Eight schools combine for ICC dance next Saturday

Frederick Martin’s orchestra will entertain off-campus colleges ($2 per pair)

This is your chance to take your favorite girl dancing to the music of one of the nation’s leading bands, Frederick Martin. The gala affair will be Saturday, February 21, which is only a week from this Saturday. The dance will be held at the new Ontario Armory in new paper’s week’s paper) which is a mere four miles past Scripps. This adds up to a 50-minute drive from Tech but well worth every minute.

The dress will be suits for the fellows and party dresses for the girls. The dance is sponsored by the student bodies of Tech, Caltech, University of Southern California, Pomona, Redlands, Whittier and Scripps. The price is only $2 per couple which can be obtained from the house social chairman or the book store.

Anyone willing to help decorate or wanting to take a check on a blind date with Scripps lovely should see Bob Lynn.

Beno Gutenberg receives award

Dr. Beno Gutenberg, Caltech geophysicist, has been selected by the World Student Service Fund, the William Bowie Medal of the American Geophysical Union. The medal is given annually “for distinguished attainment and outstanding contribution to the advancement of cooperative research in fundamental geophysics.”

Prof. Gutenberg plans to accept the award in person at the Union’s annual meeting to be held May 4-5 in Washington, D.C.

About Gutenberg, his seismology, the earth’s history, the nature of the earth’s core, and about the fields of sound wave propagation and structure of the atmosphere, during World War II he was technical adviser to the Navy Department in the use of microseisms in the location of hurricanes and typhoons.

Sailing club

Important meeting to be held Friday, February 16, at 7:30 P.M. in the Union. The meeting is open to all interested in the sailing club.

WSSF and Community Chest

Combined in charities Drive

An authority on the Republic of Turkey is a visitor to Caltech this week. He is Richard D. Heilman of the American University School Staff. Mr. Robinson is the third of four UFO representatives scheduled to visit here this year. The last, Mr. A. Dock Barnett, will arrive Feb. 20.

H. ROBINSON

Tech not involved in LaForce case

Dean Strong announced this week that Caltech is not likely to be involved in any trials which may arise out of the charges against Richard La Force.

New Bureau Chief Bob Fiedler said that metropolitan newspapers may send reporters here to see what they can find out about the 19-year-old Caltech junior from his student society days. Discretion in this respect is up to the individuals who might be approached. No one is under any obligation to disclose his personal opinions unless he wants to.

Friday the 13th

Are you superstitious? Do you cringe at the sound of Friday the thirteenth? This Friday is your lucky (or unlucky) day for 2-0-0 in classes. In fact, it is the last time that you can do it this term.

ASCIT march 6

By popular request this term’s ASCIT dance will be a costume ball. It will be held at the Alladena Town and Country Club on March 6. Anyone willing to help decorate please see Bob Lynn.

FBI gets curious when wingless jet takes off

Last week about this time there was considerable turmoil on the campus about the disappearance of one wingless F-111. Most people on campus, including Dean Strong and Colonel Gemal, got a kick out of it, but the Air Force took a rather dim view of it. The Air Force and the FBI asked that enough information be collected for a grand jury and the men most responsible for the theft. When the FBI investigators arrived Dr. Weir and the Interhouse Committee persuaded them to allow the students to consider the major part of the investigation.

Dean Strong and Eaton, anxious to see the whole business cleared up satisfactorily, called the head of the FBI. This gentleman sympathized with the Caltech administration and did not want to see that he had been a college student once, but said that it was the duty of the FBI only to make an investigation and submit a report to the United States attorney, who would decide

RICHARD H. ROBINSON

From Turkey for AUF staff

Deans and profs will wait on tables in the house collecting the largest fund

Monday, February 16, marks the start of the AUF Consolidated Charities Drive. This year three charities are represented, the World Student Service Fund, the Pasadena Community Chest, and the American Universities Field Service. The ungraduates and graduates are being asked to contribute to all three charities and the faculty members are being solicited for fund only.

This year the drive will be run through the offices of the four houses and Throop Club.

The house with the largest per capita solicitations will be awarded the “prize.” The prize is the services of Ben集成电路 Eats, Dr. Biddle, Eagle- son, Feyman, Peter Kyrougou, and Bob Barnett, who will visit the various houses on the Friday of the event that Throop Club wins, these men will perform some similar duty. Each house will solicit its own men and a certain number of women. The contributions of the house and faculty will count towards the total for each house’s total. The next few paragraphs will explain (sorry) how your contribution can be decided and then decide on the largest amount you can afford, you will help. The drive begins in the house of each of you.

WSSF

WSSF is a society which depends wholly on contributions from students and educators. The main purpose of this organization is to help the less fortunate students in all parts of the world. The help is given to the most needy, regardless of nationality, race, creeds or other necessities for students in other parts of the world.

By giving to WSSF you help foreign students to help themselves. By giving to WSSF you are helping these other countries to produce capable leaders. The need for such leaders in the immediate future should be obvious to each of you.

Community Chest

Contributions to Caltech’s forthcoming united drive will make a 2/3rds split when they reach the Pasadena-Altadena Community Chest.

With 22 local and national health and welfare agencies, including USO, financed through the Community Chest, and the allocation of un designations will be dis- continued for this period. The Community Chest has also extended its financial assistance to the students and educators of the world and the needs of these countries.

Eaton was also reminded that February 13 is the deadline for most people on campus, including students and educators, the State Personnel Board.

PLACEMENT NOTICE

Lecture, 201 Bridge, will be obvious to each of you.

**To the rescue**

Willing to be a genial sort of fellow, we will harbor no grudge about being cut short last week to make room for the XP 845, 20,000-gallon-a-day, and will try again with a story about the

Dunboy men who hucked out again with Kenneth Hall week before last. The Keny girl, conscious of masculinity, called the Darbs to their rescue on Sunday by beseeching Stocky to supply men for a combination bridge-bridge party at the beach house of some of the swank group. Stocky, always one to lend a helpful hand to a woman in distress, arranged to have Dabney’s emergency gigolo squad of Bryan, Krause, Bormann, and T. S. himself serve as attendants.

—and once you try it, you’ll really have a circus. Su

**Graduate Plan**

For

MASTERS OF SCIENCE

And

DOCTOR OF SCIENCE DEGREES

**PURPOSE.**

To assist outstanding BS graduates in obtaining their Maste's of Science and Doctor of Science Degrees while em­
ployed in industry and making a signifi­
cant contribution to national defense work.

**ELIGIBILITY.**

June 1953 graduates receiving BS De­
gress in the following fields:

Aeronautical Engineering

Civil Engineering

Electrical Engineering

Electronic Engineering

Mechanical Engineering

Physics

Those desiring to participate in this Plan will be from the upper portion of their graduating class and will have evidenced unusual technical ability. They must also have evidenced imaginative ability and possess personality traits enabling them to work well with others.

**CITIZENSHIP.**

Applicants must be United States citi­
zens who can be cleared for “Secret.”

**PARTICIPATING UNIVERSITY.**

Washin­

togton University—Washin­

togton will participate in this program and can­
didates for Master of Science and Doctor of Science Degrees must meet entrance requirements for advanced students at this university.

**PROGRAM.**

Under this Graduate Plan the candidate will work full time at McDonnell Air­

craft Corporation until September 1953. From September 1953 to June 1954 candidates will work at Wash­

togton University on an individually

arranged schedule. A Master of Science Degree should be obtained within a maximum of two calendar years. Under this arrangement it will be possible for a candidate to earn approximately 80% of a normal year’s salary and to attend the university during regular semesters while working toward his advanced de­

**COMPENSATION.**

Compensation will be commensurate with the individual’s ability and experi­

ence. Compensation growth will be on the same basis as the full time members of the engineering staff. In addition, the candidate will be eligible for all other benefits accruing to full time employees.

**TUITION.**

Tuition covering the required number of units necessary to obtain an advanced degree will be paid by McDonnell Air­

craft Corporation.

**SELECTION OF CANDIDATES.**

Candidates will be selected with the advice of McDonnell Aircraft Corporation and Washington University.

**DATES FOR APPLYING.**

June 1953 graduates should make in­

ternal applications prior to March 15, 1953. McDonnell Aircraft Corporation will then forward formal applications which should be returned by April 15, 1953, to the participating university for grade transcripts. All replies will receive full consideration and selections will be made during the month of May, 1953.

On the list of Red Feather agencies supported through the Chest and offering services to individuals and families in all income groups are:

- For families and individuals with problems which can be helped by skilled, professional counseling: Family Service, Catholic Welfare Bureau, Aladena Welfare and Child Placement Service, Legal Aid, Salvation Army.
- For people with either physical or mental health problems: Women’s Hospital (maternity only); Children’s Hospital of Los Angeles, Pasadena Dispensary, Child Guidance Clinic, Citizens Milk and Hygiene Committee, Visiting Nurse Association.
- To provide character building and leisure-time activities for boys and girls: Boy Scouts, Boys’ Clubs (two), Girl Scouts, Camp Fire Girls, Pasadena Settlement, Scouting Association, YWCA, YMCA, Girls Club.
- To provide homes for youngsters whose own homes have fallen apart because of death, illness or desertion: Boys and Girls Aid Society, Rosemary Cottage, Pacific Lodge Boys’ Home.
- For our share to agencies doing a job on a national scale: U.S.O., Traveler’s Aid, National Social Welfare Assembly, American Heart Association.

Among other than research projects are aid to cardiacs. This aid is in helping the cardiac to receive the best care from trained housewives and education of cardiac employers as to the type work the cardiac can do. The American Heart Association keeps physicians up to date on the latest developments in the field of heart diseases. This chart is your support.

Think about these three charities carefully and give all you can afford. A solicitor will see you during the next week; be prepared to give him a few minutes of your time and your largess.

Thank You!

Pat Paxlo, Chairman of ASCIT Consolidated Charities Drive

MUSICAL SHORTS
(Continued from Page 3)

The heart of the Heart program. Due to past research, surgical techniques to save the ones doomed “blue babies” have been developed, successful massage techniques for hearts which stop during operations have been developed, and diets have been evolved to slow down the ravages of heart disease.

Heart Association

Heart and blood vessel diseases caused more US deaths last year than the next nine causes combined! This killing disease not only affects middle age and older people, but is the leading cause of death for children between the ages of 5 and 19.

Research is the “heart” of the Heart program. Due to past research, surgeons can now perform heart transplants; doctors can now implant artificial hearts. (Continued on Page 3)

MUSICAL SHORTS
(Continued from Page 3)

Tom’s secret wish and selfish soul—brings news of Tom’s inheritance from a rich uncle. Tom has denied father True-love suggestion that he go to work and earn an honest living. He has no such intention, and believes completely in the power of the wish, “Let us share the horses: this beggar shall ride.”

The wish, immediately granted, is his ruin, Tom leaves Anne, reaches London with his companion who observes, in an aside to the audience, that “The progress of the Bats begins.”

Nick brings Rakewell to the brothel of Mother Gooze, mistress of illusions and scamps, who participates with him in the betrayal of his faith, “the vow he did not keep.” Immediately after this there is the spectacle of faithful Anne, alone in the moonlight in the garden, who will go to London to find and rescue the lost one.

There is the horrible project broached by Nick, to marry Baba the Turk for more money to which Tom consents with a selfishness followed by the poignant scene when Anne comes to Tom’s doorway, resolves there in time to see him greet his unsightly bride in her palanquin and fling in her face the fact of his treachery.

Baba drives Tom mad with her drivelling talk in his breakfast room and the passage ends with him pulling his down over her face to shut her up.

There is the scene of attempted auction of Baba’s effects and of Baba herself. Anne appears again with Rakewell about of her bargain with Tom, will return to the stage, and she tells Anne to hurry back to Tom.

On a starless, silent night, Tom...

warns young men not to be deluded that they are Virgils or Caesars, only to discover that they are nothing but rakes. True love agrees. Nick says that day in and day out, as poor Shadow, he not only has to do as he is bidden but is even considered by some as not to exist. The final moral is pronounced; that since Eve and Adam left Paradise the devil has found mischief for idle hands to do, which applies "to you and you and you." Although the plot appears to be rather corny in spots, the opera should provide good listening. I'd like to mention the fact that the tickets for the opera ranged in price from $1.75 to a mere $20.

The frosh tennis team is urgently in need of more players. Anyone interested should get out as soon as possible, since the date of the first match is rapidly approaching.

1. For hundreds of years the coast of Baffin Island in Northern Canada has been an Eskimo home and hunting ground. The Baffin Island Eskimos were known throughout the North for their skill as seal hunters and fishermen. They lived on raw seal meat and raw fish. Their existence, while primitive, was a happy one.

2. Eight years ago the Canadian government set up a system of family allowance under which the Baffin Island Eskimos received $5 a month for each child—as did all other Canadians. These allowances, called "kenayaksait" by the Eskimos, represented more money than most of them had ever seen at one time.

3. To the Eskimos, their new-found wealth meant they didn't have to hunt seals or catch fish any more. Most of them left their hunting and fishing grounds and moved in close to the trading posts where they received their monthly handouts and could buy the niceties of civilization.

4. The Eskimos' new life was soft and easy—for they had complete security. But because they no longer needed to provide for themselves they lost all vigor and ambition. As a result, the government is now trying to get them to move away from the trading posts and start producing or forfeit their allowances. But this is next to impossible to accomplish. For the Eskimos have grown to depend on their security so much that they have no desire to return to their former life of freedom and independence.

5. The important point of the story is this: enslavement by security isn't something that happens only to Eskimos. In fact, millions of people all over the world see nothing wrong with a welfare society. But welfare plans are like dope. The doses are small and pleasant at first, but they eventually enslave us. For that reason, we Americans must maintain our self-reliance, our productivity and our freedom. For these things, after all, are responsible for America's greatness.

**Tennis players**

The fresh tennis team is urgently in need of more players. Anyone interested should get out as soon as possible, since the date of the first match is rapidly approaching.
Tech edged by Whittier beats Long Beach State
Pasadena Nazarene next

Caltech split two games held during the last weekend, taking one from Long Beach State, 63-66, and dropping the other to Whittier, 58-64. The Conference loss pushed Tech back down to third and virtually assured Whittier of the SCAC championship. The victory over L.B. State gave Tech a winning season, as they have a 11-5 record with only five games to play.

Tech bounces back
Playing firehouse basketball from the opening whistle, the tall Poets gained quite a lead. At one point in the first quarter it was 35-2 in favor of the Poets, but Tech had trouble with the Poet home court payers. The Poets scored 46 points in the first half. As it turned out Whittier needed only 15 points to win. The Poets needed 24.

Third-quarter rally
Tech came back with even more energy in the third quarter. Paced by Anson and Stevens, the Orange and White scored 49 points to the Poets' 27. The game with Long Beach was a big game with all the tall Poets and Chambers rebounded for three quarters. Chambers fouled out. The final score was 85-72.

Best Pomona
Pomona will try to stop Tech Friday at PCC. We are rated a solid favorite over a team that averages 2 ft. 10 in. to Tech's 6 ft. 2 in. The Sagehens were beaten by the Shymen last time out, 62-52.

Tech bounces back
Tech faced two teams that were good for a 10-15 lb. gain. Pomona was a hard one to study after a hard workout.

Microtomic
Microtomic—the finest example of quality and craftsmanship. Designed and manufactured in the U.S.A. by the Microtomic Co. of New York. Exclusive for Bell Telephone System.

Stark
Anson broke his Whittier jinx by scoring 27 points and again proving himself to be the best center in the league. Tyler, playing with a charley-horse, still scored 15 and controlled the rebounds. Stevens played a bang-up game and went on to win, 58-64.

Earthquake
In the predawn of last July 21, the most severe California earthquake since 1906 struck the small town of Tehachapi. Walls were collapsing, buildings were folding. The town's telephone office shook to its foundation. But the night operator remained at her switchboard until it went dead. Main cables to the office were pulled to the ground when a nearby wall caved in. This was at 4:50 A.M.

By 8:30 A.M. telephones were set up on the corner of all streets. The town's telephone office was working. The telephone men were preparing to contact friends and relatives concerned. If you're driving, don't park your car in the parking lot south of the football blachers.

By 9 P.M. two TV stations were sending live telecasts of the damage. Telephone men had-radio relay system in less than 12 hours. It was a typical disaster—brutal and unannounced. But telephone men were prepared. They quickly restored communication when it was needed. They demonstrated the resourcefulness and technical skill typical of telephone people.

These are some of the qualities we seek in the college graduates we hire. Your Placement Officer can give you details about opportunities for employment in the Bell System. Write to American Telephone and Telegraph Company, College Relations Section, 10-15 lbs. Pomona was a hard one to study after a hard workout.

Swimming starts
Interhouse trials
March third

Monday, February 16, the PCC pool will again be available from 4:45 to 6:00 for Caltech intercollegiate and interhouse swimming teams. Unfortunately, the football blachers and the locker room under them were condemned; so there are no locker or shower facilities at PCC available to Tech men. If you're planning to go up, change clothes here first. Also, if you're driving, don't park your car in the parking lot south of the football blachers.

CAMPUS BREWINS
(Continued from Page 6)

Billed their latest experimental model, with the mile of the wind tunnel still wet on its propeller. Obtaining a tricycle tractor and a little wagon trailer from a party who had best remain nameless, since the does not wish to be involved, they mounted their sleek beauty upon the vehicle and pedaled it to the display grounds. Pressure from jealous competitors caused the displayed to be moved to Ricketts Lounge. In the words of a small Colonel, “The old man (Uncle Sam) doesn’t like to have his whiskers pulled.”

A woman is only a woman.

With all the pomp and circumstance fitting the occasion of the announcement of the entry of two Ricketts men into the anteroom of the Elysian fields of connubial bliss, the engagement of Doug Ingis and Phil Bates to Alexis Mellor and Myrna Mademann, respectively, was disclosed at dinner Monday.

But a good cigar

In keeping with the reverence of the occasion, the angel Gabriel in the person of a disheveled Ash Brown silenced the multitude with a few hotlicks, followed by a cherubic if somewhat unshaven Bob Easton, who sprinkled rose petals upon the carpet which had been laid for the occasion, while puffing upon a heavenly stogie. Jack Walker, followed, bearing incense to drive off Blacker men and other evil spirits.

Is a smoke

Then came the noblest Ro-BREWIN.

NOW...10 Months Scientific Evidence

For Chesterfield

A MEDICAL SPECIALIST is making regular bi-monthly examinations of a group of people from various walks of life. 45 percent of this group have smoked Chesterfield for an average of over ten years.

After ten months, the medical specialist reports that he observed...

no adverse effects on the nose, throat and sinuses of the group from smoking Chesterfield.

MUCH MINDER

CHESTERFIELD IS BEST FOR YOU
