Will You?  

This Editorial is going to be one of the shortest on record—here's why.

Note: Vote today for ASCTT office. For the man you think best qualified for the particular office, by now you should have had a chance to do so. If you feel that you do not know the candidates' qualifications as well as you should, ask any officer or member of the Student Body. Above all, don't make excuses. If you were excused from the polls, ask why.

Again we ask you, on ASCTT member, to exercise your privilege to vote. Remember, tomorrow is the last day to vote. The next day you will no longer be voting for the next year.

Right now, let's turn to our CALENDAR OF EVENTS board meeting agendas. We've spent the past year gaining in class, house, and ad hoc committees—now is the time to do a worthwhile job as ASCTT Secretary.

Jim LaTorre 
Treasurer

The Treasurer of the ASCTT requires your support in raising the necessary money and in enlisting the help of the members of the student body on the Board. In addition, the Treasurer of the ASCTT is a member of the Board of Directors. Through office and off campus connections, he is your representative on the student body on the Board. If you want to do something constructive about the finances of the student body, now is the time to do it.

Bill Edmondson

Although handling the books is a very important duty, the flip side of the Treasurer's work is for the coming year is very important. You can have a hand in the uncertainties in the near future at Caltech. The budget for next year is not in the bag.

The budget for next year is, in my opinion, all but useless and the figures are too optimistic. In addition, the budget is not to be handled with care. The ASCTT, and the student body at large, must be very careful in looking at next year's budget. If we are careful, we will be able to cut certain line items.

John Gre

The practice I have had in the past year has helped me in my job. In the past year, there have been many changes in the student body, and this has helped me. I think this is a very important job.

Bill Blodgett

In order to be successful in this job, I have an understanding of the role of the Treasurer. One of my responsibilities is to use the best judgment and find a way to get the most money out of the student body. We have a very good plan proposed by the student body. The student body is very interested in this plan.

observer of the student government. This office can only be satisfactorily filled by a student who has shown initiative in student affairs.

In my two terms here, I have been a member of the Council of CofHeld, participated in two major plays for the office and in general aimed towards serving leadership. For these reasons I believe you should make me your next second representative.

any office, public or student, a main requirement is that the candidate be interested in his work. That is the most powerful qualification of John Billings, candidate for the office of Rally Commissioner. Here is a man who wants to get his teeth into student affairs and see his work result in plenty of good shows over the years. John has been a hit at Coltech takeoffs at next year’s football opener.

His past experience polishes the edge for the job of Rally Commissioner. For two years he has been a member of the Coltech staff which correspond to the Student Council. Since he has been at Tech, he has worked on his own and with other programs and has acted as assistant public relations manager.

John Billings is a man who will absorb the assembly minute by minute, and who will have the ability to react to a situation. You need a man like John Billings and I urge you to elect him John Billings for Rally Commissioner.

The California Tech

If I am elected to the position of editor of the Tech, I hope to make some improvements in its content as well as its size. The paper will be reduced to a six-page, free-lance publication from its present eight-page, upright awkward size. This will allow for more feature material, and I will let it take a full page from the editorial pages, which they don't now take.

The features in the California Tech will also be improved. Since two pages can now be devoted to feature material, we will be able to run more column material such as the exchange column, "How the Other Half Lives," our comic series, "The Youth Helmsman," a revived "Post-It" column by ASCT President, and the "Hot Hits" column. Our paper will have more columns than ever before.

More and better p e p rallies an offer in itself for the California Tech. There is an effect on the minds of all members to be in a p e p rally. For this reason and also the personal interest in being a part of the p e p rally, I urge you to elect me as your Rally Commissioner.
