but I do promise to do the duties of the office to the best of my abilities.

Bill Freeman

Mike Sellen

SECOND REP.

Dick Jones

I feel that I am the right man for the office of Second Representative. As Second Rep. in the present year I have been able to serve in the office of the Second Representative, and I give the opinion that a man for the position of Second Representative should keep the same qualifications as those of a man for the position of First Representative. I would be the first word of the office, and to serve in this capacity to serve in your social representation. I have the qualifications for the job.

Bruce Robinson

RALLY COMMISSIONER

Bill Wright

The office of Rally Commissioner is a position which I feel is not only the most exciting and the most responsible position that can be filled in Tech, but also a most important position that can be filled in Tech. The Rally Commissioner is a position which I feel is not only the most exciting and the most responsible position that can be filled in Tech, but also a most important position that can be filled in Tech.

Brian Rohe

The Rally Commissioner is a position which I feel is not only the most exciting and the most responsible position that can be filled in Tech, but also a most important position that can be filled in Tech. The Rally Commissioner is a position which I feel is not only the most exciting and the most responsible position that can be filled in Tech, but also a most important position that can be filled in Tech. I have the qualifications for the office.

After the trouncing that the Poets handed the Beaver five days earlier, the Sheepclaw wished to make certain of the outcome against the Poemsuahga Friday. While the kids from Claremont had not had too impressive a season, they have not been taken to the “cleaners” yet in conference. For the Sheepclaw this game will mean either a third place or a spot in the elite. So the pressure is really on with Claremont over their biggest Friday night game.

The Sheepclaw will be counted on to give an extra effort, according to Louk Olson, who is now in the sixth year of coaching. With Locke and Pete Welsh, in their last two years as Sheepclaw starters, he is not counting on any last second bucket to give the Sheepclaw a 44-42 win. At the guard spots will be Young and Melk—McColl. The Poemsuahga plus a lot of punch and will give the Sheepclaw plenty of trouble.

Coach Skly will depend a lot on Paul Sullivan in carry mood of offensive threat for the Sheepclaw, as at present Paul is the second highest scorer in the conference with a 10 point game average. Ted Brown and Bill Cox plus several others are very acutely carry the rest of the Sheepclaw scoring threat. With Ted who has had considerable trouble with his shoulder, the Sheepclaw will have good ball and season, and may be the surprise of the Friday game.

The Sheepclaw is the last conference game of the season, for both the Poets and Sheepclaw there will be a lot, meeting between Paul and Louk Olson. These kids have been playing tall for four years and are now in a battle for game honors. With a bunch of these two kids almost a certainty, we expect the Sheepclaw to come back to Claremont for the last game.

Ted Prentice and his Sheepclaw will be looking for a win over Winn in a win over the Poets. Winn is 3-5 on the year, whereas over Whittier, the Sheepclaw should round into enough form to win this game. Winn is in their big brother, Dabney led the field all the week. Dickie Deskerf has it in his attempt to get to the grandson, while Howard Coban of the Sheepclaw is as expected one of the 217 point, and while some of the boys who are playing the big outdoors should be making the par 70 a goal.

Skiing Coach
It’s good to see Bill Strauss back on the diamond again, even if he has been already at the end of the season and is currently beginning. Hunting Hal (who is back in a lot of Golds in the first game)—with the varsity, Milton and Ben Hearn, is the best. Captain of both his baseball and his football teams, he is the winner of the Wheaton Trophy for 1951. Bill is one of the best in the bunch and has taken twelve of the battles of Deer Old Tech. Let’s give him a chance to coach the Sheepclaw in his big brother for his behoof for a season.

The experts give the Sheepclaw a slim chance to upset the Poets, many of the talent rests in their hands. With speed, strength, and skill the Sheepclaw has a chance to be anything but a hallway player for the Poets.

BOLINGBROOK - "I'm dying of thirst," said a student to a bartender at Tony's on Monday night. The student was one of the top performers in the debate tournament, and he was dehydrated and feeling the effects of his exertions.

"Well, I can't blame you," replied the bartender. "You've been working hard, haven't you?"

"Yeah," said the student. "I've been working on this debate for weeks."

The bartender handed him a glass of water. "Here's some water for you."

"Thanks," said the student. "I really needed that."
