Frosh elect new officers

Parker and Lifdors

Run offs required for all the offices as all but four freshmen vote

interviews for stanford law

For seniors and others interested in the possibilities of attending law school, particular interest will be shown in the campus at consultation, Wednesday, Feb. 5. It will be held in Doherty at the table dining table room to hear authorities speak on various religions.

Dr. Ross speaks

This week at the second meeting Dr. Ross, professor of comparative religions at USC, spoke on Buddhism. Dr. Ross will here again in two weeks to speak on Confucianism.

The topic for next Tuesday will be Hinduism. If you are interested in learning about other religions, come to the training table at noon next Tuesday.

oral reading club

Caltech students who want to increase their enjoyment of literature, develop their ability to read aloud, and make progress in speech improvement are invited to attend the next meeting of the Oral Reading Club next Tuesday night, February 9, at 7:30 in Dabney Hall 208.

The Oral Reading Club is set up to improve the average student's skill in communicating orally the various types of literature read aloud. Among the plays, poetry, essays, and cuttings from novels. Students are trained for their own personal enjoyment and progress, and are also expected to be able to present programs for auditions or radio programs if desired. At the end of the year, the students will prepare for and present their year's work. The club is open to all students.

AF looking for seniors for cadets

an aviation Cadets Selection Team from flying training headquarters, waco, Texas, will visit the campus on February 3, 2, and 3 to interview seniors as prospective cadets.

The team will be located in Doherty Lounge from 9 am to approximately 2 pm. to qualify for selection as an aviation cadet, the candidate must be between the ages of 18 and 21, single, and have completed 60 credit hours of college work.

Eye requirements have been lowered recently for men entering the service. Veterans entering as cadets under the new program may compete for any of the positions that are available.

aviation Cadets Selection teams are under the jurisdiction of flying training headquarters. They are charged with screening cadet applicants and are not connected with the Army Air Force Recruiting Service.

Maj. W. E. Smale, head of the Caltech team, will visit Caltech cadets major Armand Trebend and Maj. Charles Wiedman, will interview seniors as part of the group.

Student shop

All those who have submitted applications for Shop membership should show up at the Shop next Thursday with 40 for initiation fee, taxes, and deposit for a key.

Tech in regatta with USC & Cal

This Saturday at 100 pm the Caltech Sailing Club will host the races to the teaming of USC and Cal, raced as the second and third best teams of the nation, in a regatta at Los Angeles Harbor. The Caltech team will probably consist of Stan Ogden, Jim Wyman, Jan Arps and Bob Ryle, with Bill Wright heading the race committee.

Pit

The editors of Pit would like to determine if another team should come out. In order to do so, they request that all those who wish to submit copy or to make comment place their contributions in the NR box in any one of the houses or lower through by Monday, February 5, 1953.
Duties of ASCIT officers

First Representative
The main job of the First Rep­resentative in the ASCIT (All Students Committee of the Intercollegiate) is to be the student's representative on the Intercollegiate Council and the dancing class.

Second Representative
The Second Representative is a member of the Board of Directors and also represents the stu­dent body at the Intercollegiate Council meetings which include all the colleges in our district.

Jobs for students
The job of First Representative takes considerable time but is very enjoyable. If you are interested in getting some good business experience and taking on the responsibility of the ASCIT social life, this is your job. If you want more information about the job and its duties, come to the meeting and see me.

—Bob Lyman

ASCIT members
The ASCIT members are an elected group of students who are repre­sentatives of the student body. They meet regularly to discuss issues affecting the student body and to make decisions on various matters. The ASCIT members are elected by the student body and serve for one academic year. They are responsible for representing the student body at all ASCIT meetings and for making decisions on behalf of the student body.

CAMPUS INTERVIEWS

Thursday, January 29
Friday, January 30

Call your College Placement Office for appointment

Secrecy's report...

Nomination Procedure
Anyone who intends to run for an ASCIT office this term should present to John Geo. or George Johnston his name, the office for which he intends to run, and the name of the man who is nominating him. This information should be submitted by February 5, if that is at all possible. The nomination assembly will be held at 11:00 on January 12, in Calvinson Hall.

For further details about the nominations and the duties of the offices, consult the Little Titan.

The Board of Directors will present to the Student Faculty Committee a recommendation concerning the occurrence of late classes. This recommendation will be scheduled that scheduling of classes ending before 4:00 be discontinued. As the situation stands now, late classes are expected to begin at 3:00. This does not affect the A.F.O.T.C. drill hour, and interfering quite considerably with athletic practice.

Respectfully submitted,

George Johnston, Secretary, ASCIT

Kangaroos can jump incredible. They have to jump, because otherwise they couldn't reach the leaves on the trees. I myself could not eat a kangaroo, although many fine Australians do. Those with cookbooks, as well as those interested in the taste of kangaroo meet­ings.
—Ogden Nash

Scions of one of the students of the campus college will be selected as a student delegate to the Congress of the A.S.M.E. (American Society of Mechanical Engineers) in New York on Friday, February 5, to represent the enrollment of the campus at the Congress. The student delegate will be responsible for the representation of the campus at the Congress and will be provided with the necessary travel and accommodation expenses.

Crying shame
Emerson, Wynn, Knap, Gard, Goetten, Abbott, and Walker graced a dinner room with the presence of their diligent efforts last Friday night at the Pasadena Home for the Aged. The soiree was held in the wilds of Caltech, a location which is impossible to arrive at from Tech. Figgie was heard muttering to himself under his breath as he splashed his Collins of the evening on the floor. Mr. Ryan says, "A criminal waste."

The Beak, on his way to his customary Friday night retreat, was an establishment well known to members of the extinct order of ascetics. This establishment was discovered by the general public, a strange assortment of what on closer inspection turned out to be Durs. Always eager for a party and the associated liquid refreshments, the Beak observed several items worthy of note.

Yummy!
Most beautiful in attendance was the goddess escorted by Bob Pechecke. The Beak would have made off with her on the spot had it not been for her rather sharp award which Bob held in his hand.

It was not long before the Beak was accosted by Gorgeous Althorpe, played to perfection by Phil Miller with the aid of two oranges. Despite Phil's efforts to the contrary, the oranges failed to keep the proper position.

Futility Pote
"Puto," he says. He has at last found his own. His time at the party Friday was not lost, and speculation is high in Deh­nay as to what he has been doing. If you, as a side note on Sunday, was still no record of his whereabouts.

We were indeed startled to find that Bob Pechecke's slide (Continued on Page 4)

The lovely brunette adorning this week’s paper is named Betty Motl.

Betty’s is a familiar face to those Techmen who occasionally wander into the Alumni and Placement Office on the first floor of Throop. With a hand in just about everything that goes on in the office, especially interview arrangements, Betty is a pretty busy girl.

A native, Betty was born in Long Beach. Perhaps this accounts for her main hobby—swimming. During 1941, however, she taught swimming for the Red Cross and YWCA, and during last summer she did the same at the Huntington Hotel. Betty became a Red Cross Lifeguard in 1948, one year before she graduated from PCC.

Her musical tastes are somewhat what classical, with a preference for Tchaikovsky. In the literary field Betty also likes the classics, “but along with a liberal sprinkling of modern nov­els.”

Athletic Manager

It is the duty of the Board of Directors to see that all matters of ASCIT interest are handled in the best possible manner. As a member of the board, the Athletic Manager has a lot to say in the decisions, especially those concerned with the athletic policy. All the athletic awards are recommended to the board by him. In this capacity lies his greatest responsibility.

It is a freshman student representation the Athletic Manager is one of the four students, on the Athletic Council which conducts Caltech’s athletic program; he is a member of the Student Faculty Relations Committee. It is the duty of the Board of Directors, the principal duties of the “Board” are to keep an up-to-date calendar of campus activities on the bulletin board in lower Throop and in the California Tech, to do the buying for the student government, and to serve as a member of the Board of Directors, the Honor Point Committee, and the Student Faculty Relations Committee. The Students’ Car Repair Lot is also his responsibility. It is an office that requires an “eager beaver.”

Student Faculty Relations Committee, and with two other Tech men he sits in on the Inter College Council meetings.

For a short period in each term the Athletic Manager has his job to put on the Fall Awards Banquet. In the second term there is the Basketball Awards Assembly, and in the third term there is the big Awards Assembly. Combined with these is the task of getting the awards measured and getting the awards distributed. Some day we’ll find an outfit that serves us promptly and consistently, but until then this part of the job will be the big headache. Yes, the job of Athletic Manager takes considerable time and thought; however, it is not a cut-and-dried job. There is always a place for new ideas and improvements. Best of all it is a terrific way to meet the men here at Tech and at the other schools in our conference.

—Moose Henderson

Publicity Manager

The Publicity Manager is the official source of all publicity and information on ASCIT activities given to the outside world.

In a large measure, the pub­licity of ASCIT activities is left to the initiative of the man appointed. Certain duties are defined, but the bulk of his work done is not specifically indicated.

Those duties which are de­

noticed include seeing that scores of details ASCIT athletic events are reported promptly to both the Pasadena and Los An­geles papers. The Publicity Manager is in charge of the bulletin board in lower Throop. He also has charge of all photographic equipment owned by the ASCIT, and is responsible for all expendi­tures made with reference to photo­graphic work in connection with the publication of the Big T and the California Tech. Though the Publicity Manager is not responsible for on-campus publicity for student organizations, he has the responsibility of approving all posters placed on the campus, to make certain that nothing is posted which would tend to give visitors an unfavorable impression of Caltech.

The major portion of the Pub­licity Manager’s undefined du­ties can be hedged under the heading of “cooperation with the Institute News Service Bureau.” All student activities, social programs, student awards, and the like, must be reported to the News Service Bureau, so that they in turn may get out pre­views, features, or reports to the students’ hometown papers.

The position of Secretary of the ASCIT is one which allows its holder to be informed of, and to participate in, many phases of campus activity.

The Secretary is a voting member of the Board of Directors.

The position of Secretary of the ASCIT has a very interesting position. The member must know both the ASCIT and the College.

-George Johnston
Tidbits by Turcotte

Although spring weather has not arrived yet, the spring sports have. While the baseball and track teams have been able to do what they are interested in playing on the team should get out and start practicing as soon as possible. The track team will be held this fall. Truckmen who did not last year will get plenty of work out in preparing for the Interhouse track meet to be held Feb. 14. Lettermen should be working out too although they cannot participate in the meets.

Colonel Small, Tech golf coach, recommends that all players interested in playing on the team should get out and start practicing as soon as possible. The track team will be held this fall. Truckmen who did not last year will get plenty of work out in preparing for the Interhouse track meet to be held Feb. 14. Lettermen should be working out too although they cannot participate in the meets.

The greatest of all ski meets is coming. Officials of the Inter-Ski Club, a new organization which proved to be the entry point for the ski enthusiasts at Tech, will be held at Kratka Ridge, Dick Ricketts. Anyone in Caltech is eligible for the Inter-Ski Club. This includes Faculty, Graduate Students and Undergraduates. The Skiing and Snowboarding Club will be held at the Memorial Trophy.

Tennis News

The Varius and Frosh tennis squads are working out daily on the Tournament Park courts. Any frosh who is eager to play on this year's team should sign up on the courts any Wednesday, Thursday or Thursday after 3 pm to get your name on this year's team should see Ricketts.

Tips-N-Tails

by Ralph Kirke

"FABULOUS, TERRIFIC, OUT OF THIS WORLD! These are but a few of the adjectives describing the skiing at Mammoth this last weekend. The snow was of a light dry type called powder. Imagine, a real powder on a basis of over 10 feet. There wasn't even a mogul to find the warming hut. Upon inquiry, Dave McCoy showed me a tunnel in the snow which proved to be the entry to the hut, which was completely buried. To complete this wonderful story, only 75 people were using the area.

Two weeks ago, the Dick Springer Memorial Race was held at Kratka Ridge. Dick was a student at Tech until his death in an automobile accident in 1950. I would like to see all ski enthusiasts at Tech enter this race next year as it would only be fitting for one of us to win the Memorial Trophy.
