JUMP FOR Joy At ASCIT Dance
Rivera Country Club Destination of Technom Set:
Keith Williams Band, Best on Coast, to Play

This term’s ASCIT dance will be held at the Riviera Country Club tonight. The best in music and entertainment will be provided by the Keith Williams band. The dance will be held from 9 to 11, with the buffet and the bar open during this time.

Hanna Captures Presidency in 1951 A.S.C.I.T. Elections

Unable to be present at the ASCIT dance, Hanna received an invitation to attend the dance and offer friendship.

Prof. Sorensen Receives Honors

Prof. Sorensen, Professor of Electrical Engineering at Caltech, has been elected as an honorary member of the Institute of Electrical Engineers of Japan.

CIT Orchestra At Tomorrow’s 11:00 Assembly

The assembly in Colburn Hall tomorrow morning will feature the CIT orchestra, one of the finest orchestras of the west coast. The orchestra has been directed under the direction of Mr. Williams. The audience will be treated to a variety of music, including one of the better numbers of the season, “Pulka” and “Furiant” from the best of the year. The orchestra has been recognized for their fine performance.

Plaque Named in Bio Library

A memorial plaque honoring the late Thomas Hunt Morgan, renowned geneticist, was dedicated last Friday in the library of Kiefer. The plaque is a tribute to his contributions to the field of genetics.

New Clothes Dryers in Student Houses

New clothes dryers have been installed in the homes of student houses, Throp, and off campus mountains. According to the wishes of the tenants, the new dryers were installed.

Fiedler Faddle

What happens when a man who is so enthusiastic that his tongue is bitten by the “bug of science” meets a student who is so enthusiastic that his mind is bitten by the “bug of science”?

After training for a career in a high field of mathematics, Mr. P. B. Fiedler, the director of the Institute News Bureau, offers one answer to this question.

At Missouri

The Missouri legislature has met and passed a bill to establish Missouri State University in St. Louis. Missouri State University will be established in St. Louis.

Then Mr. Fiedler went to work on the new dryers, making sure they were working both for radio and newspaper.

The SPACE BEAVER

by Al Lewis

The second appearance to the moon is in a distance from 74 to 75 degrees, enough food and water for each of us to make a trip. We are not equipped to make the required journey, but we can have a houseboat and a car. We hope to transport the first moon colonists on a specially designed ship, the 15 men of the crew to be a ship's captain, a ship's doctor, a ship's steward, and a ship's cook. The ship will be living in an air-conditioned world, the only kind of life it will have in.

How they made the tale is: the "Moon is in Heel." It is the story of a zodiac story, kept by one of the members of the expedition, a zodiac story, kept by one of the members of the expedition, in particular Rona Moore, the archivist. This story is a historical story, it is a real story, it is a true and real story, it is a tale of the world that has been invented in the world that has been imagined in the world that has been created.

The story in the volume is the somewhat shorter version of the tale. It is a tale of the world that has been invented in the world that has been imagined in the world that has been created.

On an Educator's Education

by Bob Holt

I studied anatomy. I studied zoology, and every sort of advanced course in every subject I could find.

In short, every sort of advanced course in every subject I could find.

Including mechanics, dynamic mechanics, and every sort of advanced course in every subject I could find.

Over hydraulics I burned little, I burned a little, I burned little, I burned little.

Physiology and chemistry made me mad.

The Lord only knows what happened.

And every single bit of it tough.

So, now, I'm registered.

Do you wonder I find it a little

That the knowledge I need, as

Is the stuff I learned in a

Reading specifications through, Writing reports till my hands

Doing simple sums till I

Reading, writing, and arithmetic.

NEW NEWS DIRECTOR

The Pacific SouthwestMonthly's offices have had its name and its character changed. However, a change has said to the Editor that this change is not an unprecedented one. It is the matter of change, a change that has been made in the editorial staff. The change is the addition of a new editor, Mr. Fred L. Mulligan. Mr. Mulligan is a new editor, Mr. Fred L. Mulligan. Mr. Mulligan is a new editor, Mr. Fred L. Mulligan.

Mr. Mulligan's chief aim in his job is to develop the new news director. He will be responsible for providing interesting and accurate news to our readers. Mr. Mulligan will also be responsible for interesting and significant recent news. Mr. Mulligan will also be responsible for interesting and significant recent news.

According to Mr. Mulligan, "I find that there is a devil of a lot more going on than I have suspected. There is a vast sea of science and technology, a vast sea of science and technology, a vast sea of science and technology."
By virtue of Champion's win over Oxy last weekend, Whittier has clinched the league title in basketball. Of course, if the Bulldogs can knock off the Poets and Oxy trips up Redlands, there would exist a tie between Oxy and Whittier. But it seems very unlikely that the Poets will fall before the third place Bulldogs.

Oxy Potat.

This coming Saturday we will all have an opportunity to witness Payton Jordan's powerful Oxy track squad open their 3-season. The event is the conference relay, which will feature some of the better distance runners in the nation. If Jordan can turn out another crackerjack squad this year, there are rumors that he will be number one for the Olympic coaching job in 1982. There is no doubt that his success has been phenomenal, but from Oxy to the Olympics is a mighty big step. Probably the most detectable group of athletes at Tech are the skiers. The distal snow condition has caused all intercollegiate skis to meet this year. From all angles

Mermemn Hit Conference Rain and Cold Relay-Oxy

A week ago Monday swimming practices started up at PCU for the varsity, fresh, and inter-house men. Since then the rain and cold weather have kept all but the hardiest of them away. Those who have braved the elements, however, have found that swimming in the rain can be quite pleasant as long as the water is warm.

Decided Donner, water-pot coach of last fall, is back again to enrich the varsity and fresh swimmers and divers. Prospects for the coming season are fairly good, with only one man graduated from last year's second place team. Several good men are up from the fresh and will lend a lot of support. The first scheduled meet is a practice one with Muir Friday, March 9.

Tech would have sported a potent team, but then no more. Pete Pelas, the Ski Club shoveling Franky, should have given Irving Krick the word.

The telephone is an indispensable tool to business and government. Today's tremendous job of production and defense could not be carried on without it. It serves in war emergencies and great ones. It helps maintain family and community ties. And it keeps right on growing.

The telephone is an indispensable tool to business and government. Today's tremendous job of production and defense could not be carried on without it. It serves in war emergencies and great ones. It helps maintain family and community ties. And it keeps right on growing.

Back in the early 1870's, the first American telephones were being made. They were crude affairs, but they were progress. Today, the telephone is an integral part of our everyday living. And that is the actual miracle - the fact that the telephone has come to mean so much to so many people in so many ways.

Apache Dance Happens Again by Bill Parker Saturday's almost-perfect weather, which was thoughtfully provided by the weather gods of the heavens, combined with the first date arrived before the snows were illuminated with the 39th annual Apache Dance (1)got lost in them.

All agreed that the dances were worth going to the nearby obelisk for. Good music was provided by the Charlie Charles and Her orchestra, and the lighting was consistently and instantly variable, in accordance with the busy Ready traditions concerning to dance.

The "Day of the Apache" was held to resemble the interior of a barbershop, with mirrors which were designed not for sitting surrounding the dance floors.

The Laundry Committee

The committee, which started in the Engineering Building, went through the usual training in the basement, and up through the laundry rooms to a tumbling drum in the dining room, was designated appropriate with and awash with coffee hand-abilities as a bouncer. The dance committee's aim was to have its own house's social committee, as a safety evening was held by every detail in 1951.

Fleming Ski, Snow, at ArrowheadPoint

The annual Fleming snow last party was won, as usual a huge success. The lucky who attended spent two nights at the Timothy Country Club, half a mile from Lake Arrowhead and village. Happily the date coincided with a six inch snow, the first in the month. The skiing was good at Green Lake, which has several of the rope tows along the highway to Snow Valley due to a rushing business.

"Starch," "Singleton" and "Hardcore" Purdie and their wives, supervised the party so everyone and caked all the meal at discretion contained on herons and eggs and the usual accompanying punch and sandwiches. All night there were stakes for all. All at the end of the party everyone's dusk left book was checked. But questions people rejoiced the excess. If I had the time and money I'd do it every weekend.

Field Trip Friday For Chem Group

The Caltech American Chemical Society student chapter will have a field trip to Pennzoil's refinery, which manufactures vitamins and resins, and an industrial lead plant, in Vernon.

Meet at Townley

They will assemble in Townley on Friday at 9:30 a.m. Parked individuals should sign up on the green bulletin board before Thursday from avoiding transportation. Old clothes should be worn on the trip.

Joint Meeting

A joint meeting of the Los Angeles area ACS Chapters is tentatively set for Friday, May 4, in UCLA.

CONFERENCE RELAYS (Continued from Page 2)

Running only the fourth best mile in the world last year in 3:06.0, the 5000 meter mile will have the medley relay format for its very own.

AIB Cross Meet

Meet begins at 200 p.m., so grab your student holly card and hop over to usher the new track season.

POETS TOPPEL CHAMPIONS

s ten, and Tech was unbeaten until then, after Seven and Pepsodent faded out, Creuth and St. Peters took over, and then, as the finish was made, Gray hit on that long run for the11-21. As the first string came back in for the final. Final score: Wilt- ter TCL, Caltech 3. Lineup:

Caltech

Gray, Parker, Hargrave, Wilt, Laws

Shake" (Continued from Page 1) The term as long as the latest, as the Cal- tech chemist chapter, which is in charge of arranging and as a group, and the National Lead Co., in Vernon.

Religious Movie Initiates Series

Last Sunday, February 26, the Caltech Newman Club presented, motion picture on the life of Christ called "Upper This World." The story was told as an escape through the eyes of St. Peter, one of the disciples. The picture, a full-length feature, was filmed in color.

The response to this picture has encouraged the Newman Club to plan on sponsoring others in the near future. This play has become part of the established tradition of the Caltech banquet.

Personal Initiative

Presenting the banquet, the formal members of the members into Tau Beta Pi will take place in Coburn Hall at 5 o'clock.

Student Assembly

The banquet will be held in Coburn Hall at five o'clock.

ENGINEERS' EXAM (Continued from Page 1)

dents may now file an application with the Registrar before graduation. After the applications are filed the Registrar will issue the certificate. The examination must be witnessed by a professional engineer of the state. The examination will be conducted by a professional engineer of the state.

The presentation of the pledge will be announced sponsored at these meetings by the Caltech Christian Fellowship.

Monday at 11 a.m., modern attacks upon the New Testament will be explored at 7:00 p.m., and the implications of the modern man will be discussed. Field trips will be held in downtown Los Angeles.

Author of numerous books including "Theology of the Modern Man," "The Protestant Drama," "Union of the Doctrine of God," and "Pity of the New Testament," will address the Board of Registration for Civil Engineers.

He was former head of the theological department at the Northern Baptist Theological Seminary in Chicago. He has been a guest lecturer at many academic institutions, and a member of religious television and radio programs on several campuses. He is a frequent contributor to religious periodicals, and the author of the "Christian Century," "Journal of the New Testament," and "New Christian Century."
