Sailing club

Last Monday evening the members of the Sailing Club were given a very interesting talk on the techniques of sailing by Mr. Terry S. Professor of the YWCA was Mr. Peter Kerley, the West Point dinghy team champion. Mr. Kerley offered to give some pointers on handling to anyone interested, and for that purpose he will be at the YWCA on Sunday, March 8.

Vote for me

President

Next Thursday you, the student body, will go to the polls to choose your ASCIT President. As a candidate for President, I desire to make you aware of the importance of the ASCIT presidency in the student body's interests, the needs of the university, and the responsibilities that are involved in holding this position. I recognize the merit and abilities that must be incorporated into the student body president and feel that I meet them. When you select your President you want to select the candidate whom you know is the best representative of you, the student body. You must choose the man in whom each of you can place complete confidence and faith as your delegate to the student-faculty relations, the administration, and the intercollegiate council, and as director of your activities. I feel that my past experience in campus and leadership positions have prepared me to meet all of these responsibilities, and above all else I must have the ability to lead. I... (Continued on Page 2)

Draft dodger test deadline March 9

All eligible students who intend to take the April 23 Selective Service physical examination should file application as soon as possible. A bulletin of information is available at any Local Board. These forms should be returned to the ASCIT office before midnight, March 9, 1953, but students are advised that it is to their advantage to get their forms in as soon as possible.

Annual championship debate to be held, Friday, Saturday

Tech hosting thirty western schools question to deal with federal FEPC

This coming Friday and Saturday, February 20 and 21, Caltech will again sponsor its annual championship debate tournament. The goal of the debate will be to present the case for and against the Employment Practices Act, as providing the only effective solution to the question, "Resolved That the Congress of the United States Should Enact a Compulsory Fair Employment Practices Law.” This debate will begin at 4:30 pm Friday, and will conclude at approximately the same time Saturday. Trophies for winners will be awarded in five divisions, east, west, upper, women’s, men’s, lower’s, women’s, and Class "B".

Roth takes UCLA speech tourney

First place trophy in men’s lower division competition was awarded to Martin Roth, Tech freemason, at the Speech Events Tournament held last weekend at the University of California at Los Angeles. Roth, a member of Tech’s freshman class, was awarded the Oral Reading Club, also a certificate for excellence in oral interpretation at the Santa Barbara practice tournament is still another.

Other Caltech men took part in the UCLA tournament last weekend were Gary Boyd, Ray Orbach, Bill Lindley, Myron Black, John Young, Howard Berg, Bill Dibble, Ray Price, and Leon Koen.

Free films and film classics

Next Monday at 7:30 pm in Pioneer Hall will be shown a series of film classics by showing two movies. "Our Daily Bread" directed by Howard Hawk, and "Madeline, a U.P.A. cartoon, Thursday," will be screened. There will be no charge for admission.

Technique interview 18 week reading course furnished

Dr. Weir announced last week that the first week reading course started last term has been completed and the rest of the class is now in progress. The freshmen who took the course did so of their own free will, and had scored in the lowest quarter of the sophomore class in their speed, and comprehension tests. At the conclusion of the second week three, those problems which had finished it, were tested again and it was found that their speed and comprehension had gone up as high as the top quarter in the first tests.

No. 17

Inter-College-Council dance will feature Freddy Martin

Afternoon Session for Saturday from 2 to 4 at Oxnard Aircraft, tickets $2.00 a Couple.

Advisors now needed in preregistration

All undergraduate students have been requested to pick up their preregistration cards between February 23 and February 27. The upper class students have been assigned to sections and advisors. After the student has filed in his third term program according to his assigned program, he should have his card signed by his advisor; then he must return it to 119A Throop before February 27.

All freshmen have been assigned to sections for this term. Since they are not assigned to advisors for the third term program, they should pick up their preregistration cards in 119A Throop between February 23 and February 27, fill them out, and return them to 119A Throop by February 27. The freshmen will be assigned to option consultants in May for the full preregistration.

All students who wish to change a course or section after preregistration should report to 119A Throop before the end of this term. If and when the schedule change are necessary on a student’s program because the sections are full or for other reasons, the student will be notified whenever possible. Any student who does not expect to attend the Institute next fall is urged to change his card as soon as possible. As a matter of fact, the card should not be held out after February 27 without special permission.

If a student wishes to change a course or section after preregistration, he should report to 119A Throop before the end of this term. If and when the schedule change are necessary on a student’s program because the sections are full or for other reasons, the student will be notified whenever possible. Any student who does not expect to attend the Institute next fall is urged to change his card as soon as possible. As a matter of fact, the card should not be held out after February 27 without special permission.

Free films and film classics

Next Monday at 7:30 pm in Pioneer Hall will be shown a series of film classics by showing two movies. "Our Daily Bread" directed by Howard Hawk, and "Madeline, a U.P.A. cartoon, Thursday," will be screened. There will be no charge for admission.

"Our Daily Bread" surveys the problem of unemployment and advocates a return to the land as one possible solution. Although this is not a timely subject, it should become one’s understanding of the unemployment problem, which do exist in a large part of the world at this time.

Campus Calendar

Monday, February 16-19, 12:00 noon, YMCA Graduate Faculty, Lincoln, Fraternity, Alumni, faculty luncheon.

Tuesday, February 16, 6:00 pm, S.A.F. Dinner Meeting, Century Club, Pacific, U.S. Navy, Marine, postgraduate, and postgraduate lunch.

Wednesday, February 17, 12:00 noon, YMCA Faculty, Lincoln, Fraternity, alumni, faculty luncheon.

Thursday, February 18, 12:00 noon, YMCA Graduate Faculty, Lincoln, Fraternity, Alumni, faculty luncheon.

Friday, February 19, 12:00 noon, YMCA Faculty, Lincoln, Fraternity, Alumni, faculty luncheon.

Saturday, February 21, 7:30 pm, joint Talons, Pioneer, and Talons at Los Angeles State University.

Sunday, February 22, 8:00 pm, Symphony Music Concert, Dorothy Hall.
LETTERS

To The Editor:

Not long ago the Tech pub-lished an editorial about the hu-manities library. This editorial, inspired me to find out a little more about the library op­erations.

The first and foremost job of the humanities library should be to serve undergraduate needs. This should cover recre­ational reading as well as read­ings for humanities courses. This faculty can find it much easier than the student to visit more extensive libraries in the Pas­sadena area because they desire a book on the most important events in the school year... the ASCIT nominations. It is sort of strange, then, that there were more people in the library in Caltech than there were in the audience. Stranger yet is the fact that so many offices have only one candidate. These men whom we elect will have control over a lot of our money and it is only logical for us, as any faculty board connected with students, to say—students...

During next week’s election we shall all vote for the men we want in office. Read all the campaign promises that are in this issue. They tell who to vote for and why.

VOTE FOR ME...

(Continued from Page 1)

should be a well-rounded indi­vidual who—must—have a degree in government, student organizations, and social activities as well as sports, and possessing an acute awareness of the problems of the ASCIT.

I feel qualified to execute the duties as your student-body president because of my high school experience in student body offices as well as my partic­ipation in student activities here at Tech. My participation in fresh football and baseball, varsity soccer and basketball, cox-y commander of the ROV, junior class vice-president, mem­ber of the Quakers, and house leader have given me a good chance to gain insight to many of the problems that beset the ASCIT government in the coming year. I sincerely believe that I am the candidate that you will be voting for... (Continued on Page 4)

which there is almost no demand.

What I propose is a fairly large portion of the appropri­ation be set aside in a general fund for the purchase of large books. The books are then requested by members of the faculty, result­ing in a purchase of the large portion of the appropria­tions.

Two weeks ago all was love and light. Everyone was happy. Student was getting married this Saturday night to some other guy. But last Saturday night she had changed her mind. She was married that night to some other guy. Say Alej... she was married that night and she didn’t tell me what a sham her getting married to some guy was. I don’t think she made up her mind. I really believe that she was being married that night. And she was married that night to some other guy. Say Alej... she was married that night and she didn’t tell me what a sham her getting married to some guy was. I don’t think she made up her mind. I really believe that she was being married that night. And she was married that night to some other guy. Say Alej... she was married that night and she didn’t tell me what a sham her getting married to some guy was. I don’t think she made up her mind... she was never the type to break her date with him.

The Og

Monday night Happy yogh Ogilvie came back from a rather damp off-campus party. IT must have been very foggy that night because he was flying on instru­ments. We think his gyro tumbled. Also, we have a question for Morgen; We have heard of songs from the mountain top.

What else, Alex?

Alex Daruwala is still as hard as the hard way. He has been going rather steadily with a girl from Oxy for the past three months...

Attention June Graduates

GOODYEAR AIRCRAFT CORPORATION INTERVIEWING FEBRUARY 25, 1953

Representatives of Goodyear Aircraft Corporation, Akron, Ohio, will be on your campus to interview seniors and graduate students in the following technical study:

- MECHANICAL
- AERONAUTICAL
- ELECTRICAL
- INDUSTRIAL
- METALLURGICAL
- ELECTRONICS
- ENGINEERING
- PHYSICS
- MATHEMATICS

For opportunities in:

Design—Complete lighter and heavier-than-air aircraft and components, airframes, power systems, flight controls; hydraulics, electronic systems, servomechanisms, fiber resin laminates and many other.

CAMPUS BREWINGS

DR. DEVENY

For all men love good food, good wine, and sex.

Aristotle

The great oracle (hears all, sees all, knows nothing): Dave Cantor has just come forth with the following dire comment on the state of the union, “Eisen­hower hasn’t even been in two months, yet the price of gaso­line is already going up.” Will sex be next, Dr. Cantor?

Fluid flow

Phil Bowers and dinner were her­alded at a reception Sunday at which spirit flowed as it should. All of Rackets which was not high in the mountains was high there.

Last week Ralph Milies, in his deepest despair, tried calling seven different girls in an ef­fort to get a date for the week­end. It was all to no avail, for he wound up as womanless as when he started. But, it seems that Stephanie and Vartalan afterwards managed to get hold of the phone number of one of the girls that he had called. They called her up, got on the line, and then got Ralph on the phone saying that he had volunteered for the event. She quite understand­ing the plot, he asked her who she was. She came back quite quickly, “Well, you talked to me already this afternoon; you did quite a good job of it.” Ralph spent the rest of the afternoon picking pieces of broken jaw and teeth off the floor. So far as we know he still hasn’t figured out which one she was.

The Haploids

Jerry SohI's excellent novel, The Haploids, is now on sale in pocket form at a tenth the original Rinehart cost. This original novel opens with a dying man admitted to a hospital—dying from no known cause that medical science can name but yet evidently not dying fast enough, for shortly thereafter a woman slips in to murder him. The tale that follows is a combination science-fiction yarn with a reporter who eye-witnessed the murder and who, in order to discover the haploids, an artificial-created race of women, must create his own. The result is a fast-moving, exciting, yet realistic yarn that has hitherto been missing from the science-fiction field.

The main character is a young scientist who has discovered the haploids and who, in order to save his life, must create his own. The story is written in a fast-moving style and is sure to appeal to all fans of the science-fiction field.

The Haploids is a must-read for anyone interested in science-fiction and is sure to become a classic of the genre. It is available in pocket form at a tenth the original Rinehart cost, making it an affordable choice for all fans of the field.

S-F Plus

The March issue of Hugo Gernsback's new magazine should be on sale by the time you read this. The April issue of this monthly will feature "World War II in Retrospect," a complete, scientific, chronological history of the next world war illustrated with 16 illustrations and photos.

Also featured will be stories by Clifford D. Simak, Raymond Z. Gallun, Richard Taggart, Frank Belknap Long, and others. The magazine will use science, preferably before the sixth, which will be no longer than 60,000 words at present. The second issue will be by Alex Schomburg, while the third will be by Frank R. Paul.

Ring Around the Moon by Robert A. Heinlein is being filmed for TV. It is rumored that George Pal will produce After Worlds Collide, a much better story than the first of the series, Conquest of Space, the Biestable Lay, collaboration would supposedly be next.

Watch out for Ma and Pa Kettle Go to Heaven. Robots will supposedly circle the earth in a flying saucer. Ma and Pa Kettle will be over 72 years old. The movie is scheduled for release in time for the Thanksgiving holidays. The movie will be a spoof of the popular "Kettles" series of books written by John and Faith Reynolds.

Mildness and Flavor!

Why Camels? The best reasons are:

1. More People Smoke Camels than any other cigarette!

2. Camel offers the finest mildness and flavor available in any cigarette.

3. Camel is America's most popular cigarette, leading all other brands by billions!

Camels have the two things smokers want most—rich, full flavor and cool, cool mildness...pack after pack! Try Camels for 30 days and see how mild, how flavorful, how thoroughly enjoyable they are as your steady smoke!
VOTE FOR ME...
(Continued from Page 2)
If selected as your student body president, I pledge my full efforts toward the betterment of the student body, and I promise to uphold the dignity and high traditions expected of the ASCIT President.

Respectfully,
Donald Hook

Your ASCIT President presides over the Board of Directors. In this capacity he works to develop a policy which represents you. Your President works with the faculty and Inter-House Council. In this capacity he coordinates your interests with those of the faculty, other schools and the public. Further, your President is called upon as your representative to speak before new students and outside groups. In short, your President represents you as a student body both here at Tech and outside.

To do this job efficiently your President must be capable of controlling the gavel so that work will be accomplished. I have had experience with this task as president of my class in the Freshman and Sophomore years.

Your President must be capable of giving aid to the other members of the Board. I have had occasion to organize a number of events and I am familiar with the organization and problems of our student government.

Your President must have a good grasp of the ideas of those outside the Student Body. As a member of the ICC, Student Faculty Relations Committee and Athletic Council I have a good understanding of the objectives and ideas of these bodies. Only too well do I realize the liberalism of our faculty, and as President I would strive to continue the cooperation that exists now.

Your President must have the desire to represent you. As a result of my contacts with you, in class, on the field and elsewhere I feel that I have a pretty good idea of what you desire as a student body. As your President I would continue to encourage the expression of your ideas and thorough discussion of them, for in no other way can I be sure that the Board is representing you.

These are the principles that I believe in and that I will work for if you make me President. With these principles and my experience I will do my best to be worthy of John Gee's shoes.

I have a sincere desire to work with you and the Board as a team to give the ASCIT that extra spark which will make this coming year especially outstanding for all. If you believe in these principles, put your vote after Moose Hender-

son for Student Body President. I won't let you down!

—Moose Henderso

You, the student body, are doubtless familiar with the general purpose of the student government, but certain aspects of the ASCIT President's work require restatement and emphasis. Your President faculties primarily as a coordinator of the various operations of the ASCIT government and as a representative to those persons in the faculty and certain other outside organizations who are particularly interested in your affairs. These matters demand of the President a great deal of his time and a serious attitude to his work.

The total ASCIT yearly budget is about $11,000, $17,500 of which must have the desire to represent you. As a result of my contacts with you, in class, on the field and elsewhere I feel that I have a pretty good idea of what you desire as a student body. As your President I would continue to encourage the expression of your ideas and thorough discussion of them, for in no other way can I be sure that the Board is representing you.

The Du Pont Digest

As was pointed out in the last issue of the Digest, Du Pont's many product lines afford many opportunities for production supervision experience in a wide variety of operations.

For a better idea of what the work involves, let's consider a specific case, the production of "Mycoban." Sodium and calcium propionates, inhibitors used by bakers to extend the mold-free life of bread and other baked goods.

Many of the problems encountered in the manufacture of "Mycoban" are similar to those arising in the manufacture of any Du Pont chemical.

As was pointed out in the last issue of the Digest, Du Pont's many product lines afford many opportunities for production supervision experience in a wide variety of operations.

VOTE FOR ME . . .

(Continued from Page 5)

takes an economy of operation.
I believe that I can comple-
tently perform this duty and
also represent your student
body. I have lived off camp-
us and in the houses and feel
that I have sufficient back-
ground in campus activity to
accurately represent you on
the Board of Directors and the
Student-Faculty Relations Commit-
tee.

I would therefore appreciate
your vote and confidence.

—Jerey Von Hoven

In January, George Moore,
who is now the ASCIT Treas-
urer, outlined the duties of the
office and and I think I’ll re-
mind you of some of the im-
portant points that he brought
up. The annual budget of the
ASCIT exceeds $10,000 per year
and must be allocated wisely and
efficiently. Besides this one
eye on the bank account, the
Treasurer must keep track of
current student affairs since he
is a member of the Board of
Directors and a member of the
Student-Faculty Relations Com-
mittee.

I think it should be sort of
evident that if I didn’t want the
job of Treasurer and didn’t think
I had the qualifications, wouldn’t run for the office.
I think that I have shown the im-
portant qualifications of com-
mon sense, good judgment and
conscienciousness in my hand-
ing of the California Tech
during the past year. For sev-
eral years I worked in the busi-
ness district of New York and
have considerable experience in
dealing with business men of all
kinds.

Remember, that you won’t go
wrong next Tuesday when
you vote for Ron Ratney for ASCIT
Treasurer.
—Ron Ratney

Athletic Manager

The most important duty of
the Athletic Manager is his re-
presentation of the student body
in the Board of Directors.
Interest in athletics is a prime
requirement for this duty.

In BOD meetings he is one of the
most active members. Not
only is he responsible for a
large part of the financial af-
fairs of the student body, but
he must arrange the fall banquet
and spring sports assembly and
must distribute athletics funds.
A very major and interesting
part of his job is in representing
the school in the Inter-College
Council and in the Student-Fac-
ulty Relations Committee.

I have been active in student
life as Freshman Athletic Man-
ger and as a member of the
Board of Control. In these as-
ces I have been able to ob-
serve the workings of the stu-
dent body organizations. Also
I have shown my interest in ath-
etics by earning awards in foot-
ball, track, and tennis as well
and participating in interhouse
athletics.

I want the job of Athletic
Manager of the ASCIT for I
can have the Interest and ability
to serve the student body.
—Bruce Kaiser

In a few days you will elect
men to the offices of the
ASCIT for the coming year. One
important job in this govern-
ing body is that of Athletic
Manager. His main duty is to
coordinate the student organiza-
tions and the athletic program.
He has shown my interest in ath-
etics and has demonstrated his
ability to manage an athletic
program. He has a good under-
standing of the student body
and the workings of the stu-
dent body organizations. Also
I have shown my interest in ath-
etics by earning awards in foot-
ball, track, and tennis as well
and participating in interhouse
athletics.

I want the job of Athletic
Manager of the ASCIT for I
feel the Interest and ability
to serve the student body.
—John Grieser

The second, and more unique,
is making sure the public has
of your activities. Caltech itself
is extremely well known
to the world because of the
academic achievement of the
many who do instruction and
research here. However, this very
publicity tends to put the not-
academic achievements of the
students in the shadows.

An official publicist is in full
information concerning the activi-
ties of the ASCIT, the Publicity
Manager has charge of letting
the public know that Caltech
students do something besides
study. I am willing, able, and
eager to take on the responsibil-
ities of ASCIT Publicity Man-
ger and would appreciate your
support in the election next
Thursday.
—Jim Adams

Publicity Manager

The man who serves as pub-
licity manager of the ASCIT has
two duties to perform. The first
is to represent you on the Board
of Directors, which sets your
student policies and spends your
money with your good judgment
and interest. I am the best person
for the job. I can do the job. I am
strongly interested in the work
and promise to do the best job
I can. Who is this guy? Why I’m
Ray Grieser.

I know a vote for Ray Grieser
for ASCIT Publicity Manager will
be greatly appreciated.

—Ray Grieser

First Rep

The job of ASCIT social chair-
man requires a man with ex-
perience, social contacts, origi-
nality, and enthusiasm.

I have had experience in ar-
ranging social events for my
freshman and sophomore class
as well as for my house. My
experience with dance bands,
having played saxophone for a
total of nine of them, has given
me an ear for good bands and
ability in dealing with them. I
also have several contacts with
various bands in Los Angeles
and I think you will be proud
that you have a representative
of the best in student social
activities for the next year.

I believe that Barn dances have
been favor-

ity and
arenas.

college.

publicity.

Now, you have to decide. We
are going to see you in the 10:
00 p.m. meeting. Remember,
what’s most important. Don’t
vote for me just because of the
publicity I have done. Vote for
me because I have done the
things that you wanted done
for the student body. Vote for
me because I possess the quali-
fications and the ability to
serve the student body.

—George Moore

NATIVATION-WIDE SURVEY!

College students prefer Luckies
in nation-wide survey!

Nation-wide survey based on actual student in-
teractions with leading colleges reveals more
smokers prefer Luckies than any other cigarette
by a wide margin. No. 1 reason—Luckies’ better
taste. Study also shows Lucky Strike gains for
more smokers in colleges than the nation’s two
other principal brands combined.
Tech jumps back into 2nd place
Sagehens slaughtered 68-53
4 games left, sweep expected

Score 89, lose Chambers hot
The Tech cagers moved back into second place in the torrid SCIc race. Two things enabled the Shymen to do this. First was the narrow win of Whittier over Oxy, 63-60. Second was the defeat of the hapless Pomona Sages by the Beavers, 80-70. Pomona bagged last place and have a 4-6 record.

Chapman next Oxy Wednesday
Tech moves into the final two weeks of SCIc campaigning with high hopes of taking all four games. The easiest of the quar­re­ will be this Tuesday at the armory with the beleaguered Chapman five, Chapman has already been defeated by Tech and practically all SCIc teams. One of the roughest will be with L.A. State this Saturday; the last time, L.A. State has beaten such teams as Loyola and Santa Bar­ra.

Oxy Victory Seen
The big game is with Oxy at SCIc Wednesday at 8:15. A win over them would virtually se­cure Tech of second place. We did beat them last time out, if you remember, and it can be done again. Another, more per­sonal battle shapes up as the two best league players face each other, Anson and Golden. Also the rebounding of Tyler will be challenged (but not too much) by Guilliland. A game with Redlands a week from Sat­urday winds up the casu­ally season for 93.

Peekin In
by Patraw
It is possible for a basketball team to look good while losing. It is also possible for a team to look poor while winning. Two examples of this were seen last week. One of the best games I have seen was the P. Nas one last Tuesday. It was a big even­ ning, with the first team and then another getting hit. The final score was a new total point record, being 108-89. The league game last Saturday was a poor one from anybody’s standpoint. Luckily we were playing an admittedly poor team.

Entire Student Body Agrees
New Arrow Radnor Is “Hit”!

New Rounded-Point Collar,
Small-Knot Tie, Smart
Campus Style Note
The rounded-point collar is rapidly winning new converts among well-dressed collegians. Most popular of these new shirts is Arrow Radnor.

Arrowshirt - SHIRTS - TIES - UNDERWEAR - HANDKERCHIEFS - SPORTS SHIRTS

Interhouse Sports
Throop cops I.T. track
Fleming closes on Dabney
by Benji
Throop Club breezed by all comers in the Interhouse Track meet held last Saturday as its sophomore sensation, Don Tay­lor, took individual honors. Flem­ ing held on gamely but couldn’t overtake the f r o n t-runners; Ricketts, Dabney, and Blacker were also aboard.

Taylor Wins
All Taylor did was win three events, set two new rec­ords, and run a leg of Throop’s second-place relay team. The-off-campus flash was clocked in 9.8 seconds and 14.14 seconds, respectively, in breaking the high and low hurdle standards. Sharing individual honors with Taylor were double winner Gene Kaiser of Throop, record breakers Ernie Ophuls and Red Supple of Fleming and Jim Lloyd of Throop in the pole vault.

Fleming gains
Main beneficiary of the meet’s outcome inasmuch as Interhouse Trophy standing is concerned was Fleming, who picked up 26 points on pace-setting Dabney and edged into second place ahead of Blacker. Next Inter­house event is the Swim Meet on March 5, with trials set for March 3.

Spring sports get under way
Spring sports are really getting off with a bang in the next two weeks. The Tennis Varsity opens its season with a match against Loyola on the 20th. The annual inter-class track meet is being held next Saturday. It starts at 200 and a wide-open battle is expected.

Golf Starts
Golf practice starts this week and there are three weeks until the first match, the inner should be buzzing with activity. For the first time in years the schedule is hopeful of getting a real golf course for its matches.

Turkey absent
Only 11 men played good ball—Smith, with 15 points. Shank is and Anson led the Tech attack. Ted with 21. Howard with 19, Madsen 8, 7, Stevens, and Frits 7. Tyler was abs­ent due to the flu so the Tech scoring punch was reduced a bit.

Scoring mark set
In one of the best games played by the Shymen this year, a new scoring mark was established. Pasadena Nazarene defeated Tech 108-89. The Fea­thers played a good game, ar­riving one to one of the best teams in the country for the last three quar­ters. Davis sets a personal scor­ing mark of 39, while for Tech Chambers had 22, Tyler 20, As­ton and Golden, 10, Smitty 8, Madsen 7, Stevens 6, and Britt 7. Tyler was absent.

Spring results
The Tech track men were in fine form against Loyola on March 5, with trials on the same day.

100: 1 J. Lloyd (T), 2 Lewis (R), 3 Madsen (T), 4 pilant.
220: 1 Weilman (B), 2 Brady (B), 3-0phuls (F), 4-Walker (R).
330: 1 Ophuls (F), 2 Gutierrez (D), 3 Cicaldi (T), 4 Ricketts (D).
660: 1 Moore (F), 2 Mandl (D), 3 Patel (T), 4 Ricketts (D).
1320: 1 B. Kaiser (R), 2 Mandl (D), 3 Patel (T), 4 Ricketts (D).
1 mile: 1 Ricketts (D), 2 B. Kaiser (R), 3 Mandl (D), 4 Patel (T).
High Jump: 1 Ward (F), 2 R. Kaiser (D), 3 Balmer (F), 4 Balmer (F).
Long Jump: 1 Ward (F), 2-Ophuls (F) 3-0phuls (F), 4-Ophuls (F).
High hurdles: 1-Taylor (T), 2-Buck­ley (T), 3-Ward (F), 4-Ward (F).
Doubles: I-Ophuls (F), 2-Throop, 3-Dab­ney, 4-Pilant.

VOTE FOR ME
(continued from Page 6)
and Throop Club before each dance, soliciting ideas and opin­ions for bigger and better dances.
With this as the main part of my platform, I sincerely hope you will consider me for the office of First Rep.
—Robert Allen Profet Esquire

Second Rep
There are many reasons why 1, Fritz Trapnell, should win your vote for Second Re­pre­sentative. First of all, let’s con­sider the duties of the Second Rep. He is primarily elected to re­present the lower classes here at Tech. And the Board of Di­rectors and Student-Faculty Rela­tions Committee want a man who can take care of the affairs of the students. I am the man who can do this. First of all, let’s con­sider the duties of the Second Rep. He is primarily elected to re­present the lower classes here at Tech. VOTE FOR ME . . .

(Continued from Page 7)

tions Committee. Therefore, he at this time, if you will, you will want to represent you for an entire year and we're hoping you'll place faith in me. He also has the duties of managing the school, preparing the weekly calendar, and handling the pur- chases for those who order ASCIT. Hence, you want a man who is a good representative, a team leader, and a worker.

For the first term I was Vice-President of Caltech. One of my primary duties in this capacity is to run the pre-press department. I ask you to remember how smoothly and successfully that work out for all of us.

I want this job. I think that I can honestly say that the thought of being a team leader is very important to me. The thought of being able to express my appreciation through hard work and effort is something I can do. I sincerely like to if two men ran as co-candidates. I think we could produce the best Tech ever.

IN

I am for the Second Representative. I am interested. Along with the desire to support my Rally Commissioner, I also feel that I am qualified for the job. I have been engaged in the performance and presentation of almost every type of music program. Also, as a professional musician, I have learned to know what people want, like, and expect. Although the Caltech student body is of varied tastes and dislikes, I feel that I could "psych out" your wants.

In high school, I held the office of Big T Business President. The functions of this office were: to represent the Rally Commissioner—the selection of future assemblies, the planning of the introduction of guest speakers, and programs. I feel that I am likely to arouse the interest of the students for the programs. If elected, I will strive to do this, all the while being alert to the desires of the Caltech student body.

Ted Johnson

The excitement of playing a paper that will cater to everyone's part, especially ours. I want to produce a first-class paper with one's part, especially ours. I am a candidate for the office of Rally Commissioner. I want to produce a first-class paper with one's part, especially ours.

Ron Barnes

We are running for the office of designated Second Representative of ASCIT. Hence, you want a man who is a good representative, a team leader, and a worker.

AN OPPORTUNITY FOR GRADUATE ENGINEERS WITH GOODWILL

Representatives of the Goodyear Tire & Rubber Company and the Goodyear Atomic Energy Corporation will be on your campus to interview seniors with B.S. and advanced degrees in the following fields of technical study:

- CHEMICAL ENGINEERING
- INDUSTRIAL ENGINEERING
- MECHANICAL ENGINEERING
- CIVIL ENGINEERING
- ELECTRICAL ENGINEERING
- CHEMISTRY

Opportunities for graduates with the above degrees now exist in the following fields:

- PLANT ENGINEERING
- RESEARCH
- PRODUCTION DEVELOPMENT
- MACHINE DESIGN
- PROCESS DEVELOPMENT
- FACTORY MANAGEMENT
- TECHNICAL SALES

Contact your student placement office NOW for your interview with the Goodyear representative on February 25
