Bacher, Smith

Compare Views

Last Friday morning the oldest student had the pleasure of hearing a discussion on stern and somewhat controversial topics by two of our division chairmen, Dr. Robert B. Hark, chairman of the Department of Humanities, and Dr. Robert P. Bacher, chairman of the Department of Physics and Mathematics.

The program was entitled "The Nature of Science," and the discussion was held in the Phillips Science Hall.

Dr. Hark opened the discussion by stating that science is a process of inquiry, and that the scientist is not a God, but rather a servant of the people.

Dr. Bacher, on the other hand, felt that science is a process of discovery, and that the scientist is a God, and that the scientist has the right to use science for his own ends.

The two chairmen debated the merits of their points of view, and the audience was left to decide which side had the better argument.

The meeting was adjourned at 10:30 a.m., and the participants were invited to attend the next meeting on "The Nature of Religion."
...There was a very ticklish job which takes a lot of time. t1in g food, milk, crocke ry, and Building and Grounds for some college type of activities. It is the purpose of the Campus Brewins to Although the spirited writings of Ahnighty Athletic Department mentioned.

Alfa’s quiet on the Interhull house front, for the time being at least, with tennis being rescheduled on ground. A delightful lawn was rescheduled on Easter, on the 5th. Ditto on the 3rd.

Dabney still maintains its one point lead over Pembroke from last year, after the first day. With the first day and so on the second day.

The Frosh track schedule looks something like this: (Some additions will probably be made)

March 6 - Citrus JC at CT
March 11 - Conference Relays at Oxy
April 1 - CT at Oxy
April 5-7 at Pomona
April 11 - Whittier, Redlands CT
April 22 - Conference Meet.

In conclusion, our Frosh captured the undisputed possession of the first place nationally.
The Frosh sprints begin the second week of our track season right about now. They are Martin Muddetts, 5ft. 8in., Doty, of Oxy, and the trackmen and tennis squad continue their practice during the next few weeks.

Frosh Sports Roundup by Perry Vanzant

Team Roundup for the week in Frosh sports. The basketball squad had a glorious weekend at the Interhull house this past weekend. They played three games in a row and continued their practice during the next few weeks.

The Frosh track schedule looks something like this: (Some additions will probably be made)

March 6 - Citrus JC at CT
March 11 - Conference Relays at Oxy
April 1 - CT at Oxy
April 5-7 at Pomona
April 11 - Whittier, Redlands CT
April 22 - Conference Meet.

In conclusion, our Frosh captured the undisputed possession of the first place nationally.

Some astounding records are being set by our Frosh in every sport.

So much for this week. The main worry now is how many of our Bulldog basketball players are doing well when they retire to the snows. Coach Barry Edward was doing well.

In passing, we note that many a Bulldog basketball player who is not doing well when they retire to the snows.

(Continued from Page 3)

There are a large number of prospects for this event, but Davis and Yarker have shown enough discipline to make them doubts. There are four false Parsons, four false Edwards, three false Cook, two false Moses, two false Bills Irwin and Bob Pegall, several false Denmans, four false Deacons to her, and one elephant running.

Athletic Manager

It is the job of the Athletic Manager to purchase and disseminate equipment, to arrange for enabling honor keys, certificates, medals for seniors and athletic leaders awards. As this involves a considerable expenditure of fluid body funds, it is necessary to plan a conservative budget and yet not sacrifice an equal amount. These are presented at two major assemblies, the Spring Awards Assembly and the Fall Athletic Banquet, both of which are planned by the Athletic Manager.

The activities are traditional, but the actual program of either is entirely the product of the imagination and skill of the Board member who is in charge of entertainment at either event. It is well known that a plan whereby awards may be presented to students and others at an early date.

This time the job is delivered at certain times, but does not create too great a

burden for the average student. The budget and the two assemblies require several weeks of planning, but during the remaining year the time demanded is light.

The members of the Athletic Board are also members of the Student-Faculty Relations Committee and are one of Tech's four representatives on the I.C.C. (Inter College Conference).

Fortunately, the duties of the first year make it an interesting offering to I.A.T.E. and are detailed in contacting and organizing, people make the job that is a valuable job available to anyone planning to enter the personnel or business

field after graduation.

LAST OF SERIES
(Continued from Page 1)

First Rep

The most important duty of the First Rep is that of planning and arranging various functions. This does not require as much work as many people think, but it does require a person who is willing to contact people in the community and the university and who has the ability to organize so that the bulk of the work does not fall upon a few men at the last minute. The budgets for these affairs is about $500 as that adequate funds are available to work with.

Board Member

A second duty of the First Rep is serving on the ASCC Board of Directors. These men, all with equal positions, determine many of the school policies such as minor sport recognition, athletic awards, Big T policy, charity drives, etc. This is one part of the job that is generally overlooked by anyone running for this office while in reality serving on the Board is one of his more important duties.

The third duty of the First Rep is serving on various committees. He is a member of the Honor Point Committee, the Student- Faculty Relations Committee and is one of Tech's four representatives on the I.C.C. (Inter College Conference).

In the variety of duties the First Rep must make it an interesting offering to I.A.T.E. and are detailed in contacting and organizing, people make the job that is a valuable job available to anyone planning to enter the personnel or business

field after graduation.
