FOSSILS

A Return To Valeron?

Totent, the Caltech literary-art magazine, is now accepting themes for a full term issue. Anyone vaguely expected at all with the institution is invited to contribute. Short stories, poems, drawings, photography, etc., are welcome. They may be sent to Valeron, given (un) to (thank) Philip Massey (Ruddick), Kathy Lohr (Dawley), or Joe Coleman (Ruddick). Submissions, which are currently uneyed as x times for y dollars, can be arranged with Gavin Claymon (Ricketts). We are given (free of charge) to ASCIT members.

INJURED IN CHICAGO

Feynman Smashes Kneecap

by Bob Kieckhefer

Caltech's premier quantum mechanist, R. P. Feynman, will not be on campus to autograph Red Books for at least another week. He has been in Chicago's Billing Hospital since September 6, when he fell victim to a macroscopic knee-cap disintegration while attending a high energy physics conference.

Dr. Feynman was at the University of Chicago conference which coincided with meetings marking the start-up of the National Accelerator Laboratory (NAL) in Batavia, Illinois. His knee was being crossed on a park located on the 2nd floor of Winnett. The Y provides a workroom with reproduction materials and other constructive devices. The TV Lounge is located down the hall from the Y office.

Feynman even offers an alternative to food service with its frequent sponsor-ship of famous guests. That's enough, I'll tell you the rest at Fresh Camp.

ASCIT IS

Alive and Well

More or Less

by Jim Hugg

ASCIT Secretary

This column is an almost weekly item in the Tech and is supposed to be a vehicle for releasing information to students, faculty, etc. about the actions of the Board of Directors (BOD) of the student government (ASCIT). Inasmuch as you are fresh, you will hear about ASCIT at Fresh Camp and everyone else is familiar with the subject, I will limit this week's column to the few essentials you will need to know.

Make the Scene at Winnett

The ASCIT office is located in Room 107 of the Winnett Student Center. No one is in the office, then ask for Louise Hood in the office or try the newspaper office in Room 115.

You should visit the Winnett Lounge, which boasts bean bag cushions, swing and rock chairs, an organ (with harmonium), piano, and a free - that's right - free juke box. The game room is in the basement of the student center. Keys are available from Louise Hood.

The Caltech Y offices are at the Y.

Hot Bibles for at least another week. He has been in Chicago's Billing Hospital since September 6, when he fell victim to a macroscopic knee-cap disintegration while attending a high energyphysics conference.

**Student Loan Program Info**

The President has signed emergency amendments to the Guaranteed Student Loan Program. In essence, this action means that the rules governing the program before July 1, 1972, are again in effect.

Briefly, the program now enables a student to borrow up to $1,500 per academic year for education expenses. If the student’s “adjusted family income” is less than $15,000, the Federal Guaranteed Student Loan Program will cover the entire amount due for educational expenses. If the student’s family income is less than $15,000, the Federal Guaranteed Student Loan Program will cover the entire amount due for educational expenses. The student is responsible for the interest on the loan and for any that accumulates until the principal is due for payment.

The Education Amendments of 1972, which became effective July 1, 1972, called for an analysis of the student’s need for a loan by his educational institution. This requirement is eliminated by the emergency legislation. However, notarized affidavit (Section A of OE form 260), stating that the loan will be used only for educational purposes, is still required. Sections B and C of the form are to be completely disregarded.

Loans made between July 1, 1972, and August 18, when interim regulations applied, will be honored. However, students who received loans during that period may consult their lenders if they have need of additional financial assistance. Interested groups should contact Dr. Richard Hertz at extension 1064 for details and to provide preliminary information on the demand for space. Eventual assignment of space will be made by duly constituted authority of the student government.

**Office Space Available**

by Etaoin Schroedlu

One of the traditional Caltech problems, lack of space for student activities, is being alleviated this year. Under the leadership of Dr. Richard Hertz, eleven rooms under the Old Houses have been made available for office and activity space for official student groups.

The rooms are under Dabney House, where the Food Service employees used to live. Floor space in each room is over one hundred square feet. Lighting has been installed throughout the summer, and the floor space will be available for the use of the students who will use the rooms. Special arrangements will be made to provide bulletin boards and other office materials to those groups that can make good use of the space.

**Cross Country Team Faces Oxy & LaVerne**

In Season Opener

The Caltech-Cross Country Team opens its season next week in a dual meet against Oxy and LaVerne on LaVerne’s course, Coach Beth Lathrop announced this week.

Four returning members of last year’s team will lead the Beavers into six dual meets and the Conference Championship on November 4th. Senior Greg Griffin who was the harrier’s leading competitor, will team with sophomore Scott Matthews, Ralph Terry and junior Alan Kleinsasser make up the returning runners to LaPhrueker’s team. Kleinsasser is the school’s record holder in the 880 and mile and has lettered the past two years in Cross Country.

Sophomores Erik Horsey and Tom Atkinson are in contention for the first time this year in this fall sport. Horsey has been looking forward to this season ever since he worked this past week.

Cross Country

Continued from Page Two

The two freshmen rounding out Caltech's team are Terry Savage and Jack Bacon. Bacon has been injured the past week, which will affect his early season performance. He is expected to return to action in time for the first meet. Savage has been bothered with blisters but has continued to turn in excellent workouts.

The Beavers last year finished an overall 6th in the conference, swimmers will be vital to the team's success. The top freshman prospects so far are Howard Bubb of Covina, Jim Rowson of Glendale, and Dave Clark of Lakewood. There is still plenty of room for more swimmers, though, as at least 14 men are needed to field two teams (Varsity and J.V.).

The Beavers start their season Saturday at 4 p.m. with a game against the University of Arizona.
