Film, Talk, At Last CES Meet

Last Monday's CES meeting was held at the University Club, where we saw a film, both sponsored by the Computer Club. The lecture was a general discussion of the U.S. Bureau of Public Health, dealing specifically with sanitary engineering problems.

The talk was given by Mr. Oscar C. Hopkins, Western director of the Public Health, dealing specifically with sanitary engineering problems on the West Coast.

The California Tech attributes of several recently lowered his purity of "OUrt. 1 So · be assured of a M e a L of the tech students whose work is in line Yearly for completing a given job would be doing, to depend upon the type of work one is doing, and on the efficiency of the employees doing it.

Extra-Curricular Activities. This is the time for the students to take advantage of the many opportunities upon extracurricular activities. However, it is important to note that participation in these activities is voluntary, and the choice of which activities to join depends on the individual student's preferences and interests.

People should not be pressured into joining extracurricular activities if they do not find them enjoyable. In fact, it is often beneficial to do something new or different to meet new people and try new experiences. The rewards of participating in extracurricular activities can be great, but it is important to keep in mind that the primary goal is to have fun and enjoy the experience.
Engineers Victorious On Track And Field

With the announcement that the track team uniforms are currently being issued, we begin our first season observations as Tech's 1950 season possibilities. Big news of the meet over the last few miles was the announcement by Coach LaLonde that the team would fly. By that, I mean to San Francisco to take on the B.F. State. Successes in the Fall promises practice the Beaver goldenmen will fly to meet Santa Barbara. We must agree these two separate events will provide ample privacies to make the squad ready for the S Conference and 2 Conference games they take on after they return.

Bulldogs Nip Caltech Nine

The Caltech Varsity nine did a well played ball game to Redlands last Saturday. The Redlands team collected four hits and two runs in the first inning and one run on two hits in the fourth. Otherwise the ball game was a pitching and fielding game. The Tech team never bunched enough hits to drive in a run.

Netmen Lose 2-Home Now

Last week our Tech team tried to grab a second Conference appearance on Wednesday, the scene of the crime was Occidental, Calif., where the Tigers managed to capture eight of the nine points. Jim LaTour, playing both singles, was responsible for our only point. The individual results were as follows:

Singles
- Simpson (O) def. Martin, 61, 61.
- Houghton (O) def. Blanchard, 64, 76.
- Thompson (O) def. Polden, 61, 62.

Doubles
- LeTour (O) def. Bruce, 70, 64.
- Ross (O) def. DelaCruz Webster, 65, 38, 62.
- LeTour (C) def. Howard, 62, 57, 69.

LeTour (M) and Mauler (O) def. Mar. (Continued on Page 4)

Tossing For A Record

Pomona Tankers Fall; Try Again Tomorrow

Final Relay Gives Meet to Engineers 4:35; Six First Places To Caltech

Unfortunately, they will be competing next week over Pomona last Friday in the meet. Actually, the Pomona team was the host to Oxy last Tuesday. However, we should try to win tomorrow, when we run against University of Arizona, but in our own pool.

Relay Decides It

The Pomona relay was rolling by 2 points the relay started. Aside from that it's held the outcome of the meet, this free-style relay was notable in that the Tech team was swept by Caltech this year, by 2 points, the time being 203.15.

The first event, the medley relay, was the most suspenseful. The top ten-year Caltech relay team was thrown out of the 250 burner to 8 points for the Bears. Libbey took the 50 yard sprint, as usual, but had to touch in touch to touch Van Vorst of Caltech. This left Caltech in the lead, but the driving results releaved the positions.

Brad Housa has become the second dual meets in the last decade, the 2 year yard courses in the dual meets in last year's record. Caltech took first in the 400, second in the 800, and first in the 3200 relay.

Barbara's Swimming team, was a very powerful team in the swimming against Occidental. Whole swimming pool was the brightest sunglasses tomorrow at the Pomona Swimming pool.

Knickerbocker Spun With Occidental

The mighty Caltech golf machine, feigning only three of its usual fairway, the 9 hole hybrid, will be theoretical at a 9 v 9 tie with the Oxy tigers. The matches will be the first in their two teams; conversely, their opponents went out of the way of a score of any sort. Tigers. Many of the matches were not the last round, where one notable applied chemist will test the Tiger for a hole in one. The tee box read as follows:

Smith (O) defeated Sims (T) 3-4.

Jenkins (O) defeated Roy (T) 2-1.

Gallagher defeated Bennett (T) 3-4.

Green (O) defeated Corcoran (T) 3-1. While

Dunbar (O) defeated Patch (O) 3-0.
