Band Plays Concert with Beckman

The Caltech Band presents its annual concert this Sunday at 8 p.m. in Beckman. The 55-piece band is directed by John Delichman, Disneyland Night Tal- ent Manager and L.A. School Di- rector of Instrumental Music. The concert includes Mann Dragon, academy award-winning orchestra, and a host conduc- tor. Dragon will begin the second half of the concert directing Frecklehead’s “Pochette” and his own arrangements of “America the Beautiful” and “Blow the Man Down.”

Tubby the Tuba

Also featured are two local guest soloists. John T. Johnson, tuba player with the LA Philhar- monic and known as an expert on the tuba, will star in “Tubby the Tuba.” Kleininger, an instru- mentalist, is a soloist with the LA City Band and a television musician, will per- form Weber’s “Concertino.” Other numbers on the program are: “Spring Song” in F Major, by K. Tchachickovsky, “Pictures at an Exhibition Nos 8 and 9” by Mosso- rovsky, and Bach’s “Jesu.”

During the concert Delichman will present the Hunter Medal Memorial Trophy. The trophy will be given to a number of the band —selected by a student commit- tee—who has displayed out- standing musical ability and per- formance. This is the first year of the award. It will be presented to the late Caltech professor of philosophy.

General admission is $1.00 for adults, 75 cents for children, and $2.00 for season ticket holders. ASCIT members get in free. Tickets may be obtained at the Beckman Ticket Office.

Dr. Richard P. Feynman, PhD, RCTFP, DSSB, and now FRS, displays proper mise upon gaining membership in the Royal Society of London.

BY STUART TAYLOR

Dr. Richard P. Feynman has joined the most “is” crowd of the scientific community with his election as a fellow of the Royal Society of London. The election, made official Monday, April 26, came with a citation recognizing him as “distinguished for his con- contribution to quantum field theory and the theory of liquid helium.”

This award is especially dis- tinguished since at most only four foreign members are elected to the Royal Society per year. The honor was another achievement of a brilliantly successful career which also netted him the Albert Einstein award in 1964, the high- est award of its kind in the na- tion. Feynman, has been at Cal- tech since 1945 and is associated with the National Academy of Sciences since 1943.

Despite this triumphant an- nouncement, Feynman was right on schedule with his famous lec- ture on “Color Vision” Monday night, and, after a repeat perfor- mance of Monday’s lecture, he was invited to visit him here on Thursday.

Bridge Overfilled

So Thursday morning Wagner, together with Dr. Robert F. Chris- ty, scheduled a talk for Dirac that afternoon, not knowing whether or not he would give it, and sent out notices to be posted on de- partmental bulletin boards. After arriving on campus and confer- ring with Feynman, Gell-Mann, and their theoretical cohorts, Dirac had lunch in the Athenas- ium and agreed to give the lec- ture.

The limited size of the lecture hall was unfortunate, but it was difficult to arrange the event in Beckman on such short notice, aside from the possible inappro- priateness of Beckman for the in- formality of the occasion. As a result about 200 people had to be turned away from Bridge.

“Tubby the Tuba” was also featured, and presented by two local guest soloists. John T. Johnson, a tuba player with the LA Philharmonic, and Albert Kleininger, a soloist with the LA City Band and a television musician, were presented to perform the concert.

During the concert Delichman presented the Hunter Medal Memorial Trophy. The trophy was given to a number of the band —selected by a student commit- tee—who had displayed outstanding musical ability and performance. This is the first year of the award. It will be presented to the late Caltech professor of philosophy.

Dr. Robert G. Snow, who has been at Caltech since 1945 and is the professor of philosophy, was selected. Feynman, the famous professor of quantum mechanics, was asked to select the professor of philosophy. Feynman selected his colleague, Dr. William G. Snow. Snow made a surprise visit to Feynman’s office and agreed to give the lecture the following week.

The concert featured Carmen Dragon, who was the featured soloist with the LA City Band and a television musician. He performed Weber’s “Concertino.” Other numbers on the program were: “Spring Song” in F Major, by K. Tchachickovsky, “Pictures at an Exhibition Nos 8 and 9” by Mosso- rovsky, and Bach’s “Jesu.”

Ditch Day

Ditch Day is an old custom here; the April 22, 1926 California Tech is a "Senior Class Ditch Day Issue." But things were quite different then. Ditch Day meant a day off for the seniors when they all went to the beach. They took no special precautions to safeguard their rooms, and nothing was done to them.

With the disappearance of fraternities and the rising status of frosh, Ditch Day evolved into a contest between these classes—a good-humored, intellectual contest. The spirit of the older class is symbolized by the seniors locking mechanisms, traps, and random devices designed to prevent entry into the room. Then the frosh (and anyone else interested) tried equally ingenious methods to disarm the locking mechanisms. The essence is the fact that the frosh could not get in by brain power, they admitted defeat and gave up.

The idea of doing something to the rooms appears to have been added later to provide more inducement and enjoyment for the frosh. This also is supposed to be something clever. And so the amazing things have flown out of the fertile frosh mind.

But lately the idea of an intellectual contest has faded and the emphasis is on what’s done to the rooms after they have been broken into. This is the method of entrance unimportant and is the main cause of the use of brute-force methods after ingenuity fails.

The agreement reached this week is an attempt to return to the idea of a Ditch Day and hold an interesting, enjoyable, gay, and not taken too seriously. This is sensible and the Administration is reasonable in asking the Houses to assume collective responsibility for the continuance of Ditch Day.

I am Dr. Hutton’s method.

Calling a special meeting of all House presidents and vice-presidents, he ordered the end of Ditch Day, and then spent the next two days retrying to which the Faculty Committee would call a special discussion meeting relating the information contained in this editorial and a warning about the consequences of continued damage have been enough to produce the same results? This seems to be either an underhanded move or no direct insult to their intelligence. None is excusable.

Greenfield, Hendrickson, Berry

Letters

Vietnam Petition

Editorials

Last week a small group of Tech graduate students drew up a petition concerning the United States foreign policy in Vietnam. Another undergraduate group of students took part in a petition in one of the undergraduate houses. Both petitions were made at the noon meal and the houses’ members’ attention was garnered with considerable success. The announcement was greeted with considerable blushing and jeering. Within the next day, the only signatures to appear on this copy of the petition were given by Greenfield, Khrushchev, Mao Tse-Tung, and Ben Dover.

I wish to express here my deep concern about the fact that American students of outstanding intelligence can intelligently allow themselves to make a sick joke of a difficult political question, a question which involves the lives of American soldiers, the threat of nuclear war, and the preservation of the American democratic ideal. Admittedly, students are not always right, but we should not confuse the immature behavior of these crystal students whose laughter is at the expense of the ideals for which our grandparents are fighting.

IH All-Star Team

This year the California Tech took a survey of the IH basketball coaches as to who they thought were the best players of the season. The results have been compiled into the following all-star team:

Frank Potter, RI
Herb Jubin, F
Cliff Tedder, F
Mike Aschbacher, IH
Bill Tyler, IH

(Complete list is given on page 3.)

Les Fettig blasts away in last Friday's game with Rio Hondo. The frosh homerun by 82% UFTQF 11-9.

Baseballers Win

The varsity baseball team finally had a successful day. They traveled to Azusa and played well enough to split a double-header. The first game was a close pitching duel, with the Beavers coming out on the short end of a 2-1 score. The only run for Caltech was scored on a 300-foot bumeran by shortstop Jerry Gowen.

In the second game the bats came alive as Azusa went down 14-8. The Techmen banged out 10 hits and took advantage of every opportunity they got.

Chuck McQuillen was the hero of the day, as he pitched both games and contributed three hits and four RBIs to the attack. The fielding behind him was also excellent as only four errors, none of them serious, were committed. A beautiful double play was turned in by Gary Little and Dennis White.

Fleming Upset, Ties for Second

Interhouse basketball finished off last week with a bang as the major upset of the season took place. In the last game Lloyd upset heavily favored Fleming by a decisive margin of 39-27. This loss enabled Page to climb into a second-place tie as a result of their win over Ricketts.

Against Lloyd the Page men had a cold night and could not take advantage of their height. Tedder, the mainstay of the team, scored only 12 points, and the rest of the team could not take up the slack. For Lloyd, Ring and Hall were shooting well from the outside, scoring 13 and 8 points respectively.

The Page-Ricketts game, which was advertised as a close duel, with the Beavers coming out on the short end of a 7-3 score. The only run for Tech was contributed the final 15 points. Beamer and Davisson ridden Annandale course. They won their match 15-3 while Colburn and Resney teamed up for 17 more. Beamer and Davisson contributed the final 13 points. The fresh also won their match, smashing Whittier 36-0 at Brookside.

**Whittier Wiped**

The Caltech dufters reversed their usual losing ways long enough to cobweb Whittier last Monday by the score of 47-7. Standouts for Tech were Jim Heall and John Vix, shooting 78 and 76 respectively on the mossy Annandale course. They won their match 15-3 while Colglaser and Henney teamed up for 17 more. Beamer and Davisson contributed the final 15 points. The fresh also won their match, smashing Whittier 36-0 at Brookside.

**Page Climbs in Discobolus**

Lloyd had the audacity to challenge Page in volleyball and they promptly got wiped out. The match was played last Sunday and the team of Jubin, McCreary, Maxwell, Trijonis, Isgur, and Goodmansohn made short work of the opposition, winning 15-10, 15-8. Page did not start off too well, but in the end Lloyd was no match for their setting and spiking.

Ruddock was next to challenge, and they did in the sports of soccer, track, and bowling. It will be played off in bowling sometime this week.

Cricketers Start Season

Last Sunday the Caltech cricket team, consisting of two Englishmen, three Australians, one American, one New Zealander, one Irishman, one Anglo-Greek from Bombay, and one Huttenbach, ventured down south to play the Orange County Cricket Club.

Unfortunately they lost by the close score of 130-107. The two teams played one innings each, and thus being their first game of the season, the Techmen started off slowly. Orange County managed to score 65 runs before the first out, but then our bowlers took control. Ezra Mgamba got two wickets for no runs, while Jerry Brady and John Daniger also turned in excellent performances as bowlers.

The Caltech batmen also started out slowly, scoring the first run only after three men were out. Daniger and Peter Dodds performed the best, scoring 29 and 31 runs respectively, but they could not keep their string going long enough to catch up. After the game Captain Huttenbach led his forces on to the beer party that was cordially provided by the opposition.

This Sunday the Banners will face the Pasadena Cricket Club in Tournament Park at 12:30 p.m. This is a very strong team, having two of the best players in the U.S. Come out and watch both teams; you might even learn the game and like it.

Frosh Flatfeet Win in Finale; Varsity Loses

Ending the year with a four-win, four-loss record, the Caltech track team was inundated by Whittier last Saturday, 90-64. The John Greenleefers took 12 firsts in the 17 events as the intense summer sun fired all contestants to a lobster red. The CIT frosh won their first meet of the year, but the purgatorian weather kept the times slow and the distances short.

Caltech was ahead in the beginning of the 440 relay, but that was only because we had the inside lane. Whittier steamed past and won in 42.6 sec. Since Whittier was having a meet simultaneously with Redlands (CIT had already lost to UR), it appeared that we were second. The same thing happened in the mile, when Cross and Miller jogged four laps to conserve their strength for the 440 relay, the mile relay, the two hurdle events, the hop-skip-jump, and the two mile. Caltech won the mile relay with a 3:37.2 only because the Whittier team swept the mile and the two mile and the two mile.

Whittier swept the shot put and javelin, ran away with the 880, and grudgingly allowed Caltech a second in the 440 relay, the mile relay, the two hurdle events, the hop-skip-jump, and the two mile. Caltech won the mile relay with the poor time of 3:37.2 only because we were second. The same thing happened in the mile, when Cross and Miller jogged four laps to conserve their strength for the two mile. We lost.

Whittier swept the shot put and javelin, ran away with the 440 (50.7!!), and grudgingly allowed Caltech a second in the 100-yard dash and the broad jump. Gage and Innes of the Techsquad took the high jump 12, but Lamb in the 880 and Austin in the 220 could only cop thirdeys. Watts took first in the intermediate hurdles, as did Innes in the pole vault and Cross in the two mile. Caltech won the mile relay with the poor time of 3:37.2 only because the Whittierists didn’t enter at that point they had a lead of 41 points.

The frosh took it easy, but the home-team frosh took it even easier, losing to the CIT class of ’88 by a whopping 90-35. In the 440 relay, the mile relay, the two hurdle events, the hop-skip-jump, the long jump, and the two mile the freshman Techers had no position. They swept the mile and the half-mile against weak opposition. It was a unique experience for the frosh to win while the varsity lost, and they enjoyed it.

No additives, please!

We have nothing against salt. On radishes. Or french fries. But not in beer.

Putting salt in your beer, some say, perks up the head . . . or livens up the taste . . . or makes the beer "drier." With Budweiser® though, all salt can do is make it salty. Budweiser is complete ... and smoothness we know of in no other beer. No brewmaster in the world has ever found a way to give you that distinctive Budweiser taste without Beechwood Ageing.

Keep an eye on your Budweiser as it goes splashing down the center of the glass. That fine head of foam is a sure sign of something special below . . . wonderful clarity, real beer aroma, a taste and smoothness we know of in no other beer. No brewmaster in the world has ever found a way to give you that distinctive Budweiser taste without Beechwood Ageing.

So leave the salt in the shaker. We put heart, soul and our exclusive Beechwood Ageing into Budweiser. All you need to enjoy it is a glass ... and a taste for the real thing.

It's worth it ... it's Bud.
