Speech team wins top honors

Alumni to visit Tech campus for Seminar Day Saturday

The eighteenth annual Caltech Alumni Seminar Day will be held on campus this Saturday, April 16. The program will include lectures by various members of the faculty during the day, a water show at the pool in the afternoon, and a dinner with a talk by Dr. Robert M. Hutchings, President of the Board for the Republic, Inc.

Starting off the program of lectures in the morning at 9:30 is "Chemical Hay for Mechanical Horses," by Peter Kyropoulos, associate professor of mechanical engineering, and "French Distract of Uncle Sam," by Dr. Dan Piper, assistant professor of English. At 10:30, the visitors will have their choice of two more lectures: "The Size of the Universe — Today," by Dr. William A. Baum, staff member, Mount Wilson and Palomar Observatories, and "Aromas of the Past," by Dr. A. J. Haagen-Smit, professor of bioorganic chemistry. At 11:30, two more lectures will be given; "Conquering the Microwaves," by Dr. Lester M. Field, professor of electrical engineering and "Vegetation — Green Guardian of Erosion," by Dr. Henry Hellman. (Continued on Page 4)

Board makes appointment

Dav Allen and Dick Lewis were appointed conditionals of the 1955 edition of the Little T at the ASCIT Board of Directors meeting held last Monday night. At the same meeting, the Board appointed Arne Kallin, student chairman of the 1955 Students’ Day program.

Editors of the Little T work over the summer so that copies of the Little T are available at fresh registration early in the fall quarter.

Students to bid $150 farewell

President L. A. DuBridge announced that audition for under-graduate and graduate students at Caltech has been raised from $100 to $150 annually. The increase, voted last week by the Caltech Board of Trustees, will become effective in September. It was dictated, Dr. DuBridge said, by the need for additional funds to meet rising costs, and particularly to sustain improvements in the faculty salary scale.

Scholarship funds have also been increased, Dr. DuBridge announced, so that students with quality for scholarship aid may receive larger grants than before.

The cost of attending Caltech remains relatively low. Practically every other major private institution in the West is now charging between $750 and $1000.

The crucial passages are: "an act to add section 13 to the title 10, military, professional and Code, relating to persons license..." and answer under oath a question presented by any member or counsel... (Continued on Page 6)

Frosh workers headed by Kirk

技术peech

speech team squared off against a team of top-notch opponents from the States at the Pi Kappa Delta national tournament held at the University of Virginia.

Technoch teachers awarded superior awards in three of the four events held: debate, extemporaneous speaking, and discussion. Tech was awarded 21 points, nearly twice as high as the next highest, and may well take the prize of the competition.

The teams of Mike Bleicher and Bob Kunde, representing Caltech, were co-finalists with Cordes and Andy Perga, shared honors in debate. Each team participated in four rounds. Cordes and Perga lost one round, while Bleicher and Moulton were undefeated, thereby winning for Tech one of the five superior awards given by the tournament judges.

Ray Orbach was awarded a superior rating in extemp after four rounds of speaking against NATO and related topics. In the extemp contests, contestants were given 10 minutes to prepare, and asked questions by the judges at the conclusion of their talks.

In panel discussion Bill Lindley received the highest ranking given, thereby taking the third superior award for Tech. The topic of the four round progressive-style discussion groups was: "Can a national educational system best be defined in terms of the needs of our society?" Earlier this year Lindley took second place in discussion at the Western States tournament held at Tucson.

In the oratory, or prepared speech contest, John Young was ranked in the top fifty percent of those participating, and received a rating of good. Each contestant in oratory spoke four times. Young’s speech was entitled, "All about Eve,' featured with "All about Eve," starring Bette Davis, is the opening attraction on the YMCA film series which starts next Sunday at 8:15 p.m. in Culbertson. Admission is 35 cents per person at the door.

Featured with "All about Eve" are a cartoon documentary, Walt Disney’s "History of Aviation," and "Total-Toot-Totzl, a UP cartoon.

Winners of six Academy Awards including the Oscar for the best production of 1950-51, "All about Eve" deals with the case of a young actress to stardom. The film stars Bette Davis, Celeste Holm and George Sanders, who was named best supporting actor of the year for his performance. Darryl Zanuck produced and Joseph L. (Barefoot Contessa) Mankiewicz directed.

Other films on the series this term are "Tight Little Island," on May 1 and "Viva Zapata," on May 15. "Tight Little Island" is the 1959 British comedy about a whiskey shortage on a Scottish island. "Viva Zapata" features Marlon Brando as a Mexican revolutionary hero. In one of his first starring roles.

by Russ Hensley

Six days ago Dr. Thomas Perry, a practicing Los Angeles pediatrician who lost many of his professional contacts as a result of a session with the Burns Committee, tore into the Burns-Chapel Bill which is before this session of the California Legislature.

Dr. Perry was a Harvard under-graduate, then went to Oxford as a Rhodes Scholar and finally took his MD at Harvard. Since then, his entire practice has been in the L.A. area where he has been on the staff of the Children’s Hospital and on the faculty at USC. When the Burns Committee was in Los Angeles in September to probe into alleged communities in medicine, they called Dr. Perry to the stand where he refused to answer the committee’s questions. As a result, he was chopped from the BC faculty and lost his position on the staff of the hospital.

A speech sponsored by the Caltech branch of the Federation of American Scientists at an alumni luncheon, Perry set to shredding this partial amendment of the Federal Constitution. Although not a Federal action it, amounts to partial repeal of the Fifth Amendment, and a selective sifting of civil rights.

The crucial passages are: “An act to add section 13 to the title 10, military, professional and Code, relating to persons license...” (Continued on Page 6)

Dr. Perry lambasts Burns-Chapel Bill; broad implications for future engineers

Phlegm's house cleaning

Not even the Mad Hatter could have recognized Fleming House after Senior Ditch Day. Felphel Ferrel was greeted by a mound of dirt topped by a tombstone engraved with "In Ferrel's Field the poppies grow." When M. Bourdouh returned, he saw his room "through the looking glass." SIDEWIDE! The furniture was wired to one wall, and even the door was hinged at the top. To George McDoon, who left with his room in the usual condition, the crooking insult. He left behind the disarray that they made his bed and hung up his clothes.

A tape recording expressing "Frosh-Derapart" of Seniors in general felt overwhelming hands, and by a strange coincidence, all Frosh concerned discovered covered drain-pipes in their rooms.

Ricketts wins debate trophy; decide Caltech system best
by John Velman

Is there too much emphasis on GPA at Tech? Does the average Tech student spend too much time thinking about what he is getting in a course, rather than how much he is learning? These were some of the points contested last Thursday night when Ricketts met Blacker in a challenge debate for the Lincoln Debate Trophy.

Blacker defended the trophy by debating the affirmative of the question, "Resolved: The grading system at Caltech should be revised." Ricketts refuted the points of the affirmative well enough to win the trophy, but failed to convince all three of the judges. The judges voted two to one in favor of Ricketts.

The Blacker debaters suggested that the present system in place is fair; that there is too much pressure on the student to get good grades, and as a consequence he worries about his grades rather than the pursuit of knowledge. It was argued by the affirmative that when a Tech student is taking a difficult course, he develops a system for getting a good grade without really understanding the subject. As a solution to this problem they proposed the Reed College system of grading. At Reed, the student never knows he is in a course or his exact GPA until after he graduates. A faculty adviser works in close contact with each student and tries to help him solve his personal academic problems. If a student feels he is doing well, he is told to go to his adviser for help, but isn't under the compulsion to get a good GPA that he would find at Tech.

The Ricketts team contended that the pressure on the student at Tech and the present system is good, that he will be under pressure to produce results and that the pressure he encounters at Tech to produce good grades is excellent training for future jobs. They maintained that regardless of the system of grading, if the student wants to be able to obtain Tech with an understanding of business, or any other trade, he must therefore take care not to raise his expectations too high. Don't feel compelled to be a top student, they said. "A student who is life is described glowingly with the erudite statement, "1770-1827." Although the series makes no pretense at being comprehensible, it does provide a marvelous introduction to the subject.

It is rather obvious that these lectures may simply be the prelude to the establishment of a musical course in the Humanities Division. In the past, arguments have been raised against such a course on the ground that the diversity of knowledge about music was too great and that teaching it would be impossible. Both of these arguments were brutally squelched last Thursday. However, the enthusiasm shown for the Reed system by the subject matter taught at the two schools than from the grading systems. They also pointed out that a closer student-teacher relationship was a definite plus in the Reed College system.

In the opinion of the debaters, this debate was won by the negative, the subject itself probably won't be closed for a long time. If you haven't made up your mind yet, you had better make up your mind right now because it is time to hear the opinions expressed in many discussions on campus among students and faculty.

New directors elected for Y

The YMCA Board of Directors for this year were elected at a meeting held at 7:00 p.m. Thursday, April 7 in the new Y Lounge in T-1. The eight directors were chosen from the faculty, business, and service organizations.

Selected from the faculty were Dr. James Davies, Dr. George Mayhew, and Dr. Peter Kyropoulos. Bob Costes, who was selected by the Pasadena Chamber of Commerce as Young Man of the Year, 1952; and Charles Robinson, a Caltech alumna are the representatives of business on the board.

Members of service organizations elected to the board were Walt Ratli, Y secretary at PCC; Alden Martin, Chairman of the First Congregational Church; and Paul Johnson, a Caltech alumna who is a Professor of Mathematics at Occidental College.

IAS will tour wind tunnels at next meeting

Anyone interested in aeronautics is invited to the meeting of the Institute of Aeronautical Sciences. The meeting will be held on Tuesday, April 18, at 7:15 p.m. The attraction is a tour of the wind tunnel facilities of the Guggenheim Aeronautical Laboratory (GALT), with an introduction to the subject. Anyone interested in aeronautics is invited to the meeting of the Institute of Aeronautical Sciences. The meeting will be held on Tuesday, April 18, at 7:15 p.m. The attraction is a tour of the wind tunnel facilities of the Guggenheim Aeronautical Laboratory (GALT), with an introduction to the subject.

Members of the GALT staff will be on hand to describe the equipment and to answer questions.

The purpose of the IAS is to provide programs in the field of aeronautics and to provide people interested in aeronautics with an opportunity of meeting fellow students, members of the industry, and representatives of the aircraft industry.

This tour of GALT is being arranged to give people a chance to get acquainted with IAS. Since officers for the coming year are to be elected in the near future, new members are particularly welcome at the tour.

Why do more college men and women smoke VICEROY'S than any other filter cigarette?

BECAUSE ONLY VICEROY GIVES YOU A PURE, NON-MINERAL, NON-TOXIC FILTER WITH 20,000 FILTER TRAPS IN EVERY FILTER TIP!

1. Yes, only Viceroys has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.

2. Besides being non-mineral and non-toxic, this cellulose-acetate filter never shreds or crumbles.

3. The Viceroys filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroys pioneered research more than 20 years ago to create the pure and perfect filter.

4. Smokers en masse report that filtered Viceroys have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.

5. Viceroys draws so easily that you wouldn't know, without looking, that it even had a filter tip... and Viceroys cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette... that's why VICEROY is the largest-selling filter cigarette in the world.
Ray Weymann’s tremendous performance on the mound struck a bright note in the Beavers’ otherwise uninspired team effort, as the Caltech nine dropped its second conference game 5-4 to the Whittier Poets. Herald by Coach Freisler at Weymann’s best hurling job of the year, the tall southpaw allowed four hits and three bases on balls as he gave up only one earned run.

Good as Weymann was, he was matched pitch for pitch by Drayne Cole, right strong arm of the Poets. Cole shot the Beavers out with two hits, striking out 12 in the process. Weymann himselfed the third strike past six of the Poets.

Mike Duke, calling Beaver catcher, was sorely missed the first two innings as second sinner George Yankus committed four passed balls to let in two runs. This put the Poets in the lead to stay. Yankus overcame his early jitters to turn in a creditable performance for the rest of the seven innings behind the plate and showed well with the hat, gaining first base two out of three trips to the dish.

Few errors could be held against the Poets, one not being caused by Al Goldberg, Gene Nelson, Al Goldberg, Gene Nelson, Bill Moeur, and Ed Nelson, or by the fact that he is still recovering from an appendectomy. Besides the four passed balls, the Beavers committed six errors in the field to contribute to the Poets tally. On one play, a flyball to the shortstop, the Whittier player circled the bases to score standing up.

The loss marked the biggest surprise of the game as he turned in two almost perfect innings from the mound, giving up just one base on balls while striking out two batters.

Score by innings: R H E
Cal Poets 5 10 0 0 0 7 8 2
Caltech 0 0 1 4 9 4

This Saturday, the horseriders travel to Redlands for their fourth league game. This game is a must for the Beavers if they hope to remain in the race for the conference title and Redlands will be no pushover.

One of the strongest teams Tech will face this year, Redlands has lost only one league game with 6 to 5 to Oxy, having first blasted Pomona 13 to 3.

Poly tips Tech

In a free scoring, six inning ball game, Caltech’s varsity batters lost a 7-4 decision to Cal Poly of San Dimas. A combination of four hits and three errors gave Cal Poly five runs in the first inning and Tech could never overcome the lead. Although outshifting the visitors nine to eight, the Beavers did not bunch them except in the second inning when consecutive singles by Al Goldberg, Gene Nelson, Bill Moeur, and Ed Nelson scored two runs. In a typical Caltech finish, the Beavers loaded the bases in the last inning and were sorely disappointed when Hal Morris’ long drive was pulled down by the Poly right fielder.

Hunt Holladay started on the mound for the homebreds, giving up six runs before retiring in favor of Ray Weymann in the second inning. Weymann gave up one run in the next two innings. Al Goldberg supplied the biggest surprise of the game as he turned in two almost perfect innings from the mound, giving up just one base on balls while striking out two batters.

Dave Wilson, fresh coach, looking over his charges.

Ivy league graduate mentors frosh nine

by Howard Bloomberg

A new face in the Caltech coaching ranks is Dave Wilson, coach of the frosh baseball team. Dave is in his second year of grueling service at Tech and is majoring in the unique option of geological engineering; of course he’s out at TT every afternoon handling the frosh reins.

During the first two weeks of the season he coached the varsity while Freisler was busy with basketball. The froshmen, unsuccessful thus far this year, are an inexperienced team with the added handicap that not one member of the squad had done any pitching previous to this year. Dave added that he has tried about five boys for mound duty and hopes that soon he can develop a consistent pitcher to bolster an otherwise strong middle.

Although it certainly will be a difficult task for him to mold the froshmen into a strong ball club, Wilson can meet the challenge with a back knowledge of four years. After starring as an all around high school athlete, he went to war in the Pacific at the age of seventeen.

He attended Princeton upon his release from the occupation forces in Japan, and there he

Dave Wilson, Coach Lamb’s tennis squad was anything but meek last Saturday as it trounced Pepperdine on the tennis courts 8-1. The Beavers now sport an enviable eight win two loss record for the year.

The coach, not yet 27, has been married for five years to Margaret (Tatsie) Conner and has two daughters, Katherine and Reenie, who are daily visitors at TT.

Dave appreciates the opportunity to coach at Tech while studying here and you can be sure no one is working harder to get a winning frosh baseball squad on the field.

Racket squad blasts Waves

Coach Lamb’s tennis squad was anything but meek last Saturday as it trounced Pepperdine on the tennis courts 8-1. The Beavers now sport an enviable eight win two loss record for the year.

Four of the nine contests were the full set. Three techs. only losses was in a three set duel between first man Al Yano and Reeve of Pepperdine. Reeve was victorious 6-4, 6-8.

Toughest match of the day was between Techs. Dave Yount and the Waves’ Ran. Yount lost a close third set. The score was 6-4, 6-0.

Next Saturday the Beavers will be entertained by the league opponents from Pomona. The Techmen are now tied with Oxy for third place in the conference. Caltech Pharmacy

Fleming tops Throop 13-0

Fleming scored two touchdowns in the second half to take a 13-0 win over Throop in the opening game of the intercage touch football season. Monday.

Glenn Converse set up the first touchdown with a brilliant 60-yard return of the second half kickoff. He was finally caught on the five yard line and Bill Chambers passed to Horace Futomo in the flat for the score.

Later in the half Chambers pitched out to Chuck Malone who threw a 30-yard pass to Jim Welsh in the end zone. Chambers swept around left end for the extra point.

Chuck Malone and Mike Staley were outstanding for Throop. The off-campus men drove in on singles by Al Yano and Horace Futomo in the first and second to score a run. Throop made a chance for a winning team by having a Discoball volleyball match tomorrow.

Fleming tops Throop 13-0

Dave Wilson, fresh coach, looking over his charges.

Naturally... because it's Budweiser

Serving beer to your guests is simple hospitality. Serving them Budweiser is a gracious compliment... because it’s Budweiser... and that's the difference.
Phil Conley again broke his school javelin record as the Beaver varsity scored a convincing 83-1, 7-1/2 track victory over visiting March Field last Friday. Tech's depth was too much for the Beavers, who took first place, and nineteen Beavers scored points.

Conley threw the spear 219 ft. 3 in., to better his old mark of 216 ft. 2 in., by more than two feet. The long heave came on Conley's last throw of the day, and enabled him to continue his steady improvement.

Willemann sprints
Roger Willemann ran the sprints for the first time this season, running in the 100 yard dash and the 220 yard dash this week, good for second in the 100 yard dash and first in the 220 yard dash, respectively. John Lofthus, switching events with Willemann, took second in the 110 yard hurdles and third in the 220 low hurdles.

Field copped the mile in 3:34-12, the fastest time of the meet. The three places were supplied, Tangora, and Willemann teamed up to win the relay with a creditable 3:26-8 time.

Chuck Luke was second in the javelin, Bob Hammon put second in the 880. Phil Wade tied for second in the high jump. Sam Simms threw the discus for third, and Bob Norton rounded out the Beaver scoring with a third in the pole vault.

Redlands invades Tech Saturday morning for an important dual meet. Meet time is 1000 A.M.

Tyler jumps new high
Versatile Jim Tyler edged over 6 ft, 14 in. to win the high jump with his season's best effort. Tyler scored in five events as he took second in the broad jump and thirds in the 100, 220, and shot-put.

Fullerton sprints
Fullerton JC sprints churned the 100 yard butterfly in 1:03.0 by two full seconds. Johnson in the backstroke, Ross Brown in the breaststroke, and Bill Below in the individual medley.

Fullerton swamps Tech swimmers
Last Thursday at the Alumni Pool the powerful Hornets of Fullerton JC scored, or better yet, drowned the Tech squad. Jack Webb of Fullerton set a National JC record when he churned the 100 yard butterfly in 1:02.0, lowering the old standard of 1:03.0 by two full seconds.

Fullerton took every first place in a packaging of their 74-10 victory. Tech's only scores were by George Madson in diving, Dick Johnson in the backstroke, Ross Brown in the breaststroke, and Bill Below in the individual medley.

The Beaver Frosh did little better in losing 55-20. Bob Smoak captured the only first place for Tech in coping the backstroke. Second places were taken by Vince Taylor in the 220, Wayne Smith in the 50, and Ron Leonard in the 440.

Varisty and Frosh teams both traveled to Occidental this week for their first conference meet.

Golfers bow to LA State
The golfers played host to L. A. State at Brookside Park last Friday, but were turned back by a score of 231-2. The Beavers put forth a valiant effort, but were no match for the strong State team.

Paul Parley was the only winner for Tech, taking six points. The only other Beavers to score were John Bush and Jon Robison, each taking one point.

The absence of Paul Linford hurt the team considerably again this week. He hasn't been seen since last week, when one of his tee shots disappeared in a jungle growth.

We hope he finds the ball by tomorrow when the rest of the golf team is scheduled to play Occidental at Brookside Park.

The Beaver Frosh did little better in losing the match, 261-189. Bob Smoak set a new high by a score of 231 ft. in one heave.

Fullerton swamps Tech swimmers

Fullerton JC sprints churned the 100 yard butterfly in 1:03.0 by two full seconds. Johnson in the backstroke, Ross Brown in the breaststroke, and Bill Below in the individual medley.

Gay weekend seen for houses

The student house's social programs for this weekend include two dance activities, two bowling parties, a party-night, and an exchange.

Fleming and Throop are joining forces to put on a South Seas Dance Saturday night. Johnny Bright's Hawaiian Band will sing as well as play for dancing. The couples will be dressed in South Seas costumes.

Blacker has chosen a Haunted House theme for its dance on Saturday night. Harvey Engelson will tell ghost stories to highlight the evening. Music will be provided by a small combo.

Dabney will have one of its well-known party-night parties Saturday night. The theme is "Haven or Hall," but there is secrecy as to just how the theme will be carried out. "Sophisticated Swing" will be the theme of Dabney's Friday night exchange with Oxy.

The men of Ricketts will try their exchange with Oxy at Dabney house on Friday night.

Are you meticulous about your choice of cigarettes? Do you want exactly the right taste? Then take a hint from the Doodle above, titled: Ash tray belonging to very tidy Lucky smoker. Luckies taste neat—and for excellent reasons. First of all, Lucky Strike means fine tobacco. Then, that tobacco is toasted to taste better. "It's Toasted" is the famous Lucky Strike process that tones up Luckies' light, good-tasting tobacco to make it taste even better...cleaner, fresher, smoother.

So enjoy yourself thoroughly whenever it's light-up time. Light up the better-tasting cigarette... Lucky Strike.

Lucky Drodles! All Brand New!

What's this? For solution see paragraph below.

Dr. Perry Lambasts (Continued from Page 1)

of the committee or subcommittee.

Any licensee who fails or refuses to answer under oath... such question shall be subject to disciplinary proceedings before the board or other agency within the jurisdiction by which his license was issued and such board or other agency shall revoke the license if it is shown that the licensee has failed or refused to answer any question as hereinbefore required.

Morticians and

Among the 150 professions covered by the Code are: physicians and surgeons, architects, civil engineers, chemical engineers, electrical engineers, engineers, petroleum engineers and engineers-in-training. Refusal to testify before any un-American Activities Committee state or federal, on any grounds, not just refusal to incriminate self but refusal to violate professional confidences or the common-law protected pact between husband and wife will result in mandatory license revocation.

Since the papers announced that the Burns bill was composed by the LA County Medical Association, Dr. Perry could only conclude that their action is a move to abridge liberties out of the professions where they carry the greatest weight for new ideas. He seems to see this as an element of the anti-low cost medicine fight with real implications for all professional people. He went on, saying that other people who support this action to circumvent the normal Constitutional amending process are out to distort the lawyers who sketch the efforts of the loyalty mongers by defending the unpopular guys on the wrong side of the loyalty trials. He came back to the County Medical Association, accusing them of crushing the elements in their own profession which might support a move to health insurance and medical co-operation.

Finally, he objected to the action brought by this bill on purely civil rights grounds. It would back at a part of the people, a clear violation of the principles of equality before the law. Even if applied to all, it is still wrong since the Fifth Amendment was cast to redress the balance between the individual and the state in the scales of Justice.

It seems very likely that this bill will pass this Assembly unless a flow of spontaneous, informed letters goes to our Senators and Representatives a measure of our feelings.

Alumni to Visit

(Continued from Page 1)

ners, research fellow in biology.

The guests will have lunch in the student houses.

At 3:30, the final two lectures will be given: "Tropical Aquarium Fishes," by William H. Hillemann, who is a graduate teaching assistant in biology, and "Surprise! Alpha to Zero," by Dr. John R. Pellum, professor of physics.

At 5:30, everyone will gather around the Alumni Pool for the dedication. Kenneth F. Russell, President of the Alumni Association, will preside. Following the dedication, Tech Athletic Director Harold Z. Messelman will emcee a water ballet and dancing programs, which was arranged in cooperation with the Pasadena Athletic Club. The pool and gym will be open from 4:15 to 5:30 for those of the visitors who wish to take advantage of the facilities.

Dinner will be served at 6:30 at the Pasadena Elks Club. Following dinner, the main speaker of the evening will be Dr. Robert M. Hutchings, who will speak on "The Sources of National Strength." Dr. Hutchings is former Associate Director of the Ford Foundation, and now President of The Fund for the Public, Inc.

SPEECH TEAM

(Continued from Page 1)

been received by Tech at this tourney. The 21, of a possible 23 maximum points, received by Tech, mark the all-time best tournament record of any Caltech speech team.

The key figure in the outstanding performance of Tech teams this year is Dr. Lester L. McCreery, who is making this his final year at Tech. Next year he will be teaching in Bend, Oregon.

Pi Kappa Delta, the national honorary forensic fraternity, represents 33 states, 171 schools, and 28,000 members throughout the nation. More than 90 percent of the member chapters were represented at Redlands. Bill Lindley is president of the Caltech chapter, California Gamma.

Caltech will be represented at one more contest this year: the annual Occidental Tournament of Peers on April 23.
