Caltech Glee Club to present annual concert this Saturday

The Caltech Glee Club will round out its concert schedule in the next week, to make a total of seven appearances this term. This represents the culmination of much hard work on the part of the club's members.

One of the major events will be the Glee Club's 41st Anniversary Spring Concert this Saturday night at 8:00 in California Memorial Union. This concert, for which admission is free, is designed for the enjoyment of the faculty and the alumni public. The program will include such numbers as "Zion Hears the Watchman Singing" by Buxton, "For a Late Sunday Night" by Schubert, and "Railroad Waltz" a modern work setting by Robert Schumann for four to six pianos in all numbers. The Glee Club Quartet, composed of Bob Moulton, Howard Berg, Harry Griffin, and Ted Johnson, will also appear on the program, singing "Dry Bones," "Honey Gal," and "Brother Can You Spare a Dime?"

Script is the site of a Glee Club presentation on Thursday evening at 7:30 when the club will sing an after dinner service. This will be followed by dinner and the discussion period beginning from behind the "Great Wall" at 8:30.

Although the Spring Concert will be its major presentation, the Glee Club will participate in the Southern California Intercollegiate Quartet and Glee Club Festival, which will be held this year at Oxy, on Saturday, May 14. This is the third competition the Glee Club has participated in within the past two decades. The Glee Club will sing a concerted program, in which the composition will represent the club's variety in style. The prelude composition will be sung by the club's quartet, the Glee Club's Got To Be Loved, composed by the club in the fall of 1954, and the curtain composition will be "I'll Remember April." The Glee Club has prepared a concerted program, in which the composition will represent the club's variety in style. The prelude composition will be sung by the club's quartet, the Glee Club's Got To Be Loved, composed by the club in the fall of 1954, and the curtain composition will be "I'll Remember April."

Drama club to conduct contest

Featuring a contest of speed and endurance, there will be a special preview of some of the drama club talent tonight in the Hickey Auditorium. Unanimously approved last week by the Dramatics Board, the contest will bring the club men and women to be engaged in a competition for the part of the narrator for the 1954 production of "The Man from offican" which has been prepared by the drama club for the reopening of the school in the fall. The narrator will present the broad picture of the play, using the characters in the play as devices.

The victorious candidate will immediately plunge into continuous rehearsals for his arduous part, rewarded by admission to that annual reaffirmation of faith in nature, the drama club cast party.

Tickets for the play, "The Man Among Animals," may be obtained from the bookstorer, at the door, or from these house representatives: David Cagle, Halgier in Flemming, Ray Orbach in Danby, Frits Henniger in Blacker, and Bill Gray in Ricketts. There are only two chances to see this Broadway production here, in Pasadena, so get your tickets now for Friday and Saturday, May 13 and 14.

Minerals topic of Friday talk

Professor Thomas N. McCullough will speak on "Dollars from Rocks in Southern California," the subject of his Bachelor's thesis. At 7:30, McCullough will lecture on the topic at the University Club.

AFROTC drill unit to compete in Oxy contest

The Caltech AFROTC drill unit, commanded by Captain E. T. Elliott, will try for its fourth straight win at the annual Occidental College drill contest this Saturday, May 7, at 2 o'clock. The Caltech drill team has defeated teams from USC, UCLA, San Diego State, Loyola, and Occidental College for three straight years to win permanent possession of a trophy which was put up by the Oxy Interfraternity Organization. Caltech has donated a new trophy.

The drill team has been holding hour-long practices all week, and they expect to have their routine well polished for the competition Saturday. In an earlier drill competition, Caltech will be represented by a belt uniform and a trio of three who make up the local AFROTC detachment. Our best bet is that we will stay in the lead for the second straight year.

The Glee Club will sing at 8:00 in 221 Bridge.

AFROTC drill unit meets again for training

The Electrical Engineering Option meeting for freshmen will be held Thursday, May 12, in the Physics Laboratory building, room 34. The meeting is open to all students who wish to do so.

Fourth meeting of the Electrical Engineering Option meeting will be held Thursday, May 12, in the Physics Laboratory building, room 34. The meeting is open to all students who wish to do so.

EE option meeting planned for frosh

The Electrical Engineering Option meeting for freshmen will be held Thursday, May 12, in the Physics Laboratory building, room 34. The meeting is open to all students who wish to do so.

AFROTC to hold jet flight program

The AFROTC is adopting a total manner of conducting the program of jet flight training for the sophomore class, in order to make a more effective use of the time available for the program. Captain Frank H. Gibbons, Jr., will be responsible for the program.

The climax of the week will be the Saturday night with the dinner and the dance at the Y-Pavilion on Friday evening, which will be followed by the Farewell Dinner. The Saturday night will be spent in the sparkling sunshine and warm winter at Huntington Beach. For dinner Saturday night Dick Morse has planned a sumptuous beach party meal including broiled fish, hams, salads, candied yams, and ice cream for dessert. The Y-Pavilion will provide a special house band for the evening. Afterwards, Jerry Fuller and his band will supply music for a dance in the Y-Pavilion.

Athenaeum Parking

Last fall a notice was circulated around the student houses, calling the students' attention to the fact that the parking lot at Hill Avenue and De Lave Street (except for a small section reserved for superclansmen) was for the use of Athenaeum members and their guests only. Undergraduates were told not to use this parking space at any time, and the notice expressed the hope that students would comply with this request, as they comply with the other rules and regulations of the Institute.

Students continued to park in this area during the daytime, and sometimes managed to get away with using the lot overnight, especially on weekends. In fact, many students were indignant, complaining that there was insufficient parking space around the Institute. However, the Athenaeum parking lot should by rights be as much theirs as anybody's.

The students certainly have right and reason to complain loudly and vigorously about the parking situation around the Institute, which is deplorable. However, they certainly have no right to use the Athenaeum parking lot, any more than they have a right to use the Athenaeum lounges for their card games, or the Athenaeum tennis courts for their tennis, or Dr. D. Bridge's private car for their Sunday drag races. The lot is simply not their property, nor is it intended for their use.

The Athenaeum is, formally, a private club, closely associated with the California Institute of Technology but not a part of it. Members of the Athenaeum are selected in the same way as members of any town or country club—they are recommended by, and approved by, other members who know and respect them. Not all members are associated directly with Caltech; some are with the Huntington Library, others with the Mount Wilson and Palomar Mountain Observatories.

Thus the Athenaeum members are not just Caltech students and faculty; they are the acknowledged leaders of the Southland academic community. They should at least enjoy the privilege of parking near the club, in the parking spaces which Caltech has set aside for them.

It is for these reasons that the Institute has recently cracked down on student violators of the parking regulations. It is time for cracking down when elderly men and women who have spent their lives in the service of Pasadena are forced to walk two or three blocks, because undergraduates feel that the walk to T.P. is too much of an effort.

It is time for students to comply with the parking situation. But it is not time for students to occupy spaces in the Athenaeum lot at the expense of the Athenaeum members. This illegal parking ought to be ended. It would at least be nice if it could be ended by voluntary action of the students.

Secretary's Report

Building a magnificent new gymnasium hardly aroused the sentiments of Caltech undergrads as much as adding the little white telephone booth recently placed on the northeast corner of the gym. "It destroys the beauty of the architectural lines," was the cry resounding in the California Tech, Ferragors, and student council halls. Lately, however, the Interhouse Committee and the Student-Faculty Relations Committee have come together in unison to discuss the matter. The conclusion: the booth must go.

While it is true that many unperturbed, unaristocratic souls weren't really bothered, a majority of the student body, and many faculty members, were indignant. The Interhouse Committee last week drafted a letter urging that the booth be moved to the corner of the tennis court area. The Interhouse Committee will hand out this week, and Building and Grounds has promised to comply.

Also in last week's board meeting, the perennial darkroom problem came up, as usual, with consultation with photographers. It looks much like the poorly furnished, shoddy ASCIT offices; in fact, it is pretty much the same. The brownies are lean, the chemicals are cheap, and sometimes the photographic results are poor. The Interhouse Committee was asked to do something about the ASCIT photo lab, but it did not. The lab is in use, and is not likely to be moved.

Nature's Best

This is Budweiser because it's nature's best ingredients—aged slowly, the natural way. Every golden drop tells you, "This is Budweiser...no other beer on Earth like it!"

Budweiser

Here is the beer brewed from nature's choicest ingredients...aged slowly, the natural way. Every golden drop tells you, "This is Budweiser...no other beer on Earth like it!"
College smokers agree...  

WINSTON brings flavor back to filter smoking!

WHAT DO YOU THINK?

TASTES GOOD!

- No wonder Winston's winning so many friends so fast! College smokers found flavor in a filter cigarette when they found WINSTON. It's got real tobacco flavor! Along with finer flavor, Winston also brings flavor back to filter smoking! The exclusive Winston filter works so effectively, yet doesn't "thin" the taste or flatten the flavor.

WINSTON offers jobs at pools, beaches

Summer employment in the pleasant gale of lifesaving at beach and pool, and pool managing has been advertised by Los Angeles City. Pay rates are $1.94 for pool managers, $1.74 for beach lifeguards, and $1.11 for pool lifeguards.

Minimum ages are pool lifeguard, 17; beach lifeguard, 16; pool manager, 21. Interested parties may obtain further information at Room 5, Los Angeles City Hall, or at branch city halls in West Los Angeles, Van Nuys, San Pedro and Venice. For the price of a phone call (Michigan 5211, ext. 2005) one can collect a bulletin by mail concerning requirements and duties, and an application blank.

Debaters receive speaking awards

Awards for members of this year's debate squad were approved by the ASUCP Board at the meeting Monday night. An award for his fourth year of debating was given to Bill Lindley. Third year awards were given to Myron Black and Ray Orbach. Mike Bleicher, Leon Keer, Don Meyer, Rube Moulton, and Herb Ramey were given second year awards, and first year awards were approved for Gene Cordes, Jerry Freeman, Mike Gray, Tom Gunkel, Mauris Kal­lerud, Dan Jovicic, Mike DuBois, and Andrew Perga. Certificates for limited participation were given to Eugene Barnes and John Young.

MECHANICAL DESIGN ENGINEERS
NEEDED FOR BERKELEY AND CIVEROSE LABORATORIES

UNIVERSITY OF CALIFORNIA RADIATION LABORATORY

Positions available for qualified mechanical engineers: The Radiation Laboratory at Berkeley and Livermore envisions over 100 openings in the following areas: design of a wide range of equipment for use in fundamental and applied science; design of equipment for transportation services; design of equipment for automation; design of equipment for nuclear particle accelerators; design of equipment for research on particle accelerators; design of equipment for solar power; design of equipment for materials research; design of equipment for medical research; design of equipment for space research; design of equipment for military research; design of equipment for industrial research; design of equipment for research reactors.

Applications will be considered in all areas of the field, including mechanical design, mechanical engineering, mechanical science, and mechanical technology. Positions are available at all levels of experience. Applicants should have a B.S. degree in mechanical engineering or a related field, and must be capable of performing work in these areas. Experience in mechanical design is desirable. Positions will be filled as soon as qualified applicants are found.

Inquiries should be addressed to Professional Personnel Office, University of California Radiation Laboratory, Berkeley, California.
Frosh menmen beaten by Oxy

The powerful Oxy frosh stroked their way to a win over Tech by the surprisingly slim margin of 12 points. A lack of depth cost the Techmen the meet as nearly all second's and third's went to Oxy.

As usual, Clarke Rees and Vince Taylor led the Tech troops. Rees picked up three victories and two records for his day's efforts. The versatile freshman from Inglewood easily capped the 440 as he smashed both the school and conference records for that event. Far ahead of the field he also splashed his way in first in the backstroke and individual medley. Taylor picked up a pair of blue ribbons in the 100 and 220 yd. events. Tech's final first place was taken by Don Whorgen as he outdistanced the field in the breast-stroke.

Linksmen beaten

Last Friday the golfers sustained their second loss to Pomona in conference play. The potent Sagehen team, favored to take the conference this year, had an easy time in downing the Beaver golfers 27-4.

Oxy tankmen take relay to edge Beaver swimmers

Oxy's potent swimming team edged out a narrow victory over the Beaver tankmen 46-38 last Friday. The meet was a real thriller with the final relay deciding the outcome. Oxy lowered their best previous relay time by over seven seconds to nudge out the fastest Tech relay in several years.

Oxy took the opening medley relay, but John Bush and Dick Johnson came back to finish one in the next event, the 230. Ed Park nosed out Jim Ball in the 50 for another Tech sweep.

Bill Below picked up a second in the individual medley and George Mahlen took third in diving. The meet was a real thriller with the final relay deciding the outcome. Oxy lowered their best previous relay time by over seven seconds to nudge out the fastest Tech relay in several years.

Oxy took the opening medley relay, but John Bush and Dick Johnson came back to finish one in the next event, the 230. Ed Park nosed out Jim Ball in the 50 for another Tech sweep.

Bill Below picked up a second in the individual medley and George Mahlen took third in diving. The meet was a real thriller with the final relay deciding the outcome. Oxy lowered their best previous relay time by over seven seconds to nudge out the fastest Tech relay in several years.

Tech third in track meet; Conley sets javelin mark

Pomona-Claremont named Tech by half a point to gain second place in the SCIAC championship meet last Tuesday afternoon at Oxy. The fight for second was very close, with Pomona getting 24, Tech 23 1/2, and Whittier 21. Redlands trailed with 10 1/2, and only 1 1/2 points below the mile relay, with Whittier upsetting both Tech and Pomona with a 3:25.3 time, after a hair-raising race. Pomona was right there with 3:25.5, and Tech was less than a stride back at 3:25.6.

Yes, oh, yes were the meet with 1:45 1/2 points. So what else is new? (Comforting thought: USC beat Oxy.)

Conley bags record

Phil Conley stole a first place away from Oxy, the only one the Tigers didn't get, as he set a new conference record meet with a toss of 213 ft. 11 in. Phil had done enough, though his still painful elbow, as Ernie Smith of Pomona threw 204 ft. to break their school record and take second place. Conley had another heave of 210 ft., but he fouled that one. Phil also competed in the broad jump, taking a surprise fifth with a leap of 21 ft. 1 1/4 in.

The girls' point was broken, all by Oxy men. Bob Gutowski scaled 14 ft. 3 in. in the pole vault for the meet's best mark, making him the nation's second best collegiate vaulter. Mike Lomen vaulted the shot 54 ft. 19 in., only Hettert topped the discus 165 1/2 in., in Dick Haldenkemper's 165 1/2 in. for the other field event records.

Ed Shinn barely held off Tiger freshman Pat to win a Gina tingling 800 duel in 1:53.4, knocking 6 7 second off the old standard. Oxy took 11 of the 15 events, including the broad jump, getting a new meet record of 21:63.

Tyler scores in jumps

Jim Tyler broadjumped 22 ft. 1 1/2 in. for third place. Tigers Phil Conley and John Wile both jumped 22 ft. 5 in. to tie for first, a rather unusual occurrence for that event. Tyler also came through with a tie for third in the high jump, getting over 6 ft. 4 in. with Jeffreis.

Roger Wileman took third in the 220, and John Lukesh was fifth in the 440. Lukesh had previously picked up fifth in the 100, a race marred by five false starts.

Jim Lloyd vaulted over 12 ft. for the best competitive mark of the meet, setting a new SCIAC record. Fred Witteborn chipped five seconds off his best time in the mile, running 10:19 and taking fifth. Tom Trillinger of the Monmouthes took Tech's only other medals, coming fifth in the 1500; Dan Horowitz, fifth in the discus; and the relay team finished third.

Oxy dominates frost track finals

Last Friday's windblown frost track finals at Whittier produced some fine marks. Oxy took 11 of the 15 first places with Redlands taking the other four.

There were five double winners, the most outstanding of which was Settman of Oxy who set a record in winning the 440 in 50.2 and came back to set another one in the 200 with a 21.4 clocking.

Schumacher of Redlands won the mile in 4:31.2 and the two mile in 10:17. Sharzer, also of Redlands won both the discus with a toss of over 131 ft. and the shot with a 45 1/4 ft. in put.

Hayley of Oxy produced another record in winning the 800 in 2:06.8, breaking the existing record by nearly four seconds. The Tigers had other double winners in Janleon who took both the javelin and the high jump and Bixhe who nabbed both hurdles.

Oxy also took the 100 with Alton in the mile vaulit with Couchman, and the broad jump with Jeffreis, and as well as romping in the relay.

Tech points were scored by Tom Moore, third in the two mile; Forrest Cleveland, third in the 100; Gerry Lawrence, fourth in the high jump; Bob Sandiers, fifth in the mile; Dan Horowitz, fifth in the discus; and the relay team finished third.

Score: Oxy 118; Redlands 45; Pomona 27; Whittier 19 1/2.

Cal Baptist drops frost horseshoes

Caltech frosh ballplayers dropped their third consecutive game since their only victory of the season as Cal Baptist squeezed by them in a tight 6-5 thriller. Tony Howell started on the mound for the Beavers but was relieved by Bill Kern in the fourth. Kern was the eventual loser.

The game was shortened to five innings to avoid conflict with the curfew but had to be lengthened an extra inning as Tech evened it up all the end of five. Behind 5-4 going into the final scheduled inning, the Techmen loaded the bases and Dick Van Kirk singled home the tying run. Two successful squeeze plays failed however, as the inning ended with no further scoring. The old nemesis of Tech baseball showed itself again in the final inning as two fielding errors let across an un­ earned run. Tech could not get a man on base in their half of the sixth and the ballgame was all over.

This week's schedule lists one game at home against Nuhaven A.C. and one away against L.A. Pacific College on Friday.

Tigers shutout Beaver club in mound duel

Dick Sovde, Occidental pitching ace, bested Ray Weymann Monday in a thrilling pitcher's duel as the Tigers won 10-4. After being rained out the previous Saturday, Occidental came to Tournament Park to hand the Beavers their fifth straight conference loss. Both Sovde and Weymann were superb as Tech batters were only able to garner two hits on Oxy's four. Sovde struck out sixteen Tech basemen while eleven Tigers were going down by the K route.

Occidental's one run was unearned as the Beavers capitalized on a fielding error by Tech third baseman Ed Nelson and a smashing line drive single by pinch hitter Mike Lomen to score in the seventh inning. Sovde had threatened once when left fielder Beaver smashed a sixth inning triple with two away. Weymann took care of the threat by forcing the cleanup hitter to pop up to George Madison. Beaver second baseman Jerry Peterson smashed a double off Weymann's head, but was easily picked off of first base.

Almost

Sovde had a hard time getting the sixth inning but Wey­ man best out an infield single to break the ice. Tech's other hit came with two away in the third inning as Gene Nelson smashed a single to right. Following Nelson to bat was Hal Morris, who drew his second base on balls of the game. With runners on first and second and two outs Jim Koonts became Occidental's sixteenth as he watched a third strike to end the game.

NO ONE EVER GOT "TEED OFF" AT AN ARROW POLO SHIRT
How could they? Arrow polos give unlimited comfort and style. What's more, these fine knitted polos keep their shape almost forever.

For casual wear, and for active sports, you'll find them cool and faultless styling... a pleasure to wear. In solids, stripes and quiet patterns, these luxurious polos are yours at a pauper's price.

Combine them with smartly tailored Arrow sailcloth handkerchiefs, which are yours for only 15c, or with them, you get the arrow with correct and Arrow, $3.95. Socks, $5.

Sovde's sixteenth victim as he watched a third strike to end the game.
Dr. Paul Epstein
(Continued from Page 1)
Zurich University to Leyden, where he was to work in con-
junction with Professor Lorentz, he met Dr. Millikan, who was
successful in persuading him to come to Caltech.

As a result of his myriad travels, Dr. Epstein speaks fluently
in German, English, Russian and French. A proof reader of one
of his works in English asked him once if he thought in Ger-
man. Epstein's reply: "No, I think in Russian, translate into
German and write in English."

Dr. Epstein, who has been honored several times, in addition to hav-
ing been made professor emeritus at Caltech, in the course of
his outstanding career. He is a fellow of the American Physical
Society, a member of the American
Association for the Advance-
ment of Science, of the National
Research Council, the National
Academy of Sciences and the So-
ciété Française de Physique, to
name just a few.

AAAS to hold meeting here

Caltech will be host to more than 1000 scientists when the
Pacific Division of the American
Association for the Advance-
ment of Science holds its 36th
annual meeting in Pasadena
June 20 to 25. Those attending
will represent 25 societies affili-
ated with the AAAS and will
comprise the largest scientific
gathering ever held in Pasadena,
according to Dr. Arthur Galston,
Caltech biologist who is general
chairman of the meeting.

Pauling to speak

Addresses will be given by Dr.
Dean Rusk, President of the
Rockefeller Foundation, and Dr.
Linus Pauling, Caltech's most re-
cent winner of the Nobel Prize.
Dr. George Beadle, chairman of
the Division of Biology, is the
national president of the AAAS.

In preparation for the meet-
ing, officers of the organization
have planned a variety of off-
campus activities and tours. On
campus, scientific, educational
and commercial exhibits will be
displayed in the geology and
biology buildings.

Lunch clubs list

week's speakers

Tuesday noon at the training
table, Rev. Curtis Beach will
speak on "The Nature of Liberal
Christianity" to the Undergrad-
uate Lunch Club. Rev. Beach is
the minister of Congregational
and Unitarian Neighborhood
Church in Pasadena.

In the Atheneum Wednesday,
"The One-Party Press in South-
ern California" will be the topic
of Sara Bynhoff in addressing
the Graduate-Faculty Lunch
Club.

Dr. Mayhew will give his "His-
tory of the Student Houses" at
the Frosh Lunch Club on Thurs-
day.

Caltech, an event which several
people in the oboe-flute duets,
we decided to review "Howard
Rumsey's All-Stars House All-
stars, Volume Four" on Contem-
porary label. This long-playing
disc contains eight selections, all
of them spotlighting Messrs.
Cooper and Shank on oboe (or
English horn) and flute (or alto
flute) respectively. Incidentally,
five of these numbers were writ-
ten by members of the Allstars
especially for the recording ses-
sion.

"Aquarium," composed by pi-
anist Claude Debussy, is per-
haps our favorite. It is a slow,
warm creation, and it features
a sweet and lilting solo by Shank.
"Warm Wind," a Bob Cooper
composition, is an atonal tone poem,
into the light of day. Not only is "Vol-
ume Four" a tribute to the talent
and versatility of Cooper and Shank,
but it is also a monu-
ment to the skill and good taste
of the other three Allstars: Rum-
say, Roach and Williamson.
The flute and oboe are, of course,
dedicated instruments, and they cre-
ate a mood all their own. It
would have been easy to break
this mood, but fortunately, no
where in the album does such a
thing occur. Whether you are
looking for a record to begin
your modern sounds collection,
or if you're just in the market
for a new record, I cannot rec-

tend this epic work too high-
ly—it's a record you're sure to
treasure.

Jazz notes from all over:

Los Angeles division

 Conte Candoli, who spent a
couple of months at the Light-
house, began his third week at
Zardi's on Hollywood Boulevard

tight. Elsewhere, Stan Ken-
ton's band has stepped into the
 Crescendo on Sunset, replacing
June Christy at Norman's Nityre.
Incidentally, Ann Richards, Ken-
ton's new thrush, is another car-
bon copy Christy.

by Frank Kofsky

Owing to the rather warm re-
ception accorded the Caltech
Allstars, their concert visit
last Thursday, and especially be-
cause of the interest of several
people in the oboe-flute duets,
we decided to review "Howard
Rumsey's House Allstars, Volume Four" on Contem-
porary label. This long-playing
disc contains eight selections, all
of them spotlighting Messrs.
Cooper and Shank on oboe (or
English horn) and flute (or alto
flute) respectively. Incidentally,
five of these numbers were writ-
ten by members of the Allstars
especially for the recording ses-
sion.

"Aquarium," composed by pi-
anist Claude Debussy, is per-
haps our favorite. It is a slow,
warm creation, and it features
a sweet and lilting solo by Shank.
"Warm Wind," a Bob Cooper
composition, is an atonal tone poem,
into the light of day. Not only is "Vol-
ume Four" a tribute to the talent
and versatility of Cooper and Shank,
but it is also a monu-
ment to the skill and good taste
of the other three Allstars: Rum-
say, Roach and Williamson.
The flute and oboe are, of course,
dedicated instruments, and they cre-
ate a mood all their own. It
would have been easy to break
this mood, but fortunately, no
where in the album does such a
thing occur. Whether you are
looking for a record to begin
your modern sounds collection,
or if you're just in the market
for a new record, I cannot rec-

tend this epic work too high-
ly—it's a record you're sure to
treasure.

Jazz notes from all over:

Los Angeles division

 Conte Candoli, who spent a
couple of months at the Light-
house, began his third week at
Zardi's on Hollywood Boulevard

tight. Elsewhere, Stan Ken-
ton's band has stepped into the
 Crescendo on Sunset, replacing
June Christy at Norman's Nityre.
Incidentally, Ann Richards, Ken-
ton's new thrush, is another car-
bon copy Christy.

by Frank Kofsky

Owing to the rather warm re-
ception accorded the Caltech
Allstars, their concert visit
last Thursday, and especially be-
cause of the interest of several
people in the oboe-flute duets,
we decided to review "Howard
Rumsey's House Allstars, Volume Four" on Contem-
porary label. This long-playing
disc contains eight selections, all
of them spotlighting Messrs.
Cooper and Shank on oboe (or
English horn) and flute (or alto
flute) respectively. Incidentally,
five of these numbers were writ-
ten by members of the Allstars
especially for the recording ses-
sion.
